

HUERTA'S END NEAR, ASSERTS C. R. FLINT

Unqualified Success of Rebels Predicted by the New York Merchant.

MONEY AID FOR CARRANZA

It is Coming From American Bankers, According to Mr. Flint.

Charles R. Flint, the merchant, whose financial contact with Spanish Americans and close touch with all factions in Mexico...

Mr. Flint believes that never has the Mexican situation been so near a solution satisfactory to the United States. He predicts the unqualified success of the Constitutionalists under Carranza and the restoration of orderly government in Mexico...

Carranza's representatives had been in conference with Mr. Flint less than twenty-four hours before the merchant spoke...

Huerta's Banking Support.

Heretofore the Constitutionalists have been embarrassed by the influence of the Cientificos behind the Huerta regime...

Having granted a loan to Huerta's Government the loyalty of all these interests and the American group associated with them prevented their making loans to the Constitutionalists in opposition.

As it becomes evident that the Administration is on the verge of going to war with Huerta, if any advance step is taken, it is not too much to believe that the American bankers in this association will follow the precedent which men like the late J. P. Morgan ago consistently followed...

The increasing success of the Constitutionalists and their avowed willingness to give to American and foreign interests in north Mexico for protection...

Mr. Flint restored the military success of the Constitutionalists in the last few days around Monterey, Saltillo, San Luis Potosi, and spoke of the good chance to capture Tampico. He continued:

With even a slight change in the attitude of the bankers industrial conditions may be expected to improve at once. Carranza will be in a position, as he is, indeed, to-day, to insure protection of foreigners in the vast territory now controlled by him.

Carranza realizes that it is necessary to restore the industries of the country by proper assurances and inducements to the owners of the enterprises, not only that they and their employees will be accorded full protection in reopening them, but that the protection will be continued, and that the titles to the properties will not be questioned at a later date.

The owners of these industries will undoubtedly, if the plan of the Constitutionalists, which now looks very hopeful, is adopted, cooperate, under the leadership of some important banker, to provide money for the needs of the new Government. With these matters taken care of, there should be no question as to the attitude which the President of the United States will take.

ARMY NEEDS \$3,701,327 MORE.

Secretary Garrison Requests Another Appropriation.

Washington, May 9.—In a communication forwarded to the House to-day the Secretary of War asked for a deficiency appropriation of \$3,701,327 rendered necessary by the military operations at Vera Cruz and on the Mexican border.

This money is needed, according to Secretary Garrison, for the purchase of subsistence, horses for transportation and other purposes. The largest item is \$1,483,674 for transportation of the army. The appropriation asked for to-day is in addition to the one of \$946,371 requested heretofore.

Secretary Garrison's communication was referred to the Committee on Appropriations, which has under consideration other deficiencies that have been called for as a result of the Mexican activities.

SOLDIER LETTERS "COLLECT."

At Home or Abroad They Go Without Stamps.

Washington, May 9.—American soldiers, sailors and marines, whether in the United States or not, may send their letters without the prepayment of postage and place in the domestic mail service among them "soldier's letter," "sailor's letter" or "marine's letter," and have them endorsed by their commanding officer under an order issued by Post-Office General Burleson yesterday.

A single rate of postage will be assessed and this will be collected when the letter is delivered.

Senate Adjourns Out of Respect.

Washington, May 9.—The Senate adjourned today until Tuesday noon out of respect for the dead sailors and marines whose bodies are to be received at New York on Monday.

WONT ABSORB BAYONNE BANK.

Union Trust Company Does Not Approve Security Offered.

Samuel Ludlow, president of the Union Trust Company, announced yesterday that he contemplated amalgamation of the Union Trust Company and the First National Bank of Bayonne, which failed last December, will not take place. The form of security offered by the Bayonne institution has not proved satisfactory to the Union Trust Company's officers.

It is believed that the Government will attempt to liquidate the assets of the First National Bank and that the depositors will receive 50 cents on the dollar within a few days.

SHIPPING BLOCKED BY ICE.

