

ALL ASPIRANTS LOOK ALIKE TO PENROSE

G. O. P. Patriots in Chicago Free-for-All Will Pick Best Man for U. S., He Says.

EVEN T. R. HAS A CHANCE

Senator Boies Penrose of Pennsylvania is confident that when the Republican voters of his State elect their twenty-six delegates to the national convention a week from today they will give emphatic approval of the theory that this is an open season for untruncated delegates.

The Senator, who comes to town on business frequently, said at the Waldorf yesterday that he has no choice for the Republican nomination for whom he is willing to get out and make an awful din.

After every one has been freely and fairly considered we will pick the man whose nomination will be the best thing for the party and the country.

The Senator added that Philander C. Knox, who will be nominated without opposition as a candidate for the United States Senate next Tuesday, was the only "favorite son" candidate whose name would be presented from Pennsylvania.

It was learned yesterday that organization Republicans have about reached the conclusion that no consideration of the Colonel's name will be necessary by the Republican convention.

As for Justice Hughes, the feeling that his strength is waning is jubilantly expressed. One leader said yesterday that any idea that Justice Hughes would have six members of the New York delegation behind him was steadily vanishing.

Ex-Gov. Odell is not one of these. Coming to town yesterday, he announced his belief in the strength of the Hughes boom.

Odell says Hughes is Strong. "The sentiment is for Hughes," he said. "To my mind he is the best candidate and the man we can elect."

Mr. Root would make an excellent President, but his boom is not taken seriously. I doubt if we could elect him, but I am sure we can elect Justice Hughes if he is nominated.

Reports coming into Root headquarters at the Hotel Manhattan are not in accord with the statement of Mr. Odell that the Root boom is not being taken seriously.

John W. Dwight, who is in charge of Root headquarters here, did not return from Washington yesterday as expected and it is said that he had prolonged his stay because of the desire of many Senators and Representatives to talk over with him the Root candidacy.

Believe Root is Receptive. No politician is shrewder than he, it is contended, and mere assertions that his candidacy has not been announced in good faith are not seriously regarded by those who know him.

The announcement that Progressive leaders are to confer to-morrow with the intention of adopting ways and means of forcing Col. Roosevelt to accept a nomination by the Progressives is not troubling the organization Republicans very much.

As organization leaders express themselves, they are willing to join battle with the Colonel, having first reformed their own party machinery and having led him to forsake the facts and fancies of 1912 they do not see how he can now revive them.

NEW WOMAN'S PARTY. 30,000 Plan Convention in Chicago During National Meetings.

CHICAGO, March 8.—A new woman's party which expects to wield sufficient influence to turn the balance in the national election next fall will be launched in Chicago June 27 at a national woman's party convention under the auspices of the Congressional Union for Women Suffrage.

The union aims for the passing of an amendment to the Constitution giving women the right of universal suffrage and expects to bring suffrage leaders of the unfranchised States of the East and South into contact with those of the "free" States of the Mississippi Valley and the West.

Thirty thousand women from all sections are expected to attend the convention.

MALONE AT WHITE HOUSE.

Take State Chairman Harvie to See the President. WASHINGTON, May 8.—Dudley Field Malone, Collector of the Port of New York, and Democratic State Chairman A. F. Harris conferred with President Wilson at the White House today.

Mr. Harris never had met the President before and it was said as his visit was intended largely to provide an opportunity for him to become acquainted with President Wilson.

Mr. Harris never had met the President before and it was said as his visit was intended largely to provide an opportunity for him to become acquainted with President Wilson.

CITIZENS' PARADE TO MARCH 20 ABREAST

More Than 60,000 Shut Out to Keep Great Procession Within Time Limit.

SEATS IN STAND READY

The chiefs of the preparedness parade are to hold their last meeting to-morrow afternoon at the Yale Club, when the finishing touches will be placed on the arrangements and last instructions issued to the various trades to participate.

The meeting will be held at 5 o'clock, and after the business has been disposed of Mayor Mitchell will address the chiefs, formally extending to them, so to speak, the freedom of the city on next Saturday.

An important change in the formation of the parade was made yesterday. Instead of a sixteen file front, as had at first been arranged, the marchers will form and march in a twenty file front.

"Although we have had to refuse applications for positions in line from new units, we are sure that the order directing this change

RABBIT HOUND HELPS IN GREAT DEER DRIVE

Nine Animals Will Be Shipped To-day to Adirondacks From Shelter Island.

