

INTERSCHOOLISTIC SPORT

MANY SHIFTS MADE IN HIGH SCHOOL ELEVEN.

Coaches Make Experimental Changes as Result of Election Day Games—Tule's Record in the Stevens Game—Standing of the School Soccer Teams.

As a result of the election day games there has been a change in the lineup of practically every one of the local school football teams. All of the remaining games are big ones from the standpoint of the coaches and the players.

In the Commercial game Friedman played at left end on the Manual line instead of at left tackle. Herlman was put in at left tackle for Hartinson and Koon, who were formerly left guard.

Erasmus Hall had such an easy time setting up its 4 to 0 score against Townsend Harris that nearly the whole second team was put in and the regulars were saved for more important contests.

Coach Thompson of Poly Prep caused a change in his line which proved very satisfactory in the Pawling game.

AUTOMOBILES

SIX-CYLINDERS AND PERFECTION

BY GEORGE FITCH IN COLLIER'S WEEKLY

"Thus the automobile arrived by rapid stages to its present perfection. It now has six cylinders. It is so quiet that the occupants of the tonneau have to talk in whispers to keep the chauffeur from hearing."

"It uses the same amount of gasoline as the old car, but spends more of it in power and not so much in noise and smell."

"It can go so silently in the country that a constable cannot hear it, and can make so much noise in front of a theatre that every one turns to look at the occupants. It can go so slowly that every one can read the crest on the tonneau door, and so swiftly that the number on the rear axle is invisible."

WINTON SIX

Two models. 48 h. p. five-passenger car, \$3000. 60 h. p. seven-passenger car, \$4500.

The Winton Motor Carriage Co. Member A. L. A. M. Broadway and 70th St. New York City.

AUTOMOBILES
