

GOULD'S SUBWAY COUP COLLAPSES

He Gets No Support and Contracts Will Be Rati-fied by March 13.

ROCKEFELLER HELPS

Swings 100,000 Manhattan Shares; May Oust Gould Control.

MORGAN READY WITH CASH

Interborough Confident of Winning Third Track Battle in the Courts.

Early this week—on Tuesday or Wednesday—the Public Service Commission will adopt the subway contracts. On Thursday the Board of Estimate will receive them.

A few days later, possibly at the next regular meeting of the board on March 13, the contracts will be ratified and made ready for signing.

This last step will follow immediately. None of the friends of the subway contracts in the city government, or out of it, doubted yesterday that this would be the plan by which the dual system will at last be achieved.

The Gould blockade for the time being will be ignored. The Interborough, when the time comes, will have its own fight with the Goulds, and the friends of the subway plan were optimistic yesterday when they undertook to name the winner.

The Rockefeller side is understood, sent word to George Gould before he left for Panama that they believed themselves committed to the agreement proposed by the Interborough.

With stock holdings of nearly 100,000 shares—15,000 in excess of those held by the Gould family—John D. Rockefeller, Jr., will have the dominant voice when the stockholders of the Manhattan Railway Company have their next election of directors.

J. P. Morgan & Co. have been committed to the dual system for more than a year and it is understood that they will stand by the plan and furnish the money for the Interborough's share in it quite as if the Gould blockade had never been sprung.

The Morgan firm believes that the best route for third tracking the elevated lines ultimately will go through substantially in its present shape.

Kuhn, Loeb & Co. are committed to the dual system through their interest in the Brooklyn Rapid Transit Company's share of the new lines. In addition to these it was said yesterday in Wall Street that another banking house, which has been irrevocably to the Goulds in several previous ventures, is irrevocably opposed to the present Gould tactics.

The head of the firm, who represents a fourth great financial interest in New York, was said to have urged Mr. Gould to retire as gracefully as he could at all events to stop his road out, as Mr. Shonts charges, for the personal interests of his family.

With such powerful forces as those lined up with the city against Mr. Gould it was pointed out that either Mr. Gould must change front or be supplanted in his control of the Manhattan directorate.

The Public Service Commission met yesterday morning, but took no action on the subway contracts. The meeting was adjourned to Monday morning, but Edward E. McCall, chairman of the commission, said that no action would be taken on that day either.

He named Tuesday as the probable date, with the possibility that Wednesday will result, Tuesday is inauguration day and might be an inconvenient time for the commission to act.

The commission will adopt the contracts with such minor changes as Mr. McCall feels ought to be made in order to brass bind the interests of the city. In the fundamentals the contracts will go through in the shape in which William R. Wilcox left them. The Manhattan Railway Company's certificate for third tracking the elevated lines will be rejected. The commission has already advertised for a public hearing of a substitute certificate made out in the name of the Interborough.

responsible for the contracts and would sit in the committee as a representative of the Rockefeller holdings.

In default of an agreement through this committee a lawsuit will no doubt result between the Interborough and the Manhattan as to the right of the Interborough to build the third tracks under the new certificate.

Such a suit, it was pointed out, would take a long time to determine. In the meanwhile a change might occur in the Manhattan board.

At present composed of six members of the Gould family are on the board: George Gould and his brothers, Frank, Howard and Edwin, and his sons, Jay and Kingdon Gould—out of a total of thirteen directors. Mr. Jeffery clinches the Gould control.

Of the other members, R. M. Galloway is president of the Merchants Bank, Judge W. A. Day represents the Equitable's 20,000 shares, Col. Joseph J. Slocum represents Mrs. Russell Sage's 12,689 shares and Mr. McClement the Rockefeller interest.

The two other members are Alfred Skitt, a member of the Interborough board, and John T. Toole, a director in Gould railroads. The Gould control is based on the slender holding of 85,000 out of 600,000 total shares of Manhattan stock.

The stockholders' meeting will be held on November 12.

NO BAIL FOR DANIES, CHARGED WITH ARSON

Bronx Roadhouse Keeper Denies Truth of Chicago Fire-bug Confessions.

John Danies, in New York the thrifty proprietor of a Bronx roadhouse, but charged with being the active head of a band of incendiaries in Chicago and elsewhere when he was out of town, was arraigned in the Tombs court yesterday and held without bail for extradition on the four indictments the Cook county, Ill., authorities have found against him.