Steamers Off Newfoundland Coast Are Closely Wedged In.

St. JOHN'S, N. F., May 9.—The movement of shipping along the coast of Newfoundland has been delayed by an ice blockade. The whole coast to the north of here is blocked with ice and several steamers have had a hard time of it in the big fields.

The steamship Tritonia has had the hardest time of all the vessels in the vicinity of the ice. She has been delayed ten days in reaching Botwood, a port on Notre Dame Bay, and there was a report from the United States hydrographic office to-day that the vessel was in a dangerous position. The agents of the Tritonia say this report is not true and that there are no fears for the safety of the vessel. The agents are in communication with the Tritonia by wireless.

The steamship Sardinian, from Philadelphia for Glasgow by way of this port, has been in the ice for two days off Cape Race, waiting for a chance to open a passage through the fogs. The Pomeranian, which is ready to sail for Liverpool, is held in the harbor. The steamer Digby, from Liverpool, is in working her way into port yesterday.

BREWERY BOOKKEEPER ADMITS \$4,600 THEFT

Goes to Home of William Piel and Confesses—Used Money on Football.

Paul Mienack, a bookkeeper employed at Piel Brothers' brewery, gave himself up to William Piel, a member of the firm, in front of Mr. Piel's residence at Eighty-seventh street and West End avenue last night and said that he had taken \$4,600 of the firm's money by means of falsified checks. He was locked up on a charge of grand larceny.

Mienack is 27 years old and unmarried. He lives at 166 East Eighty-first street. He came to this country from Germany a few years ago and has worked for the Piel firm since December, 1912.

The firm had discovered nothing wrong in Mienack's accounts. He went to Mr. Piel's home and waited until Mr. Piel came out to get into his automobile at 9 o'clock. Then he introduced himself and told him his story. He said he had spent the money in backing a football team in Germany and in better living than his salary permitted.

Mr. Piel telephoned to the West 100th street station. Detectives Dalton, Boylston and Donnelly responded and made the arrest. An investigation of the brewery's books will be begun immediately. From what Mienack said of his family, the police gathered that his parents, still living in Germany, were fairly well to do.

BRIDE TO BE SAILS TO WAIT.

German Law Makes Her Start Month Before Wedding.

Miss Anna E. Boher of this city sailed yesterday on the Red Star liner Kroonland to marry next month Karl Boek, a civil engineer and a German Government official living in Stettin. Mr. Boek met Miss Boher in America about two years ago when he was here to report on factory conditions for his Government.

Miss Boher will have to reside three weeks in Germany before she can be married there, and that is why she is sailing more than a month before the time set for the wedding.

GIRLS NEEDN'T DUST TO BE DEMOCRATIC

Holyoke's President Explains End of Housework for Students.

SCHOOL'S GROWTH IS CAUSE

New Method Gives Poor Girls Chance to Work Their Way Through.

Democracy does not depend on dusting, according to President Mary E. Woolley of Mount Holyoke, who told the New York alumnae at their annual luncheon at the Martineque yesterday why the college is abandoning its system of requiring the students to do part of the domestic work.

Mount Holyoke is the last of the women's colleges to abandon the system, which it has followed for seventy-five years. Some criticism of the change has been made by women who went to college in the good old times when the girls did housework along with their Greek, and this President Woolley sought to answer:

"The system had grown very difficult to administer with 800 girls to provide with work," she said. "The academic schedule had to have the right of way. We could not ask the professor of mathematics to excuse a student so that she could go and wash silver. There was a constant loss of time with several girls working at the same task for short periods, and there was no possibility of any such thing as scientific management."

"While each girl saved \$50 a year on her tuition, the system was really a hardship to the girl who had to work her way through, if she went to college at all. There was no paid work to give her and she found that she could get through at less expense at either Smith or Wellesley."

"The girls who really were not strong enough to do the work and whose parents implored us to allow them to pay the extra \$50 and excuse her from the added burden, will now be provided for. And the girl who wants to save money will have a paid position where a few people can do the work formerly done by all the girls."

