Trunk Drops 230 Feet in Safety

Strikes Ground With a Blow Equal to 6,000 Pounds.

An Indestructo Dreadnaught Trunk was deliberately dropped off a ten-story building to prove its remarkable built-in strength.

Baggage men consider 12 feet a severe fall for the ordinary square jointed trunk.

Experts who saw the test said the trunk fell 230 feet, struck the earth with a blow of 6,000 pounds—in safety—this would not have been possible, but for the fact that the jointless construction of the Indestructo offers no loose boards or nailed edges to shatter on the impact.

Only the built-in "emergency strength" of the Indestructo trunk makes such feats possible—and it is this strength upon strength that protects your baggage when you travel.

You get the "Most Miles for the Least Money" only when you buy the Indestructo Trunk.

If you want a trunk that is Safe—Strong—Insured—Properly Priced—you will be compelled to find it only under the Indestructo Trade Mark.

PROTECTION

As our Navy is a protection from the invasion of foreign foes, so is pure Lager Beer a protection from the invasion of intemperance of our citizens. The greatest protection any nation can possess is temperance, which is the true safeguard of the happiness and welfare of the people. Pure Lager Beer, when made from hops and barley, has been accepted by many of the world's greatest scholars as a benefit to mankind and one of the most influential agents in behalf of true temperance.

READ THESE EDITORIALS.

FROM WORLD'S WORK.

"Across a narrow sea from England is a little country which, though densely populated, has practically no paupers, nor do the people emigrate. This is thrifty Belgium, where there is thrift of the individual, thrift of the family, co-operative thrift, national thrift, and prosperity in the face of the keenest competition of its powerful neighbors—England, France and Germany." Belgium leads in consumption of beer per capita.

FROM THE NEW YORK WORLD.

"Government reports show constantly in the United States a decrease in the quantity of alcoholic liquors consumed in a year and an increase in the amount of beer consumed. Beer is held up, therefore, as one of the great agents by which this country is to be kept among the most temperate nations."

FROM THE NEW YORK SUN.

Commenting on the wonderfully increased consumption of beer in this country, the Sun reaches the conclusion that "beer drives out hard drink."

Jacob Ruppert's Knickerbocker is a pure beer, made from as good material as can be purchased in domestic and foreign markets and brewed in one of the most modern breweries that human skill and workmanship have been able to devise.

FOR SALE AT HOTELS, RESTAURANTS, CAFES AND BY ALL LICENSED DEALERS.
