

SUDEN RECOVERY IN COTTON PRICES

Heavy Trade Takings Responsible for Scramble by Bear Element.

EARLY ACREAGE REPORT

Cotton made a violent recovery yesterday and within a space of two hours made a gain of practically all the loss it had undergone in three days of liquidation.

Liverpool, in a rather weak set of cables, laid private advices from the other side, laid stress on the general selling, which was said to consist largely of speculative buying.

The New York Commercial, in a preliminary report on the cotton acreage, estimated a decrease of 15.4 per cent. over last year, thus indicating a total area of approximately 30,965,000 acres.

The week end figures were construed bullishly. The into sight for the week was placed at 24,000 bales, against 11,950,000 last year; the total for the season 13,319,000 bales, against 13,802,000 last year.

Prices at Liverpool closed easy. The market was quiet, with a few ticks of advance.

Spot cotton at New York was steady. 20 points advance. Middling, 10-12 southern spot markets were unchanged.

The Liverpool market opened barely steady. There was a good business in spot cotton, with middling 19 points decline at 5.25.

Prices at Liverpool closed easy. The market was quiet, with a few ticks of advance.

Interior stocks and receipts were: Wheat, 1,810; Flour, 1,248; Corn, 1,248; Soyabean Meal, 1,248; Cotton, 1,248.

Exports yesterday, 7,625 bales. Total for this season, 6,727,357 bales, against 7,952,493 bales last year.

Cash Demand Raises Wheat Values - Increased Demand for Corn.

The display of strength in yesterday's wheat market was quite surprising to many of the trade.

Bearish political news yesterday, however, had only a slight influence on the market.

It was the bears' turn to admit that they were puzzled over the action of the market and there was quite a little short covering in consequence of this weakness.