"The girls will have more time now to keep their own rooms in order, as they will still be expected to do. And they will have more time for recreation and outdoor exercise."

"We do not intend to lose our spirit of consideration for each other. I don't believe our democracy depended on housework. It doesn't mean the decade of housework. There is a great deal of happiness in housework for some people. But I know we will be better off without it and with a charge for board and tuition of \$425 a year, which will make the halls self-supporting, instead of the \$350, where we had to be constantly drawing upon our endowment."

President Woolley urged the alumnae to raise the \$120,000 necessary for an alumnae building, which she said was so needed that every corner would be used by students every hour in the day.

RUBINSTEIN CLUB'S LEADER NEAR ARREST

Detective Seeks Mrs. Chapman, but She Promises to Answer Libel Charge.

JANGLE OVER SINGERS

Concert Manager Says Musical Organization Head Maligned Him.

A detective from the Adams street police station, Brooklyn, invaded the Waldorf-Astoria yesterday seeking for Mrs. William R. Chapman, president of the Rubinstein Club. In his pocket the detective had a warrant for Mrs. Chapman's arrest sworn out by G. Dexter Richardson, a Brooklyn concert manager, who charged the woman with criminal libel. But the warrant wasn't served, for Mrs. Chapman's attorney, Frank Boland, when he learned that it had been issued, promised to produce his client in court on Monday morning.

It was last fall that Mrs. Chapman signed a contract with Mr. Richardson for two musicians to appear at a Rubinstein Club musicale at the Waldorf. The contract provided that Mrs. Chapman was to get \$500 and that her accompanist on the piano, Miss Mal Lesniska, was to get \$150. But there was an additional agreement between Mrs. Chapman and Mr. Richardson that the artists were to receive only half the amount, the remainder to be returned to the treasury of the club.

According to Mrs. Chapman's attorney she entered the contract on behalf of the club upon the representation from Mr. Richardson that he could not afford to have it publicly known that his artists would perform for less than \$500 and \$150 apiece. According to Mr. Richardson he entered the contract on the representation from Mrs. Chapman that she didn't want the club members to know they were being entertained by talent that cost only \$250 and \$75 apiece.

Later, according to Mr. Boland, Mr. Richardson told Mrs. Chapman that she didn't employ Miss Klotz, but would make public the fact that the Rubinstein Club contracts with singers and pianists were designed to hoodwink the public. Mrs. Chapman said: "Go ahead."

Mr. Richardson did go ahead. He brought a suit for damages against Mrs. Chapman before Municipal Court Judge Farrar charging that she still owed him money on the contract. While the suit was in progress and before judgment was given in favor of Mrs. Chapman, she wrote a letter to Judge Farrar presenting her side of the case and saying some things about Mr. Richardson's character and methods of business.

The letter caused Mr. Richardson to file suit for \$50,000 damages for libel. The suit is now pending in the Supreme Court here. The same letter was used as a basis for a charge of criminal libel which Mr. Richardson says he was compelled to sue out to prevent Mrs. Chapman from further injuring his business reputation.

BRIDE HIT BY AUTO LOSES SUIT.

Wanted Railroad President's Daughter to Pay \$5,000.

SOMERVILLE, N. J., May 9.—The suit for \$5,000 damages brought against M. S. Helen A. Beiler, daughter of W. G. Beiler, president of the Central Railroad of New Jersey, by Mrs. Rosa Tobin of Harrison was dismissed in the Supreme Court here to-day. Mr. Beiler accompanied his daughter to court and remained throughout the trial. Miss Beiler was charged with running down Mrs. Tobin, who was a bride of a few weeks, with an automobile.

Judge Luther A. Campbell decided that it had been proved that Mrs. Tobin after once crossing over the danger line had turned back in front of the automobile. He refused to allow the case to go to the jury.

100 BABIES MEASURED FOR PRIZE OF \$1,000

Contest Opens in Grand Central Palace—More Infants Examined This Week.