When Danies appeared before Magistrate Levy yesterday he was inclined to be defiant.

"Why, I was only in Chicago once in my life," he said. "That's my name if those indictments, but I cannot see how they can bring any charge against me. I've run the roadhouse at 3545 Heaton road for seven years and I have been out of town only when my business took me away. I'm a travelling man and had to go out. There is nothing in this charge."

Detective Charles Furthman of Chicago, who came along with the indictments on Friday, which gave him the services of the police, including Barney Flood of District Attorney Whitman's staff, told an entirely different story. He said:

"Our indictments are based on the confessions of Samuel Rotherberg and Joseph Dolph, who say they have been his partners for years. They confessed that they had set fire to his premises at 2425 Ashland avenue on March 28, 1910, at his instigation and that he worked with them in many other cases. They knew him as the captain.

Danies may have been running this place for seven years, but for years he also had another place in Chicago, which he burned. We know that he has been all over the country, and that he has gone under the name of Kulzak, John Davies, John Kubetz and others something like it. Our evidence shows that he came near being the brains of his gang."

Danies was captured on Friday night as he was putting off through the woods back of his roadhouse. He was just climbing a fence when a policeman grabbed him.

BIG STRIKERS' MEETING TO-DAY

More Silk Workers Out and Pattern Police Prepare.

Patterson, N. J., March 1.—The ranks of the silk strikers were increased today by 1,500 dyers and helpers from the two factories of the Weidman Silk Dyeing Company and about 500 weavers from five small shops, making a total of at least 3,000 now out.

The crisis is expected to-morrow afternoon when the I. W. W. will hold a mass meeting in the Harbour street park, Haledon. Mayor William Brucciano of Haledon, a Socialist, has requested the strike leaders to appoint 200 strikers to act as special police during the parade and mass meeting, so that order may be maintained. I. W. W. officers expect 5,000 to 10,000 workers to participate in the demonstration.

Strikers have refused to arbitrate and say they will remain idle until the three and four loom systems are abolished and dyers are given a minimum wage of \$12 a week with three shifts a day.

I. W. W. organizers on Monday expect to call a strike in the ribbon branch. This accomplished, the leaders say, the entire industry will be crippled and practically at a standstill Tuesday morning.

WHITMAN IS AFTER ANOTHER INSPECTOR

His Collector Said to Have Given District Attorney New Evidence.

SIX OTHERS TESTIFY

Prosecutor Has a Fund of Information About the Excise Graft.

District Attorney Whitman got new graft evidence against a former inspector of the sixth inspection district, which comprises Harlem, when he examined six prospective witnesses yesterday. He also heard more stories about Inspector Dennis Sweeney, already under thirteen indictments, and Sergt. Peter J. Duffy, under five indictments.

Ashley Shea, a former gambler, has given Mr. Whitman the name of a man who, according to Shea, collected for this inspector. This alleged collector was examined by the District Attorney yesterday and it is understood that he gave information of value.

Even before Shea gave up the name of an alleged collector Mr. Whitman had witnesses against this inspector in another matter. Members of the District Attorney's staff believe that this inspector is only one of several ex-Harlem police officials against whom the District Attorney will be able to develop a case.

John J. Mustard, president of a local of the Liquor Dealers Association, who was brought before the extraordinary Grand Jury on Friday, may be subpoenaed to appear before the regular March Supreme court Grand Jury this week. Mustard was not committed on Friday, but the District Attorney's office believes that certain statements made by Mr. Mustard will be of service to the investigation.

According to the talk around town, some of the liquor dealers feel that members of their association have been mistreated in that additional levies have been made upon them in spite of their regular monthly payments for protection through the usual channels. They talk of being "double crossed."

The investigation into the alleged connection between the police and wire tappers is being conducted with great secrecy. Police Collier Joe Gray was not called before the extraordinary Grand Jury on Friday because that Grand Jury was to take a recess soon.

It was understood yesterday that Gray will be brought before the March Supreme court Grand Jury early this week and the reports yesterday were that he would be likely to give the prosecutor such information as he has.

This reported wire tapping graft is one of the graft divisions which, common report has had it, go direct to Police Headquarters. Mr. Whitman has other witnesses on this division of the subject.

