

Senator and I are too far apart to warrant discussion along such lines. If Congress adopts this resolution and it is approved by the White House, as it certainly will be, what will be gained? Nothing, except that our friends on the other side will say: "We put the President in a hole." We are not going to do that. The American people know where the treaty making power is located.

SAYS WILSON BROKE ARMENIAN PROMISE

Archbishop Tells of Talk of Accepting Mandate.

President Wilson virtually promised the Armenian delegation in Paris a year ago that the United States would take a mandate over Armenia, should such an offer be made, according to a statement by Archbishop Khoren of Armenia, issued yesterday by the Near East Relief. Archbishop Khoren arrived Thursday as the representative of the Armenian Government.

"Nicky" Arnstein.

ARNSTEIN IS IN JAIL; WITH BAIL \$100,000

Mr. Fallon said frequently to the Commissioner while Arnstein was on the stand: "That might incriminate him," or "He doesn't know that." "Nicky" always took the hint. Commissioner Gilchrist became annoyed when "Nicky" refused to state whether he had conferred with his lawyer early in the day. "Do you mean to say that it would tend to degrade you to admit that you talked with Mr. Fallon?" he demanded. He also refused to accept "Nicky's" plea that it might incriminate him to tell what city he was in on Thursday and other questions that apparently could have no bearing on any criminal charges.

Before U. S. Judge for Contempt.

With more than 100 curious persons at his heels "Nicky" was marched to the Federal Building, where he was sworn as a witness before Commissioner Gilchrist for a general questioning about his assets. His persistent refusal to answer pertinent questions, however, brought these proceedings to an early halt and caused him to be held before Federal Judge John C. Knox for contempt.

Never Had Good Stocks, He Says.

"Only when questioned about stocks did he depart from this course. 'I never had a share of stock that was good in my life,' he said. 'I owned some once, years ago, but it wasn't worth anything. I never handled any stolen stocks or any other kind. I don't believe I would know a stock certificate if I saw one.' He volunteered the information that he had not spent much money during the last three months, as it had not cost him 'anything to speak of.'

Will Confer With Government as to Executing Treaty.

Paris, May 15.—Dr. Goepfert, the president of the German peace commission, accompanied by several members of the delegation, will leave to-night for Berlin to confer with their Government on questions relating to the execution of the Treaty of Versailles. They expect to be absent about a week. It was said to-day at the headquarters of the delegation that the German delegates to the Franco-German economic conference, to be held in Paris, would arrive in the meantime, probably early next week.

demnity and a speedy and adequate payment on account to France. An official statement issued to the correspondents here with regard to the morning conference, said in part: "It was agreed that there was no question of varying the Treaty of Versailles. The treaty is to be maintained in full force and virtue. It was also agreed that the demands under the disarmament clauses shall be enforced in particular, and that the enforcement shall not be postponed until after the meeting at Spa.

COUNCIL TO GIVE OUT RULINGS.

Some to Be Announced at Public Meeting To-day. LONDON, May 15.—Decisions reached at the meeting yesterday of the Council of the League of Nations in Rome, will be announced, in part, at a public meeting to-morrow, according to a Reuters' despatch from the Italian capital. The most important will be made public at the final open session of the Council next Wednesday. The programme for the day's discussion included the following questions: Calling a general assembly of all nations that are members of the league; ratifying prisoners of war still in Siberia; international protection for women and children; conducting an inquiry into conditions in Russia; claims of the German Government; the labor question; registration of treaties; requests from newly formed states for admission to the league and international statistics and matters concerning transport.

DELEGATES OFF FOR BERLIN.

SWISS BEGIN VOTE ON LEAGUE OF NATIONS.

Result of Referendum Is Expected to Be Close. Bern, Switzerland, May 15.—The referendum to decide whether Switzerland shall become a member of the League of Nations began this evening with indications of a large vote. Besides from 8 to 8 o'clock to-night, the polls will be open from 10 o'clock to-morrow morning until 2 in the afternoon. Before the plebiscite hundreds of campaign meetings were held, pamphlets and placards were distributed, processions took place and church bells were rung. The vote is expected to be close. A great mass of the opponents to Swiss adhesion belong to the Socialist party, some Conservatives with the Liberals and peasants being in favor of Switzerland joining the league.

Treaty Rejected by Majority.

Senator Underwood (Ala.), Democratic leader of the Senate, said: "If it was the purpose merely to reject the League of Nations and progress ratification of the peace it was in the power of the Senate's majority to amend the treaty by striking out all clauses relating to the covenant of the league and ratifying the rest. It had been done all there is in this resolution would have been accomplished and more, because the German Government is a party to this treaty only so far as the terms of peace add in relation to the League of Nations. The opportunity of acceptance or rejection of that plan was not presented to the President. The party in control, when it returned the treaty without amendment, foreclosed the opportunity to make peace."

Senator Knox (Pa.) Explains.

"Diplomatic and consular relations cannot of course be established except by arrangement with Germany, but if this resolution is adopted, supplemented by the fact that we ceased hostilities more than a year and a half ago, of course it would be the President's duty in such circumstances to make such an arrangement, and it was because I did not want to risk it on the President that I was willing to accept the Lodge amendment to strike out of the resolution the provision requiring the President to make a new treaty. That would not be a treaty of peace but a treaty of dignity and commercial relations. You can pass peace without a treaty."

Harding Blames President.

After a discussion of the constitutional issues by Senator Walsh (Mont.), who asserted the way could be terminated by Executive action, Senator Harding (Ohio) spoke for the resolution. He outlined some of the history of the long fight over the treaty and the League of Nations, arguing that the President's insistence on a single programme, which he would not submit to amendment, to reservation or modification, was responsible for the failure of the treaty.

When Mr. Hitchcock finished.

Senator Brandegee (Conn.) offered an amendment to a few minutes on the President's plan, were intended to insure that in one particular case the owners of a factory destroyed during the war would be compensated by Germany. It was adopted without discussion. Vice-President Marshall ordered the roll called at once on the formal motion to adopt the Senate resolution as substitute for the House resolution. It carried—ayes 48, nays 43. Then the question turned to formal adoption of the resolution, and by an identical vote it was adopted. Immediately the resolutions were announced adopted Senator Reed (Mo.) introduced two bills to repeat all war time legislation. The vote in detail follows:

Won't Reveal Friend's Name.

"Well, I respectfully decline to answer," Nicky said. "I cannot disclose his name. He is a friend of mine." When a long list of stocks identified by Joseph Gluck as having been turned over by him to Arnstein was shown and "Nicky" was asked if he had had transaction in any of them, he gave his answer without looking at the list.
