

GOLD ON ALASKAN GREBS

SOME MINERS FIND IT ON THE INNOKS BRANCHES.

As Army Officer Has Listed Them—Butte and Itaklavva to Pool Its Stock—Goldfield on the Alert—News and Notes From Many Western Centres.

SEATTLE, Aug. 18.—Lieut. Jacob Schick was for the last two years has been stationed at Fort Gibbon, at the mouth of the Tanana River, on the Yukon, is in town with a list of the claims and lya operated this season on the creeks of the Innok, a list furnished for accurate and complete review of what is just now the most prominent of the later discovered regions of Alaska. The report is as follows:

ON OTHER GREBS.

No. 6—Edwards, Warner and G. Frey have a little pay.

No. 7—below lower discovery—Bob Brown and Tom McKee, and Warner, owners, have a little pay.

No. 2 below lower—Charles Wood, layman; Hansen, owner, has a little pay.

No. 1 below lower—J. Edwards and Warner, owners, have a little pay.

No. 1 below lower—Ollie Gjerdli sold claim.

No. 1 above lower discovery—M. Minard & Co. have a lower—Charles Benn. They have a boiler and pay.

No. 2 above lower—Hector Bollack has pay.

No. 3 above lower—Joe Chena has cross-cut six feet and a good lot.

No. 4 above lower—Jack Phillips and Marquette have pay.

No. 5 above lower—Summers, Marland Gedin and Aytie are working the claim and have pay.

No. 6 above lower—Healy, Hill, Kboe and Whaley are operating.

No. 7 above lower—Marotte, Phillips and Dods are operating.

No. 8 above lower—Ollie Gjerdli has pay.

No. 9 above lower—Joe Ronger, Bollack and Chena have a lay from Bollack, Black and Ziegler and are operating the claim.

No. 10 above lower—In litigation: Aytie vs. Blair Murray; worked by Marland and Hinson.

No. 11 above lower—Cook operating one-half and Burke Bro., layman, from Iveson, are working the other half, and they have good pay.

No. 12 above upper—Morton has a lay from Mrs. Vinal.

No. 2 above upper—Don't know owners.

No. 3 above upper—Not working; owned by Gjerdli and Harry Berne.

No. 4 above upper—Mining operated by Dan Calahan and Japanese.

No. 5 above upper—Idle.

No. 6 above upper—Jameison, owner.

No. 8 above upper—Bert Eaton, owner.

CLAIMS.

No. 4 below upper—Bert Walker and W. H. Lawrence, owners.

No. 4 below—Not working.

No. 3 below—Open cut; A. Backstrom has good pay.

No. 2 below—John Mackey has good pay.

No. 1 above discovery—Open cut; Billy Bueck, owner.

No. 2 above—Jack Yaker, building ditch.

No. 3 above—Meyers, owner.

No. 4 above—Laurance and De Marsh have good pay, about the same as on the creek.

No. 5 above—Not working; Hill, Kboe and Whalen, owners.

No. 6 above—Bakens and partner, owners.

No. 7 above—Open cut; Bill Hunier has good pay.

No. 10—Not working; Charley Wolf, good pay.

No. 11—Ed Kimball, owner.

No. 12—Charley Cowan, owner.

SPRUCE CREEK.

No. 25 foot fraction on No. 3 above upper discovery—Hugle and Pader.

No. 3 above—Capt. Baker, owners.

No. 4 above—Mills, Austin and the "Ore-Id" owners.

No. 5 above—Frank is sinking on Bedrock Creek.

No. 6 above—Open cut, owned by Austin and Louis Schick, and Harry Fetherling and partner; Johnny Barnette has a lay on the lower 200 feet.

No. 1 above—In litigation: Marshall vs. Betty.

No. 2 above—Dan Nicholson and partners, owners.

No. 3 above—Barlow has good prospects.

No. 4 above—Hugh Marland; not working.

No. 5 above—Joe Nardden, on lay to N. P. and F. Baker, who are prospecting.

No. 6 above—Scotty Blue and "Shorty" Dodge, on lay to Arthur Eaton, No. 5 is owned by the same people.

No. 7 above—Hutchinson and Barlow, owners.

No. 8 above—Tony Farland; owners.

No. 9 above—Tom Linde, owner. There is a fraction between 9 and 10 owned by Aytie, a lay to George Murray, Fred W. W. and Louis Edwards, No. 10, the same.

No. 11—Owned by Corning, on lay to Jake Weir, not working.

No. 12—Chesey Austin, not working.

No. 13—Mills, Austin and the "Ore-Id" machinery.

No. 14—Scotty Blue, lay to Dugan and Swartz.

MONTANA.

