

FIVE DEATHS DUE TO HEAT WAVE; 12 PROSTRATIONS

Temperature Close to 100—Sufferer Is Driven to Suicide.

CHILD AND A WOMAN DIE SEEKING RELIEF

Five deaths were traceable to the heat here yesterday. One man committed suicide after complaining about the warm weather, a woman and a child fell from buildings while trying to find cool air and two others, weakened by the heat, collapsed and died.

The highest temperature in the breezy tower of the Whitehall Building was 83 at 4 P. M., which does not represent by several degrees the actual heat of the sweating town. Some dry-thermometers recorded close to 100 in the sun, which might be considered an invitation to come in and drink fizz.

It was hot, measured by human endurance, which, after all, is the true method of telling temperatures in valleys of stone and steel that have a habit of sending forth the accumulated heat of other days. The 98 degrees of Virginia were fanned up this way by a zephyr.

As is usual in latter July days, there was much humidity and that made heat hard to bear. Hundreds slept last night on fire escapes and roofs.

May Be Cooler To-Day.

There is some hope for New York to-day and to-morrow if the prophets are right. They say that it may be partly cloudy this day and not so warm.

Edward Peter Nolan, a subway guard, 48 years old, returned to his apartment at 131 E. 131st street, Brooklyn, at 9 o'clock last night and complained of the heat. His wife found him dead in the kitchen a few minutes later, with the curtains of a window open.

Anthony Frank, 8 years old, fell from the roof at 173 Tenth avenue, near Twenty-first street, while he was seeking relief from the heat. His skull was fractured. He died an hour later in the New York Hospital.

Mrs. Sara Randall, a negro woman of 42 years, 131 E. 131st street, Brooklyn, was found lying on the roof of her tenement at 5 o'clock last night and complained of the heat. Her skull was also fractured. She died soon afterward.

As W. R. Brooks of 1361 Seventy-second street, Brooklyn, was leaving 124 Duane street, where he was employed as a bookkeeper by the firm of Powell & Campbell, at 10 o'clock last night he was struck by a fire truck. Due to the humidity, he was dead when he reached Hudson hospital. He was 45 years old.

Martin A. Teyford, 73 years old, of 551 Fifty-eighth street, Brooklyn, dropped dead late last evening while talking to some friends in a tobacco shop at 5112 Fifth avenue, Brooklyn. Heat prostration was the cause.

Many Prostrations.

The first prostration reported occurred early in the afternoon. Nathan Shire, a laborer of 816 Ninth street, collapsed at the home of his wife. He was taken to Gouverneur Hospital.

Other prostrations were: BENNIE BURNS, 59 years old, of 237 West Forty-fourth street, a prisoner at Jefferson Market, court on the charge of intoxication. Bellevue Hospital.

JOHN HALL, a fireman, of 25 South Street, struck on the forehead by a ball, was taken to the hospital.

CHARLES KUN, 48, a driver, of 541 West Forty-seventh street, prostrated in front of 624 First street and taken home.

OTTO HESS, 34, an engineer, of 341 East 123d street, Seventy-sixth street and Second avenue, fell from a fire escape.

MRS. NORA REITER, 56, of 73 Blake avenue, Brooklyn, dropped to pavement in front of 52 Boverly. Home in taxicab.

PAUL RICHARDSON, 34, fifty-eighth street and Eighth avenue, sitting in the Automobile Restaurant at 1537 Broadway, fell to the floor in a faint; his nose was fractured. Polytechnic Hospital.

Women Overcome at Work.

ANNIE SCHEITAL, 19, of 80 Lenox avenue, overcame in front of 13 East Twenty-second street and taken home.

DOUGLAS ULLM, a sewing machine operator, of 829 East Twelfth street, overcame while at work on fifth floor of 19 West Houston street. St. Vincent's Hospital.

BARRY KYPKE, 37, of 2375 East Fifteenth street, Brooklyn, overcame in front of 1294 Coney Island Terrace. Coney Island Hospital.

