

ered. Beyond this they claimed Indiana with a confidence, never before shown and insisted that the Indiana organization managers have admitted privately they expect Johnson to win.

FRAUD IS CHARGED IN N. J. PRIMARIES

Continued from First Page.

(Wood), who has 3,653 to 3,774 for Mackay (Johnson), has just a bare chance of winning on complete returns. The same is true of W. H. Marshall (Wood), who has 3,012 to 3,534 for Archibald (Johnson) in the Eighth district, with fifty-five districts missing out of 144.

Gang Escapes After Bold Attack in Hoboken Crossing.

BURTON'S NAME WITHDRAWN

Washington, April 28.—Nomination of Theodore E. Burton, former Senator from Ohio, to be a member of the Tariff Commission was withdrawn from the Senate to-day by President Wilson.

THE DERVISHES

Those strange churchmen of the East—were the first to use coffee.

CHILD'S

It takes 750,000 pounds a year to supply them.

They were instructed to drink it in order that they might not lose zeal during their long religious ceremonies.

Thousands today are increasing their zeal in business by drinking the delightfully stimulating coffee served at CHILDS.

Full-flavored, velvety coffee, combined with milk and cream—no substitutes as it is stimulating.

DESIRE THE ABILITY TO RECOGNIZE GENUINE STYLE, AND ADEQUATE SERVICE IT SATISFACTORILY IS AN IMPORTANT ITEM OF THE SERVICE RENDERED BY FINCHLEY.

It is generally conceded that the League of Nations is making his showing of strength in the primary States, and this forces consideration of the party's platform attitude toward that question.

Senator Johnson tells the people that the treaty is thoroughly bad, and that even with the Lodge reservations this country cannot safely enter the league.

In Hudson county William P. Verdon, the old time "Boss," has succeeded in administering a telling blow to County Prosecutor Pierre Garven, who was one of the Wood leaders, and who sought to prevent the United States Senators from going to the convention as delegates at large.

An interesting phase of the fight is the part that prohibition played in it. The defeat of Thomas L. Raymond, a well known wet, by William N. Hunyon, who is supported by the drys, led some persons to assert last night that there was a reaction in Jersey against the wet sentiment that has been running rampant.

Special to THE SUN AND NEW YORK HERALD. BOERUM, April 28.—Leading factors developing from the Presidential primaries are declared to be the handsome endorsement given to Gov. Coolidge, as shown in the sweeping triumph of the independent "big four" candidates for delegate at large on the Republican ticket, the tribute paid to Senator Lodge for his fight for an Americanized treaty—the State's senior Senator not only leading the ticket but also carrying all but five of the thirty-eight cities in the State—and the rebuke administered to the national administration in the victory of Senator David L. Walsh, only one out and out Wilson candidate for delegate, Marcus A. Coolidge of Pitchburg, surviving the slaughter of the former who was Wilson delegate.

The setback given to former Gov. McCall, who ran for delegate at large as an out and out Hoover man, is regarded as accurately indicating the Bay State's attitude toward Hoover as a Republican Presidential possibility. McCall, however, takes an optimistic view of the result, saying: "It is far the best relative showing Hoover has yet made in any State. Two independent delegations had the official endorsement of the Wood management and one of them, in addition, the Johnson endorsement, and yet, without anything resembling a machine behind him, the Hoover delegate received substantially as many votes, although he was almost at the foot of the long list of names on the ballot. The result should greatly help Hoover in California if his friends will make a real contest there."

EL PASO, TEX., April 28, 2 A. M.—Revolutionary troops in Chihuahua City have been driven from the State Capitol by loyal forces led by Elias de la O, a civilian, who was secretary to provisional Gov. Andres Ortiz, now a candidate for constitutional Governor.

AGUA PRIETA, Sonora, April 28.—Mazatlan, Sinaloa, a port on the Pacific coast of Mexico, is being attacked by revolutionary forces under Gen. Angeles Flores, according to an unconfirmed report received at military headquarters here to-day. Gen. P. Elias Salas announced the attack had been expected since yesterday.

WASHINGTON, April 28.—American advice here to-day, both through American and rebel channels, continued to note a rapid spread of the revolutionary movements against the Carranza Government, particularly in the close vicinity of Mexico City. The best available information, it was said by Government officials, indicated that the rival forces under arms were nearly equal in numbers. They also viewed the break in the garrison in Chihuahua as reducing from that quarter the menace to the revolutionary forces in Sonora.

