

WILSON PLATFORM MAKES APPEARANCE

That Adopted by Virginia Democrats Is Issued at White House.

LEAGUE FULLY INDORSED

President Commended for His Refusal to Agree to Lodge Reservations.

Special to THE SUN and NEW YORK HERALD. WASHINGTON, May 28.—What may be accepted as President Wilson's idea of what the Democratic national platform should be, particularly regarding the League of Nations and the problems of peace and reconstruction, was given to the public at the White House to-day. It is the Virginia State Democratic platform, adopted recently by the Virginia State Democratic Convention, to which the President, in a letter to Senator Carter Glass (Va.), has accorded his unqualified approval.

In making public an exchange of letters between the President and Senator Glass the White House significantly took occasion also to hand out mimeographed copies of the Virginia platform, which contains about 8,000 words. Much of the platform is devoted to the praises of Mr. Wilson. His entire administration is indorsed in glowing and sweeping terms. Into the document is woven a complete indorsement of the Versailles peace treaty, with its League of Nations covenant. Mr. Wilson is commended for his refusal to agree to the Lodge reservations. The Republican Senators who insisted on the reservations, and particularly Senator Lodge (Mass.), chairman of the Senate Foreign Relations Committee and author of the reservations, are condemned in bitter language.

The document is intensely partisan. Nothing is said about the Democratic Senators who voted for the reservations which Mr. Wilson declined to accept. "Thank you for sending me the copy of the platform recently adopted by the Democrats of Virginia," President Wilson wrote to Senator Glass. "Aside from the purely personal references, which of course I deeply appreciate, let me say to you, my dear Senator, that the sentiments expressed in this notable document are in full accord with my own views, especially the statements which set forth the attitude of the party on the League of Nations and the pressing problems of peace, finance and reconstruction. These are the clear cut, unequivocal principles of patriotic men who know how to serve their country and mankind. Surely this platform recites a record of achievement in which all Americans have a just cause for pride and congratulation." In order to obtain such a sweeping indorsement of the League of Nations covenant, without reservations, as that

contained in the Virginia platform, Mr. Wilson will have a considerable fight on his hands. While nobody doubts that the League will be indorsed in some fashion by the Democratic National Convention, there is a considerable element among the Democrats which believes that it is bad policy to make the pronouncement too sweeping. These Democrats are of the opinion that there are other issues which are much more vital to the American people than the League and that the Democratic party by drawing too close a line on that question merely would be courting disaster.

PRESBYTERIANS FOR LEAGUE OF NATIONS

General Assembly Urges Ratification of Peace Treaty.

PHILADELPHIA, May 28.—The United States was urged to ratify the peace treaty and join the League of Nations in two resolutions adopted by the General Assembly of the Presbyterian Church in the United States at its closing session here to-day. One resolution, sponsored by Dr. James Wallace of McAllester College, St. Paul, was protested by a number of the commissioners on the ground that it provoked partisan politics and that the denomination was violating its constitution in acting upon a political issue. After placing the Assembly on record as regretting the "long and dreary debate which has subjected the American people to the most humiliating criticism in their history," the resolution said the refusal of the United States to ratify the treaty was "an astounding fiasco and has made this country the laughing stock of the world."

The other resolution was that of the Rev. Stanley White, secretary of the Board of Foreign Missions, and urged upon Congress immediate affirmative action to enable America to enter the League of Nations with or without the reservations. It was adopted with an amendment which stated: "Reservations to which no righteous man could find objections." This resolution also urges American financial aid to Armenia.

SENATORS READY TO REPORT ON MEXICO

Villa Again Levies Tribute on American Mines.

WASHINGTON, May 28.—The Senate sub-committee which has been investigating conditions in Mexico for six months to-day notified Chairman Lodge (Mass.) of the Foreign Relations Committee that it was ready to report. It is understood the sub-committee among other recommendations will urge extreme caution in according full diplomatic recognition to the revolutionary Government, and will insist upon a thorough understanding by the two Governments of the obligations Mexico must assume if either the moral or material support of the United States is to be given. Reports to the State Department indicated that Villa was resorting to his old tactics of financing his forces by levies on American properties, the latest being that of a demand for \$50,000 on the Alvarado Mining Company at Parral on threat to destroy the properties.

House Adopts Army Bill Report. WASHINGTON, May 28.—By a vote of 224 to 108 the House late to-day adopted the conference report on the army reorganization bill authorizing the maintenance of a peace time army of 297,500 officers and men. The report is yet to be approved by the Senate.