HELENA, Aug. 18.—Articles of Incorporation of the Perseverance Mining Company have been filed with the Secretary of State for the purpose of developing and operating the White Pine mine in the Warm Springs district of Jefferson county. The properties are adjacent to the Fleming and the Greenhorn mines, and are valued at \$100,000. The ore is an iron-bearing siliceous quartz, silver and copper, and smelter returns on shipments thus far made run on an average above \$32 per ton. The property is being developed by two tunnels, and the presence of copper in the lower workings seems to indicate that substantial values in the red granite will be found at water level.

The report of the official in charge of the United States Office in this city for the month of July shows that the receipts for the month amounted to \$1,021,375, as against \$1,175,000 in the same month last year. The gold receipts amounted to \$181,022, as compared with \$197,000 for the first time in many years. Madison, the county in which was first discovered in Montana in 1875, is producing 1,000,000 lbs. of gold, and is second, Chouteau third and Lewis and Clark fourth.

The July receipts to the mining industry in Montana were \$1,021,375, as against \$1,175,000 in the same month last year. The gold receipts amounted to \$181,022, as compared with \$197,000 for the first time in many years. Madison, the county in which was first discovered in Montana in 1875, is producing 1,000,000 lbs. of gold, and is second, Chouteau third and Lewis and Clark fourth.

The Pioneer Oil Mining and Refining Company has been incorporated in the State of Montana for the development and operation of several claims near Wisdom, Beaverhead county. The company has an authorized capital of \$500,000. O. S. Porter is among the stockholders.

Ores are wanted by the Montana Mining Association for treatment at the smelter at Pocatello, Idaho, which has recently looked over as the result of a meeting of mining men in this city to protest against the charges in the Washington State has been filed by the association. The association has a fund which will pay for the ores as soon as they are assayed.

A strike is reported in the Tacoma mine, Chouteau county, in which the ore is being worked in the face of a 60 foot tunnel there is a full ton of gold ore which runs from \$11 to \$12 per ton, and in the lower workings the ore is assaying \$20.00 per ton. A full ton of gold ore in three feet wide at the foot of the shaft, which is 100 feet deep, will cut this within another 20 feet.

Because of litigation the Hannah mine near Phillipsburg was shut down for two days last week. The property is owned by the Montana Mining Association, and is being worked by the Montana Mining Association. The property is being worked by the Montana Mining Association.

richer ore will be found, as at the 250 foot point in the shaft stringers of chalcocite veins are 12 to 15 per cent copper, and the center, copper-silica in the direction of the hanging wall.

After long and successful runs most of the placer mines of Idaho Basin are depending upon the success of the silver and copper ores. The Montana company that lately secured an option on the Silver and copper mine at Idaho City is increasing its number of men.

MEXICO. MEXICO CITY, Aug. 17.—E. A. Lafrancois and G. J. Caudel have sold a controlling interest in their Carmen mine situated near Tecuani, Oaxaca, to the Oaxaca Mining Company, which is composed of Law J. H. Gray of Port Hope, Ind. and others. The Carmen mine has produced considerable shipping ore in the last two years. The property is well equipped with steam hoist and a large pump. The principal workings are in a level deep in the mountain, and the vein is 100 feet deep.

FAIRVIEW, Aug. 17.—Work on the Eagle mine is opening a great body of ore, and the vein is 100 feet deep. The mine is situated on a hillside, and the vein is 100 feet deep. The mine is situated on a hillside, and the vein is 100 feet deep.

COLORED SPRINGS, Aug. 18.—A four foot vein recently struck on the North Star mine near Mountain View, Colorado, has yielded gold, silver, lead and copper values are found. The vein is 100 feet deep, and the mine is situated on a hillside.

THE McCaskill mine on the Stratton Independent mine, Cripple Creek, is a 3 foot vein of free gold and silver, averaging 100 to 200 tons, cross vein veins, and the vein is 100 feet deep.

THE Washoe smelter at Anaconda established a new record of copper production, 20,000,000 pounds, and it is likely that the smelter will produce 20,000,000 pounds more in the next few months.

THE Burns-Moore tunnel on Chicago Creek, Idaho Springs, is a 12 inch shaft of smelter, and the vein is 100 feet deep.

THE Golden Slipper cyanide mill, which has been closed for some time, is being worked by the government, and the vein is 100 feet deep.

THE Gold Sovereign mine, Cripple Creek, is a 12 inch shaft of smelter, and the vein is 100 feet deep.

THE Ancheria-Leland Company, at Cripple Creek, is producing 50 cars of \$4 to \$5 monthly.

DEADWOOD, Aug. 18.—The personal supervision of President Curtis the work at the Golden Placer Mining and Cyanide Refining Company, near Lead, is being worked by the government, and the vein is 100 feet deep.

THE Gold Sovereign mine, Cripple Creek, is a 12 inch shaft of smelter, and the vein is 100 feet deep.

THE Ancheria-Leland Company, at Cripple Creek, is producing 50 cars of \$4 to \$5 monthly.
