Look Over the Finest Medium. Powered Car Built in America. Mora 1909

## 24-28 H. P., \$1850.

The 1909 Light Four-Cylinder MORA absolutely supplies the distinctive deriand for a medium priced, stylish, economical car of the highest grade construction. It embodies more exclusive and expensive features conducive to efficiency and reliability than any car in its class or selling for $\$ 1,000$ more

Its ease of control, its quiet and smooth operation, its simplicity of construction and superb finish stamp it as the best value ever offered to the American public.

The new Light Four MORA is built in a modern factory, equipped with the latest improved machinery, on mechanical principles that are right-that makes its highgrade quality possible at the price.

The power plant of the new Light Four Mora is similar to that which holds the World's Sealed Bonnet Record (over 10,000 miles) refined beyond criticism.

The 1909 Mora Light Six $42-50$ H. P. is the same as the '08 aside from refinements. Mora Sixes have all the mechanical betterments of the highest priced cars-drop frame, I beam front axle, all-ball-bearing engine (F. \& S. imported annular ball bearings); double ignition, $36^{\prime \prime}$ wheels, etc. Racytype, fully equipped, $\$ 3,500$; Tourer, fully equipped, $\$ 3,600$; Roadster, fully equipped, $\$ 3,750$.
