FROM ALL ANGLES

From whatever angle you care to consider it, the Thompson-Starrett organization is the logical organization to employ on a building project.

It is efficient, rapid, and economical, and has for years been endorsed by the most prominent property interests for the all around superiority of its service.

No man who looks up our record can ever look down upon it.

Administration officials feel that there is no immediate cause for anxiety over conditions at Vera Cruz resulting from evacuation.

There was a conspicuous absence of any claims as to what had been achieved by the American occupation of Vera Cruz.

According to the State Department's advice, Mexico City is quiet, expecting the arrival of the American forces outside the city.

The divergence between its reports about conditions in Mexico City and those received by the American and French Ambassadors was not explained further.

"Peace Hath Her Victories"

The Chicago Tribune is more than merely a daily and Sunday newspaper.

It is an Institution. Its success is not due to any one man's brains.

The Chicago Tribune is greater than any one individual could make it.

Tradition, heritage, public confidence never betrayed, and an unbroken record of sound business success give to The Chicago Tribune the basis of its international reputation.

As a purely business enterprise, The Chicago Tribune ranks among the first four newspaper properties in the United States. It may be first. It certainly is not less than fourth.

In morning circulation, The Chicago Tribune ranks second in the United States.

In volume of advertising printed, The Chicago Tribune ranks first among all the newspapers in the first four cities of the United States.

From its first circulation statement under the Federal laws, for the six months ending September 30, 1912, to the present time, The Chicago Tribune shows an unbroken record of steady increase that far surpasses that of any other newspaper of its size in the world.

The daily INCREASE during this period was 110,000, or 50 per cent.

The Sunday INCREASE during this period was 216,000, or 70 per cent.

Only about 1 per cent of all the newspapers in the United States and Canada have a TOTAL circulation as great as this INCREASE of The Chicago Tribune in this comparatively short period.

The Chicago Tribune's advertising rates are exactly the same as they were at the beginning of this period.

Therefore The Chicago Tribune offers, as a BONUS for good measure, and at no extra cost to the advertiser, as much circulation as is enjoyed as TOTAL circulation by any one of 99 per cent of all the daily papers in the United States and Canada.

Although the reader pays but one cent for The Daily Tribune and five cents for The Sunday Tribune, the advertiser is not asked to make up the difference.

Those who read this may ask, "What is the explanation of this tremendous growth of The Chicago Tribune in the short space of two years?"

In reply to this we may say only that the management of this paper set the target and that the organization has aimed at it ever since.

Not a single reader has been obtained through premium, contest, coupon, or any other form of bribe.

Not a single advertiser has been offered anything except the privilege of addressing Tribune readers at Tribune rates.

A combination of many minds has planned and presented feature after feature designed to attract and to hold new readers.

A combination of many minds has developed and perfected merchandising plans for the benefit of advertisers.

A steady, persistent, powerful campaign of publicity has been continued even through dull months and in these times of needless business inactivity.

This is a brief story of a successful institution. There follow some pertinent suggestions to the readers of this advertisement.