The new Supreme court Grand Jury will be sworn in by Justice Seabury to-morrow, but it is not expected that any graft evidence will be presented to the new body for several days. This same Grand Jury probably will have to deal with the Shaw matter, as it has been forwarded to the District Attorney by Gov. Sulzer. This work probably will begin on Wednesday and may delay the presentation of vice-graft matters.

A vast amount of information has been collected by the District Attorney in the past few days in regard to excise graft. Some goes into details about alleged relations between the local branches of the liquor dealers' association and political organizations. The political organization, according to this information, has the name of the president and secretary of the precinct liquor dealers' association.

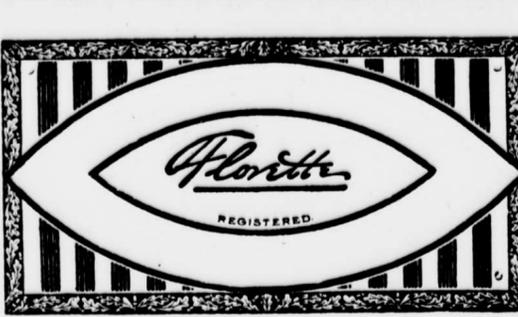

In one precinct, it was said yesterday, 500 saloons were paying \$5 apiece every month to the political organization in that Assembly district in addition to the payments for police protection.

One man said to be of considerable prominence in the affairs of a political organization has been mentioned to the District Attorney as "Big Boy" between the police and the politicians. Two Harlem political leaders are alleged to have received 25 per cent. of the total earnings of gambling houses in their neighborhoods.

One political leader was said yesterday to have collected \$11,000 for the gambling and other privileges of a nearby amusement resort.

Persons who have been examined by the District Attorney recently say that if the conditions in Harlem are considered bad those in the Bronx are worse.

Another story which has been brought to the attention of the District Attorney alleges the insistence on the part of the police captain in one particular precinct on receiving a "Christmas present" from certain saloons in his precinct this last Christmas. After several suggestions had been overlooked by one saloon keeper, it was said yesterday, he was arrested on a warrant charged with violating the excise law. His case is said to be still pending.

BOMB ROCKS LOFT IN STRIKERS' WAR

Explodes in Rear of 563 Broadway; Shatters Glass for Blocks Around.

WATCHMEN NEAR DEATH

Half a Hundred Garment Workers Asleep in Building Panic Stricken.

The third bomb to be set off within a week in the neighborhood of the garment manufacturers' establishments exploded at 10:30 o'clock last night and smashed windows and shook the twelve-story loft building at 563 Broadway, which is on the east side of that thoroughfare, just north of Prince street, running through to 108 and 110 Crosby street.

The bomb had been placed at the rear entrance in Crosby street further from the corner of Prince street and its explosion spread terror among the forty men and six girl employees of the Rosenthal Manufacturing Company, makers of clothing, who were sleeping in various parts of the three floors occupied by that concern. These were the eighth, ninth and eleventh floors.

The Rosenthal garment workers went on strike nine weeks ago. For some time the firm has been accommodating, at times, as many as 100 employees a night, with sleeping quarters in the building, so that they might not become involved in altercations with strike pickets. The firm also keeps three special watchmen in the building at night to watch out for trouble-makers.

One of the watchmen, James Galucci of 208 Mott street, about 8 o'clock last night saw two men hanging around the rear of the building, at the door numbered 110 Crosby street. Galucci and the two other guards approached the two men, whereupon they hurried away in the direction of Broadway.

A few minutes before 10:30 o'clock Galucci happened to glance from an eighth floor window in the rear and again saw the two men near the back entrance of Galucci and the other guards made quick time to the street and at the rear door ran upon a bomb with the fuse sputtering merrily. They saw the two bomb men in flight toward Broadway.

Galucci says he made dash to pick up the bomb, but he could not. He shouted a warning to the other guards and they all ran north. They were hardly in their stride when the bomb exploded. Galucci was still so close that a sheet of broken window glass dropped from the building on him and cut his head badly. The two other guards were slightly cut.

The terrified men and women awakened in the lofts above, came tumbling down the stairs. None of them was hurt, but they added much to the confusion among the crowds in the street. The presence of Inspector Lahey, Capt. Kinsler and the reserves of the Mulberry street station was needed to allay the fears of the crowd and quiet the neighborhood.