WILLIAM CLARK, 47, of 1523 Broadway, Brooklyn, overcame at Broadway and Greene avenue; taken to his home.

MICHAEL J. CONLIN, 6, of 182 India street, Brooklyn, overcame at residence. Eastern District Hospital.

A big wave struck Earl Pierce, 22, a chauffeur, of 63 Norfolk street, Newark, N. J., as he was bathing at the foot of West Twenty-third street last night and threw him against a post supporting life ropes. His skull was fractured. He was taken to the Jersey Island Hospital. Dr. O'Reilly said that he was not expected to live.

The intense heat drove about 5,000 workers to the beach at Coney Island last night. Many stretched out on the sands of Seaside Park which the city Park Department threw open for them.

John J. Conroy, of the Coney Island police detailed Sgt. Peter Masterson and a squad of men to patrol the beaches and protect the sleepers.

Cars running to Coney Island were crowded up to a late hour by entire families seeking a whiff of ocean breezes.

WHY HE QUILTS PROGRESSIVES.

T. Douglas Robinson to Tell His Herkimer Flock Next Week.

UTICA, July 30.—Theodore Douglas Robinson, nephew of Col. Roosevelt and chairman of the Progressive State committee, at a meeting of the Herkimer county Progressive organization to be held next week will give his reasons for leaving the Progressive party and returning to the Republican fold. This was stated to-day in connection with an announcement by E. M. Brown, chairman of the Herkimer county Progressive committee, that a meeting of the Bull Moose county organization would be summoned for next week. Mr. Robinson is a resident of Herkimer county.

The action of Mr. Robinson in shifting his political allegiance is regarded as foreshadowing the disintegration of the Bull Moose organization in Herkimer county. It was said to-day that many of the more prominent Herkimer Progressives would follow Mr. Robinson.

Auto Truck Kills Small Girl.

Lillian Debraut, 9, of 251 South street, Brooklyn, was run over and instantly killed near her home yesterday afternoon by an auto truck owned by the K. G. Wedding outfitting company, 108 West Thirty-fourth street, Manhattan.

George Seburgh of 487 Ninth avenue, Manhattan, driver, was arrested on a charge of homicide.

MACHINISTS SAY THEY'LL TIE UP ALL WAR PLANTS

Will Continue Campaign, Secretary Tells Federation President—Gompers Renews Corruption Charge Against "Agents of a Foreign Government."

WASHINGTON, July 30.—The International Association of Machinists and other like organizations intend to force strikes in practically every factory making war munitions in the United States if such a course is necessary to obtain better wages and hours for the men.

This is indicated in a letter addressed to President Gompers of the American Federation of Labor by Ernest Bohm, corresponding secretary of the Central Federated Unions of Greater New York and vicinity.

Mr. Bohm's letter, in which he called on President Gompers to repudiate suggestions he had made that German influences were responsible for recent strikes at ammunition factories, was made public here to-day, together with Mr. Gompers' reply.

In his letter to Mr. Gompers, dated July 24, Mr. Bohm says: "DEAR SIR AND BROTHER: By direction of this body I submit its request for a declaration from you relative to the newspaper reports in all of our week's papers alleging that officers of international unions received 'German' money to pull off the strikes in Bridgeport, Conn., and elsewhere in ammunition factories.

"The representatives of the International Association of Machinists declare emphatically that they will continue down the line and organize or tie up every such factory.

"This body believes that you should state just what you said to the press representatives on the various occasions you are quoted.

"(Signed) ERNEST BOHM, Corresponding Secretary.

Replying President Gompers says: "Gompers Denies Use of 'German' Money."

Mr. Ernest Bohm, Secretary, Central Federated Union: Your communication of the 24th inst. to me and contents noted. In it you ask me to make a statement relative to newspaper reports in all of last week's papers alleging that officers of international unions received 'German' money to pull off strikes in Bridgeport, Conn., and elsewhere in ammunition factories.

