

ETHEL COALS IN HASTE; MAY PUT TO SEA IN GALE

Allies' Warships Not in Sight Off Coast as Storm Approaches.

U. S. TROOPS AND SHIPS GUARD CRUISER

Newport News, Va., March 31.—The German sea raider Prince Etzel Friedrich began coaling hurriedly at 5 o'clock this afternoon and gave every indication that she was preparing to make a dash to sea.

Everybody was barred from the Etzel dock and for the first time newspaper men were kept away from the ship. Attempts to near the Etzel in launches were prevented.

A heavy storm is raging outside of Hampton Roads, the wind being reported as blowing sixty miles an hour at Cape Hatteras.

Two other members of the 118th Company, Coast Artillery, were dispatched from Fort Monroe just before midnight to stand guard around the Etzel after a request had been made for a guard by Capt. Thierchen, who with his ship had been threatened.

The mine planter Ord is in the harbor and will guard the cruiser from the water side.

Barges laden with 1,600 tons of coal arrived here this afternoon from Sealalls Point and the crew of the Prinz Etzel Friedrich immediately began loading the German converted cruiser.

Officers and men of the Etzel who came ashore to-day make conflicting statements, but all are agreed that the cruiser will attempt to leave this port.

Marine men said tonight that the Etzel when in perfect working order can make 23 knots an hour, while the fastest English or French cruiser of the Virginia Capes can make only 17 knots an hour.

With that start it would be next to impossible for any one of the pursuing ships to overtake her.

Although practically every man in the crew of the Etzel worked at coaling yesterday there was no confusion or unnecessary haste.

With the moon shining bright a high wind steadily arose late tonight and the waters of Hampton Roads and Chesapeake Bay were lashed furiously.

Huerta Sails for Mexico to Start Revolt, Is Report

Bryan Told Ex-Dictator Has Backing of Wealthy Ex-Federals in U. S.

Special Cable Dispatch to The Sun. CADIZ, Spain, March 31.—Ex-President Huerta of Mexico and his family sailed from this port to-day on the steamer Antonio Lopez. Their destination was given as Buenos Ayres.

Washington, March 31.—It was reported here to-night that ex-President Huerta had sailed for Mexico from Cadiz, Spain, to start a counter revolution.

Huerta is declared to have the backing of an influential group of Mexican exiles in this country.

It was stated tonight that more than two weeks ago Enrique Lorente, Villa agent here, went to Secretary Bryan and personally laid before him information regarding this alleged conspiracy.

According to Lorente he was originally planned that Huerta should be brought into Mexico through Progreso, the chief port of Yucatan.

The unofficial reports reaching here to-day that Huerta had started for Mexico from Spain caused chills to run down the backs of Administration officials.

State Department officials to-night admitted the possibility of Huerta attempting to set up another revolution in Mexico.

A fugitive from justice for thirteen years, John F. Ehrigott, once a wealthy commission merchant, returned to this city yesterday to consult a specialist who, he believed, could save him from blindness.

When Ehrigott gave himself up to the Federal authorities he knew that he ran the risk of going to jail, but this possibility was eclipsed by his fear of losing his eyesight.

Roger B. Wood, chief of the criminal division of the United States Attorney's office, was sitting at his desk when Ehrigott entered his room.

"I don't want to give myself up and plead guilty," Ehrigott said to Wood.

Mr. Wood shook his head despairingly. Then he sent upstairs for Capt. Hall, head of the Federal indictment bureau, who has grown not only gray but white in the Federal service.

Assured of the identity, Mr. Wood summoned the latter's attorney, Abel I. Smith, and took the defendant before Judge Charles M. Hough in the United States District Court.

R. SWOBODA IS HELD FOR FIRE ON TOURAINE

Man Who Had U. S. Passport Accused in France as German Agent.

LETTERS SHOW HIS GUILT, POLICE SAY

Inquiry Discloses Conflagration Was Caused by Explosion.

Paris, March 31.—Raymond Swoboda, who left New York on February 27 with an American passport issued by the French Consul there, is under arrest charged with having set fire on March 6 to the steamer La Touraine of the French line on her last trip to this side.

He was arrested at a hotel in the Place de Rivoli, where a search of his effects is said to have revealed letters in German which warrant the charge of "obscure relations with the enemy."

Swoboda, 38 years of age, was a passenger on La Touraine. Fire was discovered in the second hold on March 6. The passenger list was fairly large and the situation was critical because of the fact that there was a large quantity of ammunition in the cargo.

At one time Swoboda was an associate of a broker named Morrison, who has a large business here. Morrison was amazed when he heard of the arrest of Swoboda.

Investigation into Swoboda's career in Paris shows that no application in relation to him has been made either at the American Embassy or the Consulate-General by the French authorities or himself, which is remarkable if he is an American citizen.

Swoboda sailed to New York on the *Reichsland* a month ago. It is understood that he is a Hungarian and had a police permit to reside in Paris. It is believed here that he may have obtained an American passport through the slightest connivance while in New York.

The mat, it is not known in financial circles, even in the least important houses, as far as can be ascertained, he was a partner in a stock trading firm with a three room office in the Rue de Provence.

Swoboda visited the city since his return only to see his mail, which was sent by a mail boat, and to see a friend.
