

SUPFRAGETTES ARE WINNERS

ASQUITH WILL MAKE VOTES FOR WOMEN A MAIN ISSUE

Personally Abhorrent to Him. It is a Campaign Necessity—Unionists May End for Female Support Too—Boaters on Brooklyn Tables Case—Gossip of London.

Special Cable Dispatch to THE SUN. LONDON, May 23.—Prime Minister Asquith's surrender to the suffragettes is the paramount topic of the week in British politics.

The reform bill which the Government will introduce at the close of the session, will be designed solely for electing purposes. There is not the slightest doubt that a sweeping woman suffrage provision will be inserted by a big majority.

Wide-spread interest has been evoked in England this week in the ethical and medical points involved in the case of Mr. Marsh, the Brooklyn man who died of hydrophobia.

Whatever the American medical-society may do in the case of the New York physician, interference from such a source would not be tolerated in this country for a moment.

When the action of the owners of the American Line steamship St. Paul against the Board of Admiralty in respect to the collision with the warship Gladiator begins on June 3 it is understood that the Admiralty will plead privilege and urge the claim often set up in the past and tacitly admitted by the mercantile marine, that all ships should give way to a warship.

The Prince of Wales, who is never a cheerful martyr at functions which his position forces him to figure in, was positively furious at the state of utter unpreparedness of the Franco-British Exposition on the opening day.

The Premier is said to be gravely anxious about Mrs. Asquith. She has always been known as a devoted wife and a woman of keen susceptibilities.

The clouded, foggy and generally unsettled conditions which have prevailed over the eastern States Tuesday continued yesterday, with rain falling at scattered places in the middle Atlantic States and New England.

The temperature yesterday, as recorded by the official thermometer, is shown in the annexed table:

Herr Dippel in an interview prior to starting for the Continent paid a marked tribute to English voices. He said that during his short stay in London he had heard many beautiful voices and had some of them under consideration for engagement in New York.

I know that experiments have been tried, but they might with advantage be pushed further. Personally, an interesting plan for performing one or two works in English with English singers next season in New York.
