

STOPS LOAN TO THE MANCHUS

U. S. SAYS CHINESE REPUBLICANS MUST ALSO ASSENT.

New York Help to Imperialists Cut Off Yuan Shih Kai Near a Break With the Assembly—Constitutional Convention Idea Gains—Foreigners Killed.

Special Cable Dispatch to THE SUN. LONDON, Nov. 22.—The Pekin correspondent of the Daily Telegraph says the government of the United States has indicated its objection to the loan to the Manchus on November 15 is not a sanction any loan which would not ratify the Manchus' monarchist and republican.

The latter have been steadily drawing out their boards of gold bars in foreign banks.

PEKIN, Nov. 21.—The struggle for ascendancy between the monarchists and republicans still prevents progress in the settlement of China's troubles. Yuan Shih Kai's soul remains unshaken in his advocacy of the monarchy and he seems to be drifting toward a conflict with the National Assembly.

The Assembly is further aggrieved by Yuan Shih Kai's refusal to attend the session which he has attended in the past.

Yuan Shih Kai, whom Yuan nominated as Vice-Minister of Education, has declined the post for the purpose of organizing a league which will combine the political elites of the empire and facilitate plans to decide on a monarchy or a republic.

The league has issued a manifesto which demands that fighting cease and that representatives of monarchists, republicans and neutrals be summoned to attend a neutral conference in some neutral city distant from Peking and decide by ballot as to the form of government.

The events in Peking seem to be gripping the people everywhere. In addition to Wu Ting-fang's proposals for a conference at Shanghai and Li Yuan Hung's for one at Wu-chang, other cities are putting forth claims for a similar convention.

Li Yuan Hung told the American Consul at Hankow today that fourteen provinces were sending delegates to the Wu-chang convention.

Swedish missionaries who arrived at Tientsin last night confirm the reports of the massacre at Shan-fu. The victims, they said, were Mrs. E. R. Beckman, a schoolmistress, five foreign children, a German in the Chinese mail service and many Chinese girls who attended Mrs. Beckman's school.

The Chinese girls were killed because their feet were normal and they were mistaken for Manchus.

It is reported that the missionaries had persuaded the girls to remove from their feet the sandals usually worn for the purpose of forming the much-admired small feet for which the Chinese women are noted.

NO LETUP ON SHUSTER.

Russia Insists That Persia's American Treasurer Must Go.

Special Cable Dispatch to THE SUN. ST. PETERSBURG, Nov. 21.—It is reported today that Russia will insist on the resignation of W. Morgan Shuster as Treasurer-General of Persia.

It is rumored that Persia has begun negotiations in the hope of staying the march of Russian troops on Kavevin. Russia is not likely to negotiate at the eleventh hour or halt the troops until Kavevin has been occupied.

LONDON, Nov. 22.—A despatch from Tehran to the Times says that Morgan Shuster, the American Treasurer-General of Persia, told the Foreign Office when asked to withdraw the gendarmes from the property of Shuaib Sultanah, the brother of the ex-Shah, that as the contents of the palace were valued at 200,000 tomans, or about \$200,000, and as the women were daily attempting to carry off the plate he could not be responsible unless his own gendarmes remained in charge.

The correspondent denies that Mr. Shuster intends to resign. A new cabinet is being formed which is disposed to accede to Russia's demands. The British, at Parliament, however, remains aloof and may refuse to approve the cabinet.

WASHINGTON, Nov. 21.—The State Department has received a copy of the circular note sent by the Persian Government to the Powers setting forth its position in its present difficulty with Russia.

Although W. Morgan Shuster, collector of the Persian revenues, is an American and his administration of the fiscal affairs of Persia has precipitated the trouble between Russia and Persia, the United States has no reason to interfere.