A hundred mothers carried babies to the Grand Central Palace yesterday afternoon to enter them in the better babies contest which opened there under the auspices of the Women's Home Companion. Many mothers went away, after their babies had been put through the mental and physical tests with a pained expression and with disappointment in their hearts.

As Dr. Lydia Allen De Vilbiss, director of the Better Babies Bureau, said, all mothers believe in the perfection of their babies and find it difficult to believe the physician's measurements that perhaps the child's length of arm from tip of acromion process to tip of middle finger was not up to snuff or the diameter of its chest was not all it should be.

A hundred babies will be measured each day during the coming week in the contest to the winners of which \$1,000 in prizes will be offered. While each baby is being tested the mother gets much valuable information as to the care of infants.

Entrants have been divided into three classes according to age, no children less than 6 months or more than 36 months old being accepted. Preliminary contests have been held in the boroughs of Brooklyn, Queens and the Bronx.

Suffragist mothers are active at the exhibition in their efforts to show that they can raise just as good babies as the "gentle," even while working for the vote. Those in charge of the booth of the Women's Political Union yesterday were Mrs. Robert Livingston Clarkson, Mrs. Louis L. Deland, Miss Kathleen Taylor and Miss Lucy Eastman. A prize of \$5 has been offered for the best baby with a suffragist mother. Alma Darfutan, 2 years old, of 1245 Fifth avenue, who has a suffragist mother and grandmother, had her picture taken yesterday under a banner with the legend, "Our Future Voter."

Fast Liner Calgarian Starts.

The new Allan Line Calgarian sailed yesterday from Liverpool on her maiden trip to Quebec, where she is due on Thursday. She carries more than 1,600 passengers of all classes. She had her sister ship, the Alsatian, are the fastest liners sailing to Canada from Europe. She is 600 feet long, of 12 feet beam and registers 10,756 tons.

OUR CITY HALL TO BE LYONS FAIR FEATURE

Clock Tower Will Tell New Yorkers in France the Time at Home.

Visitors to the International Urban Exposition at Lyons, France, will soon be gazing at a reproduction of the tower of New York's City Hall, the clock faces of which will give both New York and Lyons time. The tower is the main feature of this city's exhibit.

The principal cities of the world are represented in the exposition, which opened May 1 and will continue to November 1. It is held under the patronage of the French Government.

New York has sent more than 1,000 articles, mostly pictures, which are to be housed in twelve galleries covering floor space of 40,000 feet. The clock tower will be in the center. On its base are four panels showing characteristic views, a view of the harbor with the distant Manhattan skyline, the skyscrapers at closer range, a Hudson River steamboat, contrasted with the Clermont and the Half Moon, and a night scene on the Hudson.

The pictures in the main gallery will be arranged to indicate what a traveler sees as he comes up the harbor, followed by views of famous streets and buildings and panoramic photographs. A feature which will appeal to French visitors is pictures of their own sailors in the Hudson-Fulton celebration and of the French fleet anchored in the Hudson.

A portrait of George Washington on silk, given to New York sixty years ago by the people of Lyons, is also in the exhibit, with a photograph of the portrait.

ATHLETE GISSING CUT BY THUG.

Harry Gissing of New York Fights to Aid a Woman.

GRAND RAPIDS, Mich., May 9.—In saving a woman from an attack by three ruffians to-day Harry Gissing of New York, an athlete, was badly hurt. He managed to dispose of two of the men before the third assailed him from behind and inflicted two cuts in his scalp with a club. Gissing is now in a hospital in a serious condition.

Gissing was working here soliciting funds for the convention of the International Association of Chiefs of Police to be held here in June. He won the national amateur half mile championship in 1910, running under the colors of the New York Athletic Club.

Measles Epidemic in Orphanage.

An epidemic of measles is raging in the Brooklyn Orphanage in Atlantic avenue. Forty-seven cases have filled all the quarantine wards in the hospital adjoining the asylum and the east end of the asylum itself had to be turned into a hospital to accommodate the overflow.