The rear windows of the loft building as high as the seventh floor were shattered. Windows were broken also on both sides of Crosby street and some were smashed even around in Prince street.

An office used by the Rosenthals' boss truckman near the Crosby street entrance was demolished.

Arnold, Constable & Co. Important Sales On Monday

Printed Foulards Regular price \$2.00 1.00

Black Silk Voiles Regular price \$1.50 75c

BLACK BENGALINE COATS, full length; satin trimmed, handsome ornaments. Regularly \$48.50 37.50

Broadway & 19th Street

SEWER ICE IN TONS COMING TO NEW YORK

It's Being Cut by Carloads in Connecticut for Shipment Here.

Winsted, Conn., March 1.—The Trout Brook Ice and Feed Company of Hartford, which is harvesting ten inch ice on the Greenwood reservoir in New Hartford, six miles east of here, is shipping the commodity by the carload to the American Ice Company in New York.

The company advertised this week for 100 additional men to work day and night in shifts. The company has orders for every pound of ice it can harvest.

The elevator and car loader have a capacity of sixty-four cakes of ice a minute, being driven by two electric motors, one of 25 horse-power and the other of 10 horse-power. The car loader is of such efficiency that twelve cars can be loaded at once, and with a full quota of men the twelve cars can be filled in about thirty minutes.

When New York people have had drinks served next summer they may ask the waiters where the ice came from, because Mad River, Winsted's open sewer, after a flow of between six and seven miles empties into the Greenwood reservoir, where the American Ice Company is getting part of its ice supply.

Mad River runs through the centre of Winsted, paralleling Main and North Main streets for a distance of about two miles, and into it goes all Winsted's liquid refuse matter.

HOORAY FOR LITTLE ENGINE "71" Sells in All Aines and Puts Out a Big, Dangerous Blaze.

A one-day-old and very fussy little automobile chemical engine, numbered 71 and put into commission yesterday morning, distinguished itself last night as a fire in a five story apartment house at 791 Elton avenue, The Bronx.

It was within a hair's breadth of becoming a catastrophe until the new engine and crew got into their stride.

August Lauter, real estate broker and son of the proprietor of the apartment house, came home to his apartment on the ground floor at 7:30 o'clock last night to find his family all out and the apartments of twenty-four families while some one else turned in an alarm.

"Auto chemical 71" got to the apartment house ahead of slower fire horses, hemmed in, by this time were either shutting down fire escapes or yelling that they'd jump.

While policemen and firemen persuaded the panic-stricken tenants not to jump the new little chemical engine waded in alone and put out the fire.

A nurse at a window on the fifth floor screamed to the police that her patient, Mrs. Annabelle Gray, was unable to move. Rescuers brought the invalid and the nurse down the fire escape amid cheers.

"77" FOR GRIP & COLDS "Just a Cold," may lead to serious consequences, especially at this season of the year, when slight Colds may mean pneumonia. To escape, take "Seventy-seven" at the first feeling of lassitude, surely at the first sneeze or shiver. If you wait till your bones begin to ache, till you begin to cough and have sore throat, it may take longer to break up. It pays to keep "Seventy-seven" handy, it is a small vial of pleasant pellets, fits the vest pocket. At your Druggist, 25c., or mailed. Humphreys' Homeo. Medicine Co., 155 William St., New York.

SHERIFF LOSES WOMAN GUEST. Harburger Has to Send Mrs. Eisenberg to Gouverneur Hospital. Mrs. Rose Eisenberg, the only woman prisoner in Ludlow street jail, was removed to Gouverneur Hospital yesterday in a serious condition. Mrs. Eisenberg was taken to jail because she could not give a \$11,000 bond in a suit brought against her by Mrs. Abraham Karmel for alienating her husband's affections. Sheriff Harburger had to send a guard to the hospital with Mrs. Eisenberg, but because he has an insufficient staff at the jail he got an order from Justice Guy giving the custody of the prisoner to the hospital authorities pending her recovery.

GIVE EMPLOYEES \$75,000. Alexander Smith & Son Distribute Bonus Among 3,300. YONKERS, March 1.—Each of the 3,300 men and women who have been in the employ of Alexander Smith & Son, carpet manufacturers for a period of ten years or more got a cash bonus to-day equal to 10 per cent. of their respective salaries for the six months ended December 31 last. The gift came as a surprise to the employees. The bonus amounted to \$75,000. Since September, 1911, the company has distributed over \$200,000 to 104,000 employees who have been in the service of the company for periods ranging from five to ten years.