GONZALEZ QUILTS MEXICAN POLITICS

Revolutionary Leader Transfers Command of Troops to Gen. Villareal.

OBREGON SEEKS AMITY

Hopes to See Soldiers at All Frontiers Withdrawn, He Declares.

MEXICO CITY, May 28.—Gen. Pablo Gonzalez to-day confirmed the reports that he was about to retire to private life at Monterey, making public a statement to this effect. Coincident with his announcement Gen. Gonzalez transferred command of the troops under him to Gen. Antonio L. Villareal. Hoping to-day to a message of felicitation to himself and those associated with him in the new regime in Mexico, Gen. Alvaro Obregon expressed his thanks to the senators and declared that if he should be elected to the Presidency he would seek to bring about amicable relations between Mexico and all other countries, "especially those next to us on the American continent."

"One of my greatest days," added Gen. Obregon, "would be that on which the soldiers which are stationed to guard all frontiers leading to our country are withdrawn." Gen. Rodolfo Herrera, who has been accused of participating in the alleged assassination of President Carranza, in a message to Gen. P. Elias Calles, Minister of War, repeated his previous assertion that Carranza committed suicide when he saw himself in danger of capture by a force of eighty men under Herrera. In his message Herrera said he attacked Carranza's escort "solely for patriotic reasons."

By the Associated Press. VERA CRUZ, May 28.—Felipe Diaz, who was reported yesterday to have assumed an attitude hostile toward the Huerta regime in Mexico, has, in fact, notified the authorities that he is friendly to the Government.

JUAREZ, Mexico, May 28.—Mexican de facto troops clashed with a rear guard protecting the escape of Francisco Villa at Valle de Allende, Chihuahua, according to a message received to-day from Gen. J. Gonzalo Escobar, and the bandit leader escaped to the hills. Villa was said to be attempting to make his way into Durango, where he has a number of additional forces, and the Government troops are attempting to intercept him before he reaches the State line.

2 EX-OFFICE BOYS HEAD MEXICAN ARMY

New York Man Tells of Gonzales and Obregon.

Before Senors Gonzalez and Obregon got to be Mexican generals they were office boys to George Nordenhold, now of New York and once of Mexico. This at least was the testimony under oath that Mr. Nordenhold gave yesterday

to the astonishment of the Fourth Municipal Court audience in Jamaica. He appeared in court to defend a suit for \$750 brought by Dr. Walter H. Kerby of Woodhaven. And the suit involved still another Mexican celebrity, General Terrera. Dr. Kerby alleged that he was called to attend Julio Lagutte, an 18-year-old Mexican youth, who is a grandson of that commander. Julio was despatched to America to learn something about agriculture, the physician asserted, and while here Mr. Nordenhold was his legal guardian. Even so Julio, it appears, fell off a bicycle and more or less damaged his face, which accounts for the bill of \$750, though Mr. Nordenhold thought otherwise.

Mr. Nordenhold made it clear that he was able to pay the bill as far as mere money goes. "Why," said he, "Julio's father owns an estate in Mexico so large that it takes a train twelve hours to pass through it." "How fast do Mexican trains travel, might I ask?" inquired Justice Edgar F. Hasleton.

But Mr. Nordenhold went on to establish his Mexican identity, so to speak, by talking about Gonzalez and Obregon. The former was a messenger boy, the latter a clerk in the office that Mr. Nordenhold used to have in the days when revolutions were more of a novelty. "It is a fact," said Mr. Nordenhold.

Justice Hasleton awarded Dr. Kerby \$802.40, nevertheless.

LAMB IN WHITE HOUSE

One of President's Flock Makes Call at Office.

WASHINGTON, May 28.—A blooded Shropshire lamb, one of President Wilson's flock of sheep, slipped into the White House Executive offices to-day and made an unannounced call on the clerks there.

He finally was ejected, but he had not had his fill of human companionship and took up a station immediately in front of the entrance to the offices, keeping the White House policemen busy conveying co'ers.

Almost every man can be intense if he chooses so to be—but few men are extensive in influence or power, for the reason that they expect somehow to get there by accident, good luck or good looks, wealth or birthright. It was not setting type in a printing office that made Benjamin Franklin the Envoy to foreign Courts; it was his studies and his thinking that made him the first American citizen of his time. It was not Edison's parents who endowed him with lands and place, power and medals, but the struggle of every brain-force in his head, through want, hunger, weariness to the daylight and glory he now enjoys. General Pershing got his place of honor by being in the saddle day and night for years. [Signed] John Wanamaker May 29, 1920.
