

### ALLIES FROWN ON KING IN HUNGARY

Declaration That the Hapsburgs Will Not Be Tolerated Reassures Small Nations.

### STOPS REACTIONARY MOVE

Budapest Intended to Have Archduke Joseph Designated King by National Assembly.

Special Cable Despatch to THE SUN AND NEW YORK HERALD.

Copyright, 1920, all rights reserved. PARIS, Feb. 3.—Self-determination for Hungary hereafter will be limited by the choice of rulers. An official communique from the Council of Ambassadors declared that the restoration of the Hapsburg dynasty neither would be recognized nor tolerated by the principal Allied Powers.

The Ambassadors' declaration is intended not only for Hungarian consumption, but is deemed necessary as well in order to reassure the small nations surrounding the Magyars. Czechoslovakia, Rumania, Jugoslavia, Austria and Poland all were exhibiting signs of disquietude and concern over the growing monarchist movement in Hungary and had warned the Allied Powers that unless something was done to put down the movement a wave of reactionary sentiment might sweep one of the Hapsburg Archdukes into power and menace the new nations in contiguous Hungarian territory.

While it is not the intention of the Allies to dictate to Hungary the form of government or constitution to adopt it is intended to give the Hungarian delegates in Paris to understand that the republican form of government is preferable in all respects. The Allies, however, will offer no opposition to the designation of Archduke Joseph or the Duke of Connaught as regent.

By the Associated Press. BUDAPEST, Jan. 31 (delayed).—Designation of former Archduke Joseph as King by the Hungarian National Assembly seems probable as a result of the strong Royalist tendency in this country. This movement persists despite objections to the Hapsburgs on the part of the Allies and Hungarian Socialists.

Former Archduke Joseph, referring to the tendency in Hungary favoring restoration of the monarchy, said: "Charles is the rightful King of Hungary until the people decide otherwise. It is a dangerous question to have a King here when the whole world is in such a state of revolutionary unrest. The disorders in Germany may force the people sooner or later to recast the Hohenzollern as rulers. Hungary will rise again. Her people

### Personal Liberty at Havana Country Club

are active and intelligent and are working out a greater destiny. Hungary will not be a little State of 3,000,000, but a State of 20,000,000, of whom 12,000,000 will be pure Hungarians. Hungary's misfortune in the past was that she was dominated from Vienna and exploited economically by Austria. I see a bright future for Hungary if she is independent.

A despatch from Stockholm in October, quoting what were said to be unusually well informed sources, was to the effect that the former Archduke Joseph was spoken of as the coming King of Hungary. After the overthrow of the monarchy the popularity of Joseph was such that he was able to form a Government in Hungary, which he headed until the peace conference demanded his retirement as a condition precedent to any negotiations for peace.

Ad Valorem on Print Paper. WASHINGTON, Feb. 3.—An ad valorem tax of 12 per cent. on high grade print paper would be imposed under a bill introduced to-day by Representative Hull (Tenn.). Paper valued at less than 8 cents a pound would be exempt.

### REVOLUTION FEARED IF EX-KAISER IS TRIED

Kautsky Says People Would Make Wilhelm a Martyr.

BERLIN, Feb. 3.—Carl Kautsky, who investigated the causes leading to the war, writes in the Berlin Volks Zeitung: "The passing of sentence on Wilhelm (the former German Emperor) before an enemy court would not alleviate the danger of a counter revolution, but would add to it. Wilhelm would be made a martyr in the eyes of the German public, to whom he would appear as a man sentenced, not for his crime or that, but for being a German. His popularity suddenly would soar upward tremendously and he might become a dangerous leader in opposition to the German republic."

French Senate Gets Daylight Bill. PARIS, Feb. 3.—The Chamber of Deputies passed to-day the daylight saving bill, the measure then going to the Senate for action. The bill fixes March 15 as the date for turning the clocks

an hour ahead and provides that summer time thus established shall extend to October 25.

### EIGHT IN GOVERNOR'S HOUSEHOLD ARE ILL

State's Executive Is Nursing a Bad Throat.

