

AMONG THE AUTOMOBILISTS

AT LENGTH QUEENS ROADS TO BE REPAIRED.

Work to Start Perhaps Today, Certainly Some Time This Week, on Thompson Avenue, Hoffman Boulevard and Hills Avenue. Hoffman Boulevard and Hills Avenue Repair Long Needed.

It is information and certainly will be of interest to motorists to know that the work on the roads in Queens, N. Y., is well advanced. The work may start this week or next, but it will be less than a week before it is completed.

Mr. Brandon said he didn't think the repairing of roads was such a fault in the commercial vehicle industry. He said that the roads in Queens were in a bad state of repair and that the work on them was long needed.

Vanderbilt will be held very likely on November 27 or 28. The Oldsmobile Company got a letter from Joseph Hartwell of Phoenix, Ariz., saying that he was on his way north by coast line steamer and wanted to have a car ready for him on his arrival at the city on June 12. He said that if the car was all right he'd stop on the way to the hotel and pay for it.

The bureau of tours of the Automobile Club of America reports that the ferry boat running between Old Lyme and Saybrook, at the mouth of the Connecticut River, was struck by lightning and destroyed. This leaves no way of crossing the river at this point until the new bridge is opened, which will probably not be until the middle of the summer.

Activity in East France is indeed proportionate as most one automobilist can testify. The fines inflicted are \$75 and \$100. The usual charge against the motorist is that he was driving too fast. A policeman once produced as a witness another motorist so charged a man who said he was able to judge the speed because of the way the lights on the car moved along.

Mr. Carson of the Oldsmobile Company says the car was a 1910 model. He will very likely from the description and that Hartwell bought the car and now is touring in New England with it.

ANNOUNCEMENT

In announcing Model XXIV-B for 1912, we call attention to the graceful lines, luxurious appointments and perfect mechanical construction of this latest product of Autocar development.

Model XXIV-B will be on exhibition at our Branch Houses in Philadelphia, New York and Boston this week. It is the best car that the Autocar Company—one of the oldest automobile manufacturers in the United States—has ever turned out.

Designed by Mr. Louis S. Clarke, who has built thousands of cars, this new model embraces the best features of American and foreign construction. Mr. Clarke and his brother, Mr. John S. Clarke, founders of The Autocar Company, have made frequent trips abroad in the careful study of automobile development, and give to the Autocar the result of their fifteen years of experience.

The 1912 Autocar will give you more value and better service than you can get elsewhere at even a higher price. This is a strong statement, but a true one, as your investigation will prove. The more you examine other automobiles, the more certainly you will come back to the Autocar.

Model XXIV-B has thirty-seven inch wheels, one-hundred-and-seventeen-inch wheel base, and a thirty horse power motor. An important feature that makes for comfort is the low, roomy seats, upholstered in French hand-buffed leather with generous space for foot room between the seats.

Complete equipment is included in the price of Model XXIV-B—extra tire, trunk rack, speedometer, electric and bulb horns, rain vision wind-shield, mohair top and boot, motor-driven tire pump, clock, two gas lamps, three electric and oil combination lamps, gas tank, Truffault-Hartford shock absorbers and full set of tire chains.

Interchangeable Fore-Door \$2750 Touring Car without Fore-Door \$2650

Continuous Efficiency Guaranteed

REPUBLIC STAGGARD TREAD TIRES

because to a side thrust the Republic Staggard Tread presents the effective resistance of six long high edges. These edges or ridges are higher and sharper than those obtained in any other stud design. Accordingly this tire is the most effective of its type—as a preventer of skidding—a fact which any experienced chauffeur will corroborate.

At Cars: Big Stock; Lowest Prices DEMONSTRATIONS GIVEN. SQUARE DEALS ALWAYS. Tires and Tubes—Rock Bottom Just bought out a large lot of Concern Bodies, New or 2d hand, \$60 up Ready for your chassis, Whole lot Complete. BROADWAY AUTO EXCHANGE, 1759 to 1767 Broadway (bet. 56th-57th).
