RECIPROCITY GAINING GROUND.

Candidates on the Conservative Side in Canada Back Out—Western Estimate.

OTTAWA, Sept. 9.—Announcements of breakdown of the opposition to reciprocity following the retirement of M. J. Howell, the Conservative candidate in Battleford, where the Liberals had a majority of over 1,100 last election, F. A. Morrison, the Conservative candidate in Victoria, Alberta, announces that while criticising the present reciprocity pact he is in favor of reciprocity with the United States.

From Winnipeg also comes the statement that the Hon. Clifford Sifton, former Minister of the Interior, has sold his interest in the Winnipeg Free Press to a syndicate of leading western Liberals.

Setting on the result of the election is causing a large sum of money to be bet on the result here and in Montreal, the opposition supporters demanding and getting substantial odds—2 or 3 to 1 on the general result being the ruling odds.

PROF. H. E. MILLS RESIGNS.

As President of Poughkeepsie's Board of Education.

POUGHKEEPSIE, Sept. 9.—In a curt letter of resignation to John K. Sague, the reform Mayor of Poughkeepsie, Prof. Herbert E. Mills, president of the Board of Education, to-day cited as among the reasons for his resignation that recently a majority of the board had taken action which seemed to involve favoritism in business patronage, a low standard of qualification in an important appointment and other unfortunate tendencies.

Prof. Mills' resignation was accepted by Mayor Sague, who expressed his regret at his retirement. The professor fills the chair of economics at Vassar College. He said to-night that he did not desire to explain further at this time what he meant by his allusion to "favoritism in business patronage," but it was that condition that most influenced his retirement. He said that the school commissioners with whom he differed were honest and sincere, but there was no reason for his continuing to work on the board when his efforts to work administration standards were futile.

Through the efforts of Prof. Mills the taxpayers of this city have recently been persuaded to spend \$20,000 in improving the public school system.

COOL ABOUT TAFT'S VISIT.

Gov. Eberhart's Advisers Are Fearful of the Outcome.

ST. PAUL, Minn., Sept. 9.—Some political advisers of Gov. Eberhart would head off if they could the visit of President Taft to Minnesota on October 24, 25 and 26. This is impossible, of course, but members of the Governor's official family have voiced their disapproval of the visit at this time and believe that it is one of the worst political blunders of E. E. Smith, chairman of the State central committee.

The wish to head off the President's visit was born after the farmers' meeting at the State Fair, in which President Taft was roundly scored. More than 70 farmers condemned his stand on the tariff. Gov. Eberhart dropped into the meeting and received a cool reception. The Governor had given a public interview to the effect that he had encountered scarcely any anti-Taft feeling, and it is said that before the meeting the farmers converted him to the belief that there was plenty of it.

Conferences have been held this week to discuss the Taft visit. While depicting the action of the leaders in getting Taft those who oppose it believe that it is too late to sidetrack the visit now. James A. Lawney, Mr. Smith, Dan Gunn, Dan Sisk and a number of others have discussed the contemplated visit.

It is said that the Eberhart organization stirred up at first the anti-Taft talk to secure a generous donation from national campaign fund for use in Minnesota and that the ball they started rolling has got so big that they cannot stop it.

What Taft's Winnetou speech did to Mr. Taft's popularity in political circles and it is predicted that a Mankato speech will be inimical to the political future of Gov. Eberhart.