CHICAGO, April 28.—Roger Sullivan, Democratic leader, left a fortune of \$1,500,000, according to the will, filed for probate to-day. The bulk of the fortune is incorporated in a trust fund for the benefit of the widow and children. Mrs. Sullivan and her son, Boettius, are named trustees.

WASHINGTON, April 28.—Nomination of Theodore E. Burton, former Senator from Ohio, to be a member of the Tariff Commission was withdrawn from the Senate to-day by President Wilson. Mr. Burton, who now is president of the Merchants National Bank of New York, informed the White House that he preferred to remain in private life.

CHICAGO, April 28.—Roger Sullivan, Democratic leader, left a fortune of \$1,500,000, according to the will, filed for probate to-day. The bulk of the fortune is incorporated in a trust fund for the benefit of the widow and children. Mrs. Sullivan and her son, Boettius, are named trustees.

WOOD SLURS HISSED AT JOHNSON RALLY

Senator Three Hours Late and Landis Makes Misplay.

RICHMOND, Ind., April 28.—A plea for decentralization of the power effected during the war in an effort to win quickly and for an Americanism apart from the League of Nations was made by Senator Hiram Johnson of California, candidate for the Republican nomination for President, in an address here to-night. The senator was three hours late in arriving in Richmond.

M'BRIDE LEADS FOR G. O. P. COMMITTEE

Returns in Alaska Are Slow and Incomplete.

JUNEAU, Alaska, April 28.—John N. McBride of Juneau was leading Charles E. Herron for Republican National Committee on the face of returns to-day from fifteen precincts in the Third division, following yesterday's primary. These returns, which include Seward, Valdez and Cordova, gave McBride 1,480 and Herron 3,100.

B. W. THOMPSON SHOTS SELF

Politician and Lawyer in Critical Condition in Hospital.

SPECIAL TO THE SUN AND NEW YORK HERALD. HARTFORD, April 28.—Royal W. Thompson, lawyer and widely known here and in Washington through his services for many years as private secretary to former United States Senators Joseph R. Hawley and Morgan G. Bulkeley, shot himself yesterday in his home here and is in a critical condition in Hartford hospital.

STORES DO NOT PROFESS TO PUT SUCH FABRICS INTO MEN'S \$75 SUITS AS WE DO

They buy regular stock woollens, whereas we, as a specialty shop, are both permitted and able to exercise a custom tailor's discrimination. It does not cover the situation for us to talk of unfinished worsteds, chevots and flannels. Any store can do the same. But in their odd and exclusive markings and their soft and subtle colors, our fabrics are as isolated from the general range of cloths as our methods of tailoring them. Thus, the value is incomparably better in the woollens as it is in the workmanship.

Lord & Taylor

38th Street — FIFTH AVENUE — 39th Street

For the Man Who Demands Custom-Made Shirts. Of course, most of us are satisfied with the regular ready-to-wear shirts.

But if you are a man of unusual proportions, or just want something a little different than the ordinary, there's a lot of satisfaction in having shirts made for you.

For such men we have a particularly attractive lot of new shirt materials — three hundred patterns in imported and domestic madrases, flannels, and silks — from which we'll make shirts to suit you.

If you want to see some fine shirtings, look these over; or we'll be glad to send samples upon request, or even a representative to take your measurements.

The prices range from \$5.50 to \$20

Telephone Greely 1900 Ground Floor.

THIS ADVERTISEMENT is No. 4 of a series prepared by the students of New York University to all of the needs of the University that is serving the needs of New York. This space is paid for by a Graduate of the University.

What hath God wrought?

THIS was the first message sent over the first commercial telegraph line built by Professor S. F. B. Morse of New York University. That wonderful instrument, perfected in a little room of the University Building at Washington Square, has annihilated time and distance. It has brought cities together. It has quickened the wheels of commerce and industry immeasurably.

The service it has rendered and will continue to render, not only to our own nation but to all humanity, cannot be expressed in terms of material wealth.

Other valuable scientific advancements have been made at New York University. The first photograph of the human face was taken on the roof of the University Building. Colt's famous Firearm was perfected in one of the laboratories. These are only a few of the achievements in the fields of science and engineering brought about at New York University.

New York University would make still greater contributions to the city and the nation, if she had the necessary means.

To complete and equip these buildings and to provide other facilities for the hundreds of New York students for whom there is not room today, New York University needs \$6,450,000.
