

FIGHTING NATIONS AFTER ARMS HERE

American Express Co. Declines to Quote Rates on Large Russian Order.

SHIPS' BIG CARGOES

Shipments of munitions of war and orders for still greater amounts for use by the nations now fighting for their existence have aroused much comment in the last few weeks.

Furthermore George Sylvester Viereck, editor of the popular publication The Saturday Evening Post, sent last night a letter to President Wilson asking that some means be found for placing an embargo on the shipment of arms and ammunition abroad.

It has been freely admitted among exporters that France, England and Russia have been seeking in this country large quantities of the screws of war.

The inquiry at the American Express Company by Russian representatives was for quotations on a consignment of 200 aeroplanes, 500 motorcycles, 15,000 rifles, 150 motor trucks, several of the largest types of steel guns and numerous small arms and ammunition supplies.

The range of orders from other countries has been much larger and more varied. There have been inquiries for horses, mules, cotton ducking, millions of rounds of ammunition, hundreds of thousands of rifles, blankets, towels, and goggles for diving and trench warfare.

While there have been shipments of supplies from this port many supplies have gone by rail to Canada, where English boats await them.

The United States merchants and manufacturers have a perfect right under the rules of nations to ship such articles.

When asked for proof of his statements, Viereck made it plain to the committee that he was not the manifest of the Minnesota that sailed yesterday with from 12,000 to 15,000 cases of U. M. C. cartridges, projectiles for the British Government.

Among other articles that Viereck said were being bought in this country for the European warring countries are 500,000 Winchester rifles for England, 500,000 cartridges weekly for France, 3,000 armored automobile trucks, 300,000 75 millimeter artillery shells for England, four aeroplanes for France, 2,000 tons of cannon and rifle powder for Russia, large quantities of high explosives for Japan.

Viereck said that Russia wants to buy 1,000 tons of powder for her three inch guns, also 1,000 tons of powder for use in rifles of 521 calibre. He asserted that Japan is also a heavy purchaser of large quantities of powder; that she is looking for 200 tons of fuses, 1,000,000 tetryl bombs, 20,000 fast burning fuses and 70,000 meters of cordite detonant.

The agents of the line here have requested the Philippine Government to protect their steamer, as she was within the three mile limit when overhauled by the British vessel.

NAVAL FIGHT AGAIN REPORTED.

Damaged British and French Cruisers Said to Be at Equinault.

PORTLAND, Ore., Oct. 3.—Wounded British and French sailors are being treated in a hospital at Nanaimo, on Vancouver Island, and the British cruiser Rainbow and the French cruiser Montcalm are held at Equinault in a damaged condition, says a report from British Columbia received here today.

The same source reports that the facts are well known to newspaper staffs of Victoria and Vancouver, but papers are prohibited from publishing them.

That something happened to the Rainbow and Montcalm has been known since the British cruiser Rainbow and the French cruiser Montcalm are held at Equinault in a damaged condition, says a report from British Columbia received here today.

Her report was that the Japanese ship was a shot across her bow that night and on learning that she was of British registry sought for her to proceed.

Utmost secrecy is maintained at Equinault and no vessels are allowed to enter there without special permission.

McCOMBS TO ANSWER 'YES' OR 'NO' TO-DAY

Strongly Disposed to Decline Chairmanship Despite Glynn's Urging.

William F. McCombs is to let Gov. Glynn know to-day whether or not he will take charge of the Democratic campaign as chairman of the new State committee, which will elect officers at Albany on Tuesday.

His reluctance is due not to lack of interest in the Glynn campaign, which he will whole heartedly support, but to the fact that he is burdened with other affairs and to his belief that his presence at the head of the committee is not essential to success.

He replied that a strong public statement from him following Secretary Danaher's letter to the Governor and other manifestations of the national Administration's approval of Mr. Glynn would be sufficient to convince the whole State that President Wilson earnestly desires the election of Mr. Glynn and Mr. Gerard.

RUSH TO GLYNN FLAG JOINED BY MALONE

Collector Keith, Murphy Hater, Also Pledges Support to Governor.

HENNESSY FIGHT GOES ON

The rush to fall into line behind Gov. Glynn has begun. Following the publication of Washington dispatches that the national Administration will support Gov. Glynn strongly for reelection and the hint of the truth of these despatches contained in the letter of Secretary Danaher, Dudley Field Malone, Collector of the Port, and Harry P. Keith, Internal Revenue Collector for Long Island, came out yesterday and pledged their support of the Democratic candidate.

Mr. Malone wrote the following letter to the Governor in explanation of his actions before primary day: "On the other hand the result of the recent primary has made you the choice of the Democratic party in New York for Governor this year. I have, on conviction, differed with you on questions of Democratic party management, control and leadership in this State. These, however, are questions that should be settled within the party ranks and by primary candidates.

Mr. Keith, who is the anti-Tammany leader in Nassau county and whose fight against Tammany has been annual and bitter, had this to say after calling on the Governor at the Vanderbilt: "Gov. Glynn will receive my most hearty and enthusiastic support in the coming election, as he will have the support of the Nassau county organization. I believe he has been nominated as the best Governor this State has ever had."

Mr. Malone said that these sentiments apply to the whole State nominated on primary day and that if he was asked he would take the stump.

He answered all questions regarding the Charles F. Murphy issue, which was much on his mind before primary day, saying that it was a party question which should be thrashed out in the primaries and not in the general election.

SAXE BELKS AT QUESTIONS.

Glynn's Adviser Resents Inquisition of Citizens Union.

John Godfrey Saxe, Gov. Glynn's legal adviser, has not only declined to answer questions sent to such candidate for office but has told the Citizens Union that "the practice of exacting pledges from candidates to support a series of propositions in exchange for an endorsement is vicious and is merely a form of bribery."

Mr. Saxe is one of the Democratic nominees for delegate to the constitutional convention. One of the eight questions of the Citizens Union was: "Are you opposed to redistricting the State for partisan purposes?" Mr. Saxe in a letter to W. E. Youker, secretary of the Union,