"In the first place, in reply I would say that there are several misstatements in the question. I never mentioned officers of international unions; nor did I use the word 'German' nor did I mention Bridgeport; nor did I refer to ammunition factories. What I did say was that authentic information has come to me that efforts have been made to organize men for the purpose of having strikes inaugurated among seamen and longshoremen engaged in the handling of American products and munitions ships containing American products consigned to certain European ports; that the corrupting influence was being conducted by agents of a foreign Government, and that I had no doubt that the same agencies and influences were at work elsewhere with the same purpose in view.

"In the effort to organize the yet unorganized workers of our country in the effort to secure a reduction of the hours of labor and higher wages and better conditions for the toilers of our country, I am not only in entire sympathy, but that has been my life's work and hope, and I shall continue to give every assistance to the fullest extent of what ability I may have and opportunity which may present itself for their accomplishment, but much work must be done by the men and women in the trade union movement of America. But we should all enter a sympathetic protest and frown down upon any foreign interference, no matter by whom actuated, particularly when that motive is ulterior and to the detriment of the country.

Peles Irregular in London.

LONDON, July 30.—The markets were quiet, with a light business. Prices were irregular. The war loan was firm. The new issue sold off to 98. Home rails advanced again on the dividend results. There was a further drop in Canadian Cur and Foundry. Canadian Pacific eased off. Maroon reacted and rubbers also softened. American issues were mixed on the trend on your side.

Eighteen Other Workmen Are Injured Near Pittsburgh.

PITTSBURGH, July 30.—Forty section men were repairing a spur on the tracks of the Pittsburgh and Lake Erie Railroad at the Patterson mine No. 2 of the United Coal Company at Loveland Hollow this afternoon when without warning twenty loaded coal cars crashed upon them, killing nine and injuring eighteen. Among the dead is Samuel P. Dougherty, superintendent of the mine.

Six men were killed instantly and three died later in the McKeesport Hospital.

The twenty cars were on the way to the tipple from the mouth of the mine when a large cable which held them suddenly snapped and the cars started on a wild dash down the steep plane.

MINE CABLE SNAPS; 9 KILLED.

THIEVES TAKE HEIRLOOMS.

Rob Van Cortlandt Home of Many Family Treasures.

MONEY KISKO, N. Y., July 29.—Thieves entered the home here of Robert C. Van Cortlandt last night and carried off many heirlooms, including a pair of shoe buckles 150 years old.

The house has been closed for some time as Mr. Van Cortlandt is at the fair in San Francisco.

CHARLES PINCKNEY

The Pinckneys—"Fathers of the Republic"

PERHAPS South Carolina's best gift to this Free Republic was the splendid services of her two great sons—Charles Cotesworth Pinckney and Charles Pinckney. It can truthfully be said of the Pinckneys that their love of honor was greater than their love of power, and deeper than their love of self. One played an important part in the "Louisiana Purchase"—the other, while an envoy to France, was told that the use of money would avert war, and to this replied: "Millions for defense, but not one cent for tribute." Both devoted their eminent abilities toward framing our National Law. The Constitution of the United States, as it stands to-day, was built upon the framework of a plan first proposed by Charles Pinckney. It was he who demanded that it contain freedom of religion, freedom of the press, habeas corpus and trial by jury. In political faith only did these two great men differ. Charles Pinckney was an ardent Democrat, and Charles C. Pinckney a loyal Federalist, and was twice a candidate for President. It is easy to imagine the honor that these two great lovers of Personal Liberty would have expressed if shown the proposed Prohibition Laws of to-day. It is needless to say that if alive they would VOTE NO to such tyrannous encroachments upon the NATURAL RIGHTS OF MAN. The Pinckneys both believed in the moderate use of light wines and barley brews. They also believed in legislation which encouraged the Brewing industry because they knew that honest Barley Beer makes for true temperance. For 58 years Anheuser-Busch have been brewers of honest Barley Malt and Saezer Hop beers—the kind the Pinckneys knew to be good for mankind. To-day their great brand—BUDWEISER—because of its quality, purity, mildness and exquisite flavor, exceeds the sale of any other beer by millions of bottles, 7500 people are daily required to keep pace with the public demand for BUDWEISER.

