FIRST YEAR MEN JOYFUL

Their Victory Over Sophomores in Rush Leads to Predictions of Hazing.

The freshmen felt very proud to-day after their victory in the rush last night over the sophomores. They were confident that some of them would be hazed before the week is over.

As soon as the result of the examinations was made known the academic freshmen assembled in Oxborn Hall and were assigned to divisions in their classes, while the Sheffield men received their places in the old Sheffield Hall.

As Kent professor of law, he will lecture on constitutional law in the college, giving a two hours course in the same subject in the law school. Mr. Taft will also lecture before the Harvard Law School, the Boston University Law School, at Amherst and at the University of Minnesota.

The curriculum change to be put into effect this year is the introduction of five year courses in the scientific school leading up to the degree of master of science.

The degree will differ from such a professional degree in that it will have a strictly professional character, as the degrees in medicine, law, engineering and the other professional studies.