GREENSBORO, L. I., May 8.—With the vociferous assistance of Gyp, a confirmed rabbit hound, the State's deer stalkers on Shelter Island captured two fine bucks to-day with a baby fawn for company.

The nine deer will be shipped from Sag Harbor to Saranac Lake to-morrow morning, in charge of Warwick Carpenter, secretary to Conservation Commissioner Pratt.

Chief Protector Byron Cameron is continuing the peaceful hunt more in the hope of driving the remaining deer from Shelter Island to the Long Island mainland than with any notion of taking the wild, scared things alive.

The indications are that at least forty deer have swum to the mainland and have lost themselves in the thick brush.

This morning the beaters began work on Mashonock Point, taking the temperamental rabbit hound along. Gyp's experience had been wholly with the rabbits, but he arose to the emergency and chased two bucks out of the brush.

Both leaped into the sea. One got away swimming a mile and a half to the Long Island shore. The other was caught by Cameron. Upon the beach of Mashonock Point the carcass of a deer was found. Evidently it had drowned struggling against an adverse tide, and the body had been washed ashore.

There will be another drive to-morrow "to pick up the crumbs," as Chief Cameron said. Probably there are not twenty-five deer left upon Shelter Island, and Cameron believes that with the help of the converted rabbit hound these can be driven into the water and captured or else frightened to Long Island.

The wardens discovered to-day that some Shelter Islanders have been a little free with their shooting arms where the deer were concerned. Carcasses of deer with bullet holes in them were found in the brush. Three skulls with bullet holes drilled cleanly through them were brought to the protectors' camp. There will not be a serious effort, however, to discover the shooters.

CALL ROOSEVELT ONLY LEADER. Connecticut Progressives Blind Delegates for Him Alone.

NEW HAVEN, Conn., May 8.—According to resolutions enthusiastically adopted this afternoon at the State convention for the Connecticut Progressive party Theodore Roosevelt is the one man to lead the United States to-day out of its perplexities.

The delegation chosen to attend the Progressive National Convention was instructed to vote first, last and all the time for Roosevelt. Joseph W. Alsop of Avon, formerly State Senator, presided, and the delegates chosen were: At large, Herbert Knox Smith, Hartford, chairman; Joseph W. Alsop, Avon, District delegates—First, E. E. Duffy of West Hartford; Second, C. R. Robbins, Norwich; Third, Frank S. Butterworth, New Haven; Fourth, George A. Rossmus, Danbury; and Fifth, Dr. F. J. Erie, Waterbury.

9 COLUMBIA SENIORS STRANGERS TO KISSES

Handsome Man in the Class Heads the List of Modest Young Students.

Columbia's senior class has nine young men who have reached the voting age without being kissed. And most prominent in the list is Francis M. Simonds, Jr., captain of the varsity football team last fall and acknowledged the handsomest man in the class.

Wallace D. Taylor, business manager of the Columbia Spectator, is another of the famous nine. Taylor has been too busy even to look at a girl ever since his grammar school days.

Another Spectator editor in this select nine is Allan Bruce Conlin. He has no explanations to make. He just hasn't been kissed. But that is not the case with Arthur S. Crane. He is manager of the glee club and so modest that he would walk ten blocks to keep from meeting a girl.

Francis S. Appleby, famous as a billiard player, has never felt the touch of maidenly lips. R. M. McCracken, a wrestler, E. M. Black, a debater, and N. Bacci, just a plain, ordinary, everyday hard working student, are in with the already famous nine, while the list ends with the name of S. Teu-Yung Seng, a young Chinaman who had never heard

MOOSE MEN PLAN FOR THE KEYNOTE MAN

Republican Managers Already in Chicago Also Planning for Convention.

CHICAGO, May 8.—The sound of hammer and saw began to resound in the Coliseum to-day, when William F. Stone, sergeant-at-arms of the Republican National Committee and of the convention, started a force of mechanics to work rebuilding the interior of the big convention hall and its annex for June 7. Work was first started on the annex offices wherein will be located the rooms for the national committeemen.

"The work on these offices must be completed first," said Mr. Stone, "and we will then provide headquarters for the National Committee, which will meet here June 2. In addition to the new galleries that will be built preparations for the reception and care of the delegates and visitors will be much more extensive than at any previous convention."

"There will be a ladies' room with maids in attendance, an emergency hospital completely equipped with medical and surgical appliances which will include an operating table, and for the use of the delegates we will have a post office sub-station and a telephone ready for local and long distance service in each of the offices and committee rooms."