Visitors to St. Louis are courteously invited to inspect our plant—covers 142 acres.

8,800 OIL WORKERS TO GET MORE WAGES

Standard and Tide Water Companies Announce New Jersey Increases.

RUN UP TO 15 PER CENT.

The 1,800 men employed at the plant of the Tide Water Oil Company at Bayonne, N. J., carried home last evening along with their pay envelopes a bit of good news for their wives and children. As they drew their pay they received word from Superintendent Samuel W. Edwards that the company had decided upon a general increase in wages for the employees.

Those now receiving \$2 or less a day will get an increase of 15 per cent.; those getting from \$2 to \$3 a raise of 10 per cent., and those paid over \$3 a 5 per cent. increase. The new schedule goes into effect at once.

It was announced last night that the Standard Oil Company will give a 10 per cent. increase to all employees receiving less than \$2.50 a day and an increase of \$2.50 a day or over.

This will affect the wages of 5,000 employees in Bayonne, 1,200 at the Bay View plant near Elizabeth and 500 at the Eagle Oil Works in Jersey City.

None of the workers of the Tide Water Company went on strike; neither did they make any demands. The company decided to avoid trouble by shutting down its plant when the Standard Oil strikers and their sympathizers began rioting and shooting and guards were employed to protect its property.

The remarks of Sheriff Eugene F. Kinkead, who brought about the settlement of the strike, concerning the inactivity of the city commissioners during the thickest of the trouble were not relished by the commissioners, according to developments yesterday. Among other things the Sheriff said the commissioners had "laid down" and did nothing until the settlement of the trouble was in sight.

After denouncing the Sheriff for his arrest of city officials and criticizing the city commissioners for "laid down" and did nothing until the settlement of the trouble was in sight.

Definite promises of action next week were repeated by the officials of the machinists here yesterday. Michael J. Carney and E. J. Deering, business agents of the machinists, visited one of the manufacturers of war munitions, but they would not tell the result of the visit. As far as the machinists and the allied metal trade workers are concerned, it was said all are ready to give their support to the campaign for higher pay.

PLAN WAR PLANT WAGE FIGHT.

Machinists May Present Demands to First Concern To-day.

J. J. Keppler, vice-president of the International Association of Machinists, will return from Bridgeport today to confer with labor leaders here on the action to be taken to present demands for an eight hour day and increased wages to manufacturers of war munitions.

The ultimatum may be delayed until Monday.

NO COLBY AID FOR MOOSE DESERTERS

Progressives' Candidate for Senate Opposes Return to Republicans.

SEES LIFE YET IN PARTY

In their attempt to shepherd the Progressives of this State back into the Republican party Theodore Douglas Robinson and Chauncey J. Hamlin will get no support from Bainbridge Colby, who was candidate for the United States Senate last year.

"I do not regard the efforts of Mr. Hamlin and Mr. Robinson to feel their way back into the Republican party of any particular significance," Mr. Colby said yesterday. "If that were they feel they belong, I say let them go, and I say it without any disposition to regret their action or to criticize it. They are both good fellows and mean well. I think, however, that they have an unwarranted sense of responsibility in endeavoring to force upon their Progressive party associates their own personal views.

"There is no question but that compared with the 1912 vote the Progressive party membership has shrunk decidedly. On the other hand, I think there is a very much larger number than is commonly conceded who feel that there is a great and useful work to do.

"At this time, however, the public mind is preoccupied with the great problems of national defense and security and it is idle to actively agitate for administrative or constitutional reforms. Amid arms laws are silent.