Special Despatch to THE SUN AND NEW YORK HERALD.

ALBANY, Feb. 3.—Eight members of Governor Smith's household are confined to their rooms with severe attacks of flu or grip. The Governor, acting on the advice of his physician, Adjutant General Charles W. Berry, cancelled his engagement to attend the Charity Ball to-night in New York and remained in the Executive Mansion nursing a bad throat. Lieutenant Governor Harry C. Walker went to New York to represent the Governor at the ball. Mrs. Smith was slightly improved to-day. She has a mild attack of influenza. Miss Emily and Miss Katherine, daughters of the Governor and Mrs. Smith, were treated to-day for the grip. The butler, cook and two servants in the Executive Mansion became ill to-day.

### WET? IT'S LIKE A DELUGE IN HAVANA

All the Comforts of Bygone Days in U. S. to Be Found in Cuban City.

Special Cable Despatch to THE SUN AND NEW YORK HERALD.

HAVANA, Cuba, Feb. 3.—The tinkle of the ice in a tall glassed "Tom Collins," and the sound of a well struck golf ball; the swish of summer linen, and the sun tan of face and arms and shoulders; the sizzle of a "gin fizz" and the perspiring bottle of lager beer? What thoughts! To you up there, how absurd! How impossible! But they really are being seen and heard this very day. On the great lawns and verandas of Havana's hotels and estates and pleasure resorts, the pop of the champagne bottle is not a thing to startle one. You can walk into another Delmonico's or Sherry's here any day. And it might be added that the newly constructed resorts in this Cuban city are so magnificently appointed and so beautifully furnished that they really remind one of the days gone by on Fifth avenue or on Long Island.

One of the most spacious and comfortable spas of Havana that is being occupied largely by Americans now is the Havana Country Club. It is a favorite meeting place, and its wide verandas and sweeping lawns and greens invite many afternoon "ten" parties. Mrs. Walter E. Ogilvie, Jr., formerly Miss Marie Spalding of Buffalo; Mrs. H. M. Hite and Mrs. Russell Spalding, both of New York, are there now, and were seen on the lawn to-day.

Under the spreading shade trees, with a little book teaching the pronunciation of commonly used Spanish words in one hand and a glass of fine old wine or a tall glass of cherry colored liquor in the other, one finds groups of young women from New York chatting and laughing to themselves of the plight of "the folks up home." Syzygium and "cocktails" of liquor are placed right out in plain view and the consumers are so proud of themselves that they invariably invite in their friends from the States and before nightfall they have formed more of a crowd than they had expected, and then they all wander down to a dance hall, where also there is plenty to drink—and, all in all, it is a pretty happy time they're having here.

Miss Norma Tallandier, the motion picture actress, who was found sitting beneath one of the sidewalk shade trees to-day, voiced her sentiments concerning prohibition. "I came here to look over the field for making pictures," she said, "and I'm sure I should not have chosen Havana for that reason alone. I think the prohibition law at home is miserable, and I don't see how the people stand for it." Newspapers in Havana are using large

### INCREASED PAY BILL PASSED.

Senate Advances House Measure for Army and Navy.

WASHINGTON, Feb. 3.—Pay increases for officers and men of the army, navy, Marine Corps, coast guard and public health services aggregating \$95,500,000 for the next year are provided in a House bill passed to-day by the Senate. Commissioned officers will receive an advance of 10 per cent. and enlisted men above the rank of private will receive an increase of 20 per cent. Efforts to amend the measure so as to be successful.

### PUSSYFOOT JOHNSON HECKLED BY DANES

Starts Prohibition Campaign in Copenhagen.

COPENHAGEN, Feb. 3.—William E. (Pussyfoot) Johnson of the American Anti-Saloon League and the Rev. David Ostlund to-day inaugurated a prohibition campaign at a public meeting here. They met with a mixed reception, but the hostile element preponderated, and the heckling received by the speakers was of a severe nature. In an editorial to-day dealing with

the campaign, the National Tidende says that the meeting was by no means "a successful start for the American agitation." The Kobenhaven declares the agitation has been started "for American money," and asks "for what purpose?"

