

DEMOCRATIC CAUCUS TUESDAY

SENATORS TO ACT ON ELECTION LAW AMENDMENT.

Senate Passes Bill Permitting Storage Reservoirs in Forest Preserve. Also Bill Compelling Board of Estimate to Provide Funds for New Court House.

ALBANY, June 15.—The Democratic Senators will hold a caucus next Tuesday night upon the election law amendments introduced by Chairman Levy of the House Judiciary Committee and the bill establishing a State Conservation Department.

The Senate to-day passed without a dissenting vote Senator Burd's proposed constitutional amendment permitting storage reservoirs and hydraulic development in the State Forest Preserve. The bill provides that the Legislature may by general laws provide for the use of not exceeding 3 per cent. of State lands for the construction and maintenance of reservoirs for municipal water supply, for the canals of the State and to regulate the flow of streams. Such reservoirs shall be constructed, owned and controlled by the State, but such work shall not be undertaken until after the boundaries and high flow lines thereof shall have been accurately surveyed and fixed and after public notice, hearing and determination that such lands are required for such public use.

The expense of any such improvement shall be apportioned on the public and private property benefited in proportion to the extent of the benefits received. Any such reservoir shall always be operated by the State and the Legislature shall provide for a charge upon the property and municipalities benefited for a reasonable return to the State upon the value of the rights and property of the State used and the services of the State rendered, which shall be fixed for terms of not exceeding ten years and be readjustable at the end of any term. Unsanitary conditions shall not be created or continued by any such public works. A violation of any of these provisions of this section may be restrained at the suit of the people, or with consent of the Supreme Court in Appellate Division on notice to the Attorney-General, at the suit of any citizen.

The Senate passed Senator Stulwell's bill providing that the New York City Board of Estimate and Apportionment "shall" instead of "may" appropriate moneys for a new court house in New York city, and Assemblyman Morik's bill providing for an additional municipal court justice in Bronx location.

Senator Grady to-day urged the Senate to pass the bill of Senator Griffin which deprives the colonels of regiments of the honor of appointing officers. He said members of military companies to name their own officers. Senator Grady said that the military law in its present shape has created an aristocracy among the officers of the National Guard.

"Now the colonels can elect the rank and file," said the Senator, "and name and elevate any of their favorites, and that is a question of the most all-decorated in lace and spangles against the private."

Senator Griffin said that it was about time the Guard became more democratic and put more confidence in the men in the ranks.

Senator Wainwright, who is a retired officer of the Guard, objected to the bill and insisted that the colonel was the best qualified to select company officers.

There were not enough Senators present to pass the bill and it was laid aside for the present. It will pass the Senate next week.

The Senate Codes Committee decided to-night to report favorably Senator Loomis's bill abolishing the present Judges of the Court of Claims, whose terms do not expire until 1916. The bill authorizes Gov. Dix to appoint three new judges, one for a term of six years, one for four years and one for two years. The present Judges of the Court of Claims get a salary of \$5,000 and expenses. The Loomis bill cuts these salaries to \$6,000 each and limits a Judge's expenses to \$1,500 a year.

A majority leader of the Senate said to-night that the Senate Codes Committee will meet before the session Monday night and amend the Loomis bill so as to transfer the jurisdiction of the Court of Claims to the State Board of Claims, as it was established originally and as it had existed for years until the Republicans jockeyed with the law for purely partisan purposes.

The Republicans in the Legislature are much disturbed at the prospect of losing this political patronage and had suggested that a majority of the Senate Codes Committee had been pledged against reporting the bill. But the Democratic leaders have been working quietly on this question for some weeks past and insist that they are going to restore the Court of Claims law to its original function and that they have the votes to pass the Loomis bill in the Legislature.

The Senate to-day passed Assemblyman Cuvillier's bill appropriating \$5,000 for a monument in New York city to commemorate the deeds of the soldiers of Meagher's Irish Brigade during the War of the Rebellion. The bill establishes Col. Louis D. Conley, Lieut. Col. Correll Nagle and James J. Smith of the sixty-ninth Regiment, Col. Edward R. Duffy, formerly of the Sixty-ninth, John D. Crimmins, Lieut. John Nugent and Lieut. Col. Thomas J. Conahan as a commission to have charge of the erection of the monument, and they have planned to raise private subscriptions so that monument costing \$100,000 will be erected.

The Senate Judiciary Committee to-night reported favorably Senator Raynes's proposed constitutional amendment amending the legislative employees compensation act and the bill providing for the Schoharie Valley water storage reservoir.

DAVID B. HILL MEMORIAL.
Services to be Held July 4.—Judge Parker to Deliver the Eulogy.

ALBANY, June 15.—Senator Thomas E. Grady, as chairman of the joint legislative committee to arrange a memorial service in honor of the late David Bennett Hill, announced to-night that the committee had decided upon a memorial service to be held in the Assembly chamber Thursday night, July 6, and that Alton B. Parker had accepted an invitation to deliver the eulogy.

It has been expected that the Legislature would complete its regular legislative business by June 30 and that the Legislature then would come back after the new charter for New York city had been completed and pass the charter and a Congressional reapportionment bill after the United States Senate acts upon the question. The fixing of the date for the Hill memorial service on July 6 would indicate that the legislative leaders felt that they might be unable to finish on June 30 and would have to take a recess over July 4.

International Aviators Change Their Name.

The certificate was signed by Alfred J. Mossant, Adam Brown and Adolph K. Wuppermann.

The Late Judge Tilden's Successor.

ALBANY, June 15.—State Commissioner of Excise W. W. Tilden appointed to-day Ira L. Rosenfeld of Brooklyn as attorney in the Kings county office of the department. He succeeded to the duties of Tilden and will receive \$3,000 a year.

WATCH SAVED BY ITS CHARM.

It Was an Elk Tooth and Owner Was Found Through Local Lodge.

Detectives Bloom and Fiedler were in a Rivington street pawnshop Wednesday afternoon when a young man entered and asked for \$10 on a gold watch. An elk tooth charm attached to the chain attracted Bloom's attention and he asked to see the watch.

Inside the back he found the inscription "William McCrea, from father and mother on his twenty-fifth birthday, November 25, 1880." The charm was numbered 23. The boy told the detectives he had bought it. He said he was Alfred Rosenfeld, 19-year-old, of 42 Grand street.

Then Bloom went to the local Elk lodge and learned that No. 33 was a lodge in Utica, N. Y. A telegram to that city brought the answer that McCrea was in the clock business in Twenty-second street and the detectives found him yesterday morning. McCrea was greatly pleased to see his watch again and said that it was taken from him just before the day before and that Rosenfeld was in his employ.

Magistrate House held Rosenfeld in \$100 bail for trial.

COOK WITNESS AGAINST PEARY.

Frankie Suing for Furs Said to Have Been Left With the Explorer.

Dr. Frederick A. Cook, north latitude uncertain, appeared yesterday before Carl L. Schurz, a lawyer of 40 Wall street, to give testimony in the suit brought by Rudolph E. Frankie against Robert E. Peary. The suit is to recover Frankie's alleged share of a quantity of furs obtained by himself and Cook from the Eskimos and left with Peary. The total value of the furs appears from the testimony to have been about \$100,000, which Frankie claims is half.

The suit was brought in Berlin and Mr. Schurz was appointed a commissioner by the German court to take Cook's testimony. Cook told of the obtaining of the furs by himself and Frankie and of his leaving the whole lot with the latter. About the later developments of the transaction Dr. Cook had no personal knowledge.

The new straw—the Hak-Hak—you can get only at Macy's. Costs you \$1.88.
