COUNCIL DEFIES MAYOR.

TERRE HAUTE, Ind., Jan. 12.—While Mayor Roberts and most of the executive heads of his administration were in Indianapolis to-day, the Democratic city council, at one time obedient to his will, passed a boundary ordinance he opposed. BROADWAY JEWELLER ROBBED.

REPORT FRISCO PLAN FOR REORGANIZATION

St. Louis Interests Propose Assessment of \$15 on Each Stock Share.

B. F. YOAKUM IN THE DARK

Details of a proposed plan for the reorganization of the St. Louis and San Francisco Railroad Company—Frisco system—were received with interest in the financial district yesterday and were generally interpreted as another evidence that confidence was to a certain extent returning.

B. F. YOAKUM IN THE DARK

The plan was said to be that of B. F. Yoakum, former chairman of the board of directors. Inquiry at Mr. Yoakum's office here brought the statement that the plan was not his and that he had never heard of it before. Others closely in touch with the affairs of the road asserted the plan was essentially the one proposed by Mr. Yoakum several months ago.

B. F. YOAKUM IN THE DARK

As far as could be learned no steps have as yet been taken for scaling down the bonded indebtedness of the company, and it was intimated that none would be taken. Wall Street was a bit sceptical of this feature of the reorganization plan, on the ground that a satisfactory reorganization could not be effected without a reduction of the outstanding indebtedness.

B. F. YOAKUM IN THE DARK

There was an enormous trade in cash wheat and the No. 2 winter grades sold as high as 1/2c under the May price, against 2c under yesterday. Export sales of wheat from the United States to-day were reported as 3,000,000 bushels.

B. F. YOAKUM IN THE DARK

In addition there were probably 1,000,000 bushels of cash wheat bought by millers of this country.

B. F. YOAKUM IN THE DARK

Chicago, Jan. 12.—Under heavy buying by exporters May wheat advanced to 1.35 1/2c to-day and closed at 1.35 1/2c, or 3/4c higher than yesterday's final figure. Buyers were encouraged by the news that Turkey had acceded to all of Italy's demands, thereby lessening chances of the Dardanelles being opened in the near future.

FEARS RURAL MINDS ON NEW TRADE BODY

James A. Emery Says Agricultural South Rules Northern Industry.

FEARS RURAL MINDS ON NEW TRADE BODY

Newark, N. J., Jan. 12.—That the new trade commission will exert a greater control for good or evil on the industrial life of the nation than any other existing factor was the declaration of James A. Emery, general counsel for the National Council for Industrial Defense, in a discourse on the "Trend of Legislation" before 150 representatives of New Jersey manufacturers at the annual convention of the Manufacturers Association of New Jersey in the Washington here late this afternoon.

FEARS RURAL MINDS ON NEW TRADE BODY

"And yet on this commission," Mr. Emery declared, "there is not one Northern man, not even a Northern Democrat." "Not one of those who framed the Clayton measure was an industrial representative," continued Mr. Emery. "Clayton, the chairman, hails from Eufaula, Ala., where the leading industry is the retail trade in hard boiled eggs; Floyd comes from Yellville, Ark., where they never had a \$2,500 transaction, and Carlin comes from Alexandria, Va., a town described by Mark Twain as the 'most finished town in the country; the last man, driven and the last blade of grass growing in the streets.'"

FEARS RURAL MINDS ON NEW TRADE BODY

"From conditions such as this you must expect but one result—a reflection of the prejudice of the unformed rural mind on the problems of industrial life. I do not criticize the representatives of rural life as such, but do mean to emphasize the need of adequate industrial representation.

FEARS RURAL MINDS ON NEW TRADE BODY

"The remedy is in the hands of the industrial element of your communities. You wouldn't think of electing directors who knew nothing of your business nor had any sympathy with your problems; then why in the greatest corporation on earth, this country—do you place your interest with a weak minority?"

THE MEANING OF TEMPERANCE. Real Temperance Means Self-Control and Moderation in All Things. If a Real TEMPERANCE SOCIETY was organized to day, all Brewers would be among its Charter Members. Henry Watterson said: "The introduction of beer in America has done more for true temperance than all the Temperance Societies and Prohibition Laws combined." Dr. William R. Williams stated in answer to a question put to him by the Secretary of the Scientific Temperance Federation that the use of mild alcohols, such as Rhine Wine and Beer, should be encouraged. He said: "Those beers containing a very high percentage of food value and carbohydrates which are derived directly from the malt, have nothing to do with the alcohol. If beer be taken in moderation, it may be looked upon distinctly as a food." Dr. L. Mortimer Granville, for forty years an Eminent English Medical Practitioner, said: "The moderate consumption of beer is good for the system. It is my most sincere conviction that TOTAL ABSTINENCE from wines and beers is much more harmful to the human race than the moderate use of these beverages." When, therefore, we find that renowned scientists the world over, endorse the food value of beer, we should feel no hesitancy in using Pure Beer in our daily life. RUPPERT'S Knickerbocker The Beer That Satisfies is a Beverage of absolute purity. It is a safe drink, because, unlike milk and water, it cannot carry deleterious germs; a sane drink, because it does not unbalance the mental organs. It gives vigor to the body, is a constructive, not destructive agency and adds to one's strength and endurance when intelligently used. Knickerbocker Beer is made of the highest quality ingredients and is subjected to the various processes of Brewing, Filtering, Aging, Bottling and Pasteurization that assure a finished product that is unsurpassed by any Beer made anywhere on earth.