"The Republican party seems to me to utterly misread the temper of the people in supposing that this preoccupation indicates reaction, and yet in the State where the Republican party was returned to power in 1914, notably in Massachusetts and presently in New York, the leaders seem to feel that they can first out the extreme reactionary proposals of the past no matter how emphatically these proposals may have been rebuked and accepted for them.

"The Constitutional Convention in this State represents to me an abject spectacle of narrow, biased and uneducated men, coping in ignorant self-confidence with forces that they have neither the information nor understanding to appreciate.

"For a Progressive who knows why he is a Progressive and why he became one to select this moment for returning to the Republican party is to me the height of either the depth of unreason or the conscientious voter in the approaching Presidential election is not going to be very powerfully influenced by so-called party considerations. It will be a question of what men and measures, irrespective of party, are as good American citizens should support.

Progressive leaders say that if the party is to cut any figure in the local contests throughout the State this fall it must begin preparing for the primaries soon and must decide immediately whether or not it wants to stay on the fringe line as a party. The decision will undoubtedly be made at the meeting of the State committee and county chairmen at the Hotel Ten Eyck in Albany next Friday. It is likely that this conference will begin preparing for the existence of the party in this State for the rest of this year is concerned.

On Thursday Mr. Hamlin, who is supposed to hold the Erie county franchise in the hollow of his hand, will try to get them to declare for reunion with the Republicans at a meeting in Buffalo. It is also expected that Mr. Robinson will be rounding up his Herkimer county flock for the same purpose next week. The results of their canvass will be in time as Mr. Van Cortlandt is at the fair in San Francisco.

GROUT APPEAL WILL BE ARGUED MONDAY

Certificate of Reasonable Doubt Asked—Justice Scudder May Act.

JUDGE'S CHARGE SCORED

Supreme Court Justice Kelly signed an order in Brooklyn yesterday afternoon directing District Attorney James C. Crosey to show cause before Justice Scudder on Monday why Edward M. Grout, now in the Raymond street jail under sentence for perjury, should not get a certificate of reasonable doubt pending appeal. Notice of appeal was filed in the County Clerk's office a few hours before application for the order was made.

These steps, the first taken to upset the verdict rendered last Saturday night in the Union Bank case, are set forth in some two-score pages of typewritten matter served on Mr. Crosey, together with the order to show cause, soon after Justice Kelly had signed it. It is expected that a hitch will occur on the return of the order as Justice Scudder was one of those involved in the "handicapped Judges" controversy—the only one who accepted the invitation to testify before the special investigating committee of the Brooklyn Bar Association. It comes to him in the course of routine, he being scheduled to sit in Special Term next week.

Justice Scudder came into the Grout case on application for an order to inspect the minutes of the Grand Jury which returned the perjury indictment. Mr. Crosey took offense, not only at the granting of the order, which he claimed was unusual, but also at the words of praise delivered from the bench in which Justice Scudder complimented Mr. Grout on his record as a public official and citizen.

In the application for the order counsel for Grout cites thirty-five alleged grounds for reversal. These include portions of Judge Lewis's charge to the jury, the admission of certain evidence and the action of Judge Lewis in overruling more than 1,000 objections offered by Stephen C. Baldwin, chief of counsel for Grout.

Strong exception is taken to that portion of the Judge's charge in which the items of the indictment are reviewed in detail. In this particular the charge is described as "incomplete and partial," and this was notably true as it related to applicant's own testimony on the stand, so appellant asserts.

A minor exception to the Judge's charge has to do with the personal conviction of each individual juror. One juror hung the jury for about forty hours and then voted for conviction only after the duty of the individual juror had been ruled by the Judge. Justice Lewis charged that the jurors should consider the opinions of their fellows, but that each must be convinced of the defendant's guilt by a reasonable doubt before voting for conviction. The appellant holds that amplification of the charge when the jury returned for instructions at that point was prejudicial to his case.