Flag on Every Soldier's Grave. WASHINGTON, Feb. 3.—Beginning Memorial Day, the American flag will fly from the grave of every American soldier buried in France, the War Department announced to-day. In addition, post flags will be hoisted in the center of the large cemeteries and smaller flags will be used at the smaller burial grounds.

### Our Department of New Accounts

attends to all details in connection with opening new accounts—supplying pass books, deposit slips, check books and the fullest information and assistance.

Any phase of banking about which an explanation is desired is freely and intelligently discussed. We would welcome an opportunity to talk over possible banking relations with you. If it is not entirely convenient for you to call during regular banking hours, come in whenever you can during your business day and your needs will be met.

Fifth Avenue and 44th Street NEW YORK

Energizing Production  
The key to deflation is production, and the exercise of thrift, implying economy, saving and the elimination of extravagance in every direction. Contraction of consumption and decrease of indebtedness will equally serve.

With deflation must come a reduction in the scale of living, but this should be no hardship, inasmuch as scale is relative, and deflation, like inflation, will affect all alike. Inflation has its joys and its sorrows, but it does not contain so much ill as deflation. We cannot refrain from again quoting the philosophy and wisdom of Sam Patch, who averred that it was not the flying that hurt, but the lighting.

The present conditions in the steel trade are, it would appear, repeated throughout our industry generally, with promise of continuation of activity. The fly in the ointment is that we are not producing at the rate of 100 per cent., but possibly only 75 per cent. or 80 per cent. The Harriman National Bank has already pointed for the benefit of its customers the probable course that trade must ultimately take, and we believe that they are fully prepared for any change in the present trend.

The solution of the cost of living problem will be helped by immigration, of which there are favorable reports coming to hand. What this means in the reduction of labor costs is obvious. As many supposed, the rapid emigration of our aliens back to Europe was in large part a temporary matter. Now they are returning. They have discovered America to be a land not only of promise but of performance.

### The Call Is To Us All

TO MEN and women of today is given the glorious privilege not only to witness, but actually to participate in, one of the most joyous and significant events in all history—the Restoration of the Promised Land to the scattered children of Israel.

After centuries of longing, centuries of faith and centuries of earnest prayer, the fulfillment of the Promise comes with amazing swiftness. The Promise was not alone to the Jewish race but to civilization. It lies in the heart of the world's most precious writing. Its fulfillment casts a flood of light upon the purposes which underlie all history.

But it comes not as a gift but as an opportunity. It calls to all to give—to give as fully and as freely as the heart or faith may prompt. And dull, indeed, must be the feelings of one who is conscious of no thrill at such a privilege.

The door is open, but its opening discloses the desert plains, the barren slopes and the crumbling habitations of a long-neglected land, except in scattered Jewish colonies, where bright oases and happy homes proclaim what can be done.

If the eyes of Faith can see the Zion of the future, with its cities and farms, its vineyards, groves and gardens, its commerce and industry, its learning, its majesty, and its beauty of holiness the human eye is conscious of the prodigious labor which must intervene.

Workers must be brought together, tools and equipment must be supplied, water must be led from the hills, and valleys must be filled with the resources of husbandry. Desert plains can be transformed to fields of waving grain. Barren slopes, with orchards green, can be made to bring forth fruit again.

Before the wandering children may return homes must be built to house them, towns and cities must be cleansed and made habitable, great public works must be undertaken and carried to completion, railways and highways improved, harbors dredged and docks constructed, workshops and factories erected. Schools and universities, hospitals and laboratories are some of the other items in the vast programme of reconstruction.

Modern science, in agriculture, in engineering, in sanitation, in every field, must be called upon to work its magic throughout the land.

If we of this generation are to share in the fulfillment of the Promise, if we are to receive new blessings from the Holy Land revived, new fruits from old and sacred soil, we must plant the seeds now—we must give our aid today.

The historic opportunity is here. The need is now. The call is to us all.