"The safety of the crowd will be protected by a detail of possibly fifty fire men, who will be present during all the sessions of the convention. They will have with them fire fighting apparatus so that we may be prepared for any emergency."

The direct primary system has reduced the contest issue among delegates to a minimum. With the convention only a month away the Republicans have only eight contests left. Four years ago there were 235 contests over which the split came. Because of this clarified situation the Republican National Committee will not have to meet until June 2, five days before the convention.

Secretary James B. Reynolds is expected from Washington to get headquarters under way on May 13. Chairman Charles D. Hilles will not be here until May 24.

Progressive party leaders are talking over Raymond Robins, Gov. Hiram Johnson of California, Henry Allen of Kansas and Albert J. Beveridge of Indiana as possibilities for temporary chairman of the Moose convention.

HARDING AN 8 TO 1 SHOT. Ohio Senator First Entrant in Fred Schumm's Book.

Fred Schumm, the Brooklyn betting commissioner, yesterday announced the first offer he has received on the Presidential contest. It is an offer of \$100 against \$300 that Warren G. Harding, Senator from Ohio, the temporary chairman of the Chicago convention, will be nominated as the Republican candidate for President.

Reports coming into Root headquarters at the Hotel Manhattan are not in accord with the statement of Mr. Odell that the Root boom is not being taken seriously.

John W. Dwight, who is in charge of Root headquarters here, did not return from Washington yesterday as expected and it is said that he had prolonged his stay because of the desire of many Senators and Representatives to talk over with him the Root candidacy.

Believe Root is Receptive. No politician is shrewder than he, it is contended, and mere assertions that his candidacy has not been announced in good faith are not seriously regarded by those who know him.

The announcement that Progressive leaders are to confer to-morrow with the intention of adopting ways and means of forcing Col. Roosevelt to accept a nomination by the Progressives is not troubling the organization Republicans very much.

New York to Omaha distanced, —at 76 1/2 miles per hour,— by Automobile!

without Changing a Tire

IT is 960 miles from New York to Chicago. The "Twentieth Century Limited" covers these 960 miles in 20 hours, with five stops for passengers, besides change of locomotives. That is an average of about 48 miles per hour, over a nearly perfect roadbed of steel rails.

ON Tuesday last, May 4th, at the Sheepshead Bay Speedway, N. Y., Ralph Mulford drove a Hudson Automobile 1,520 miles at an average speed of 76 1/2 miles per hour. That is more than 50% faster than the 48 mile per hour speed of the "Twentieth Century Limited" on its roadway of steel.

Mulford made this average with ten stops for gasoline and oil—beating the world's record to a frazzle, of course. But!—The most significant and impressive thing about this was the following— Mulford made 1,520 miles at that prodigious coverage of speed WITHOUT CHANGING A TIRE.

NEVER in the world's history has such a grinding, gruelling pace been MAINTAINED for such a huge distance. —More than the 1455 mile distance between New York and Omaha, Neb. —Equivalent to 12 1/4 hours' time for the 960 mile distance between New York and Chicago, which is covered by the world-famous "Twenty Century Limited" in 20 hours. Not Speed alone, but average speed maintained over 1500 miles. —Without CHANGING a Tire!

GREAT is MULFORD—the Speed-king of Iron Nerve and Endurance. Without his achievement the world's greatest TIRE TEST might never have found such conclusive expression. And— Without Silvertown Cord Tire ENDURANCE even he never could have made such a Record.

Because the rending, tearing, wearing, grueling strain of such a Speed, for such a Distance, would have worn out several sets of Tires of any other Make, thereby cutting down the coverage speed through Tire changes.

THIS is where the TWO layers of stoney Cables, or giant Cords, anchored, find, in Silvertown Tires, capable measure of their strength and endurance! This is where the Black-Rubber Treads of Silvertown Tires prove their Wearing qualities, and their lasting Cohesion to the Cord Structure beneath them!

Because, —the World's greatest Speed Records, of 1915-16, would have been impossible without that ENDURANCE of Silvertown Cord Tire Construction and Tread. These alone could have stood up to match the Endurance of the Men and the Cars capable of taking such Speed out of them.

Every big automobile race since 1914 has been won on SILVERTOWN Cord Tires.

Silvertown ENDURANCE Tires. Manufactured Only by B. F. GOODRICH CO., Akron, Ohio. New York Branch, 1,780 Broadway.