VINCENT ASTOR SEES BARGAIN. Buys Coal for His Yacht and "Goes Down to Business." NORFOLK, Va., March 1.—Vincent Astor is taking a strong grip on the reins, or as a trained trader, who noted an incident aboard the Astor yacht, the Noma, here to-day phrased it is "getting down to business."

The big steam yacht which put in here yesterday at the seventh pier near the city and a little engine trouble, had room in her bunkers for considerable coal. When it came to buying this Mr. Astor personally conducted the negotiations, and a price being agreed upon, ordered two carloads. Later it was explained that good coal is much cheaper here than at ports south of this, whereupon he ordered another carload.

Although businesslike, he made friends with all here who came in contact with him. His democratic manner is highly praised. The coal having been got aboard and the machinery repaired the Noma sailed just before nightfall. Mr. Astor said he expected to put in next at Charleston.

DAILY IN SWEENEY'S OLD JOB. "Hardest Inspector for Us," Says Harlem Gamblers. Inspector John Daly was ordered by Police Commissioner Waide yesterday to take command of Harlem district, officially known as the Sixth inspection district, where ex-inspector Sweeney formerly held sway. The news of Daly's transfer to the district was received by a spokesman of the Harlem gamblers, who remarked that "Daly is the hardest inspector in New York for us."

Daly has been in command of the Second inspection district, downtown, since Inspector Lahey, lately in charge of the district, was transferred to the Second and Capt. James H. Gillen of the East Fifty-first street station was promoted to the rank of inspector and placed in command of the old Tenderloin to succeed Lahey. He is the twelfth man made inspector by Waide in the last fifteen months.

Inspector Gillen is 44 years old and married. He lives at Bensonhurst, L. I. He was in the oil refining business before he enlisted in the Police Department. He was appointed on January 3, 1896; made a sergeant on December 23, 1902; by Commissioner Partridge, raised to a lieutenant on June 24, 1904, and Commissioner Waide made him a captain on November 2, 1911. Eighteen months ago he was brought over from Brooklyn to reorganize the boiler squad and his efficiency on this job brought him into favor at Headquarters.

WILL GUARD CHURCH MOVERS. Fifty Deputies Get Orders to Disperse Objecting Poles. Sheriff Brush of Suffolk county swore in yesterday a posse of fifty special deputies to go to Catochogue, L. I., to-morrow to protect a gang of house movers who intend to move the Polish Catholic Church edifice about a mile from its present site. The Catochogue poles have been on guard in the rear of the church for six days, determined that the building shall not be moved. When the house movers appeared last Monday they were driven back by a crowd of parishioners armed with clubs. The Rev. Stephen Darnowski, the rector, tried to disperse the crowd of Poles and narrowly escaped being roughly handled. Bishop McDonnell, whose orders to move the church were defied by the Poles, has directed that the work must start to-morrow. Through his local attorney, Frank S. Barker of Mott street, L. I., he has issued a statement to the effect that the five Poles who claim to own the building have no interest in it. He says he has a bill of sale from them.

HICKSON & CO. HAS NEW HOME. Old Concern Moves Up Town With Tide of Trade. Occasionally a brand new signpost showing that trade and commerce are ever on the move up town is planted in New York. Such a signpost is the new home of Hickson & Co., ladies' tailors, at Fifth avenue and Fifty-second street. Over a decade ago this company was among the pioneers in the movement that brought trade to the very side doors of the brownstone residences at Fifth avenue and Forty-second street. The officers of the company said yesterday that they have signaled their new change of address by opening to their customers the most complete and best appointed establishment of its kind in this country. In the company's new quarters are many creations and things for which anybody could very well wish. There are many styles, each with different effects of color and color, where the models are displayed. Particular attention has been paid to the lighting of the studios and display rooms.

SHERIFF LOSES WOMAN GUEST. Harburger Has to Send Mrs. Eisenberg to Gouverneur Hospital. Mrs. Rose Eisenberg, the only woman prisoner in Ludlow street jail, was removed to Gouverneur Hospital yesterday in a serious condition.
