

ITALY NOW SEEKING ALBANIAN PEACE

Sends Envoy on Mission to Negotiate Settlement with Insurgents.

SOCIALISTIC ULTIMATUM

Premier Favors Independence, but Says Country Is Becoming Anarchistic.

ROME, June 28.—Baron Allotti, former counselor of the Italian Embassy in Paris, has left Rome with a mission for Albania in an endeavor to negotiate a settlement of the trouble with the Albanian insurgents.

At a meeting to-day of the Parliamentary Socialists it was decided to oppose the budget and obstruct the proceedings in the Chamber unless the Government promises immediately to withdraw all the Italian troops in Albania and not to punish soldiers or civilians who participated in the recent outbreak in Ancona and elsewhere.

During a debate on the Albanian situation in the Chamber of Deputies yesterday Socialists demanded the withdrawal of Italian troops. Premier Giolitti in reply said the Government was not sending troops to Albania, and reminded the Chamber that when he was last Premier he had urged that Albania ought to be completely independent and had done his best to secure the formation of a stable Government.

"Albania was capable at that time of maintaining its independence," he asserted, "but the situation there has changed, and conditions have become anarchistic."

Quiet has been restored in the centre of Ancona, the anarchists who have been creating serious disorders there retiring to the suburbs. The central part of the city was cleared of a detachment of carabinieri, protected by artillery, marched through the quarter, where the anarchist forces had been in possession and established touch with the troops which previously had been gathered at the railroad station.

One hundred and ninety-three persons were placed under arrest by the troops, reinforcements for which were still arriving to-day. Salmoneo Schneider, chief of the communist-anarchist party, died in a hospital as a result of wounds received in the previous fighting.

The outbreaks in widely separated parts of Italy corroborate the impression that they were part of a deep scheme to overturn social order throughout the entire country. Unemployment was the alleged reason for the strikes and for the rioting.

At Cadore, Venetia, red flags were hoisted above the municipal buildings. Telegraph lines were cut and roads blocked with trees at Lozzo, Callaso and Domogio.

Discontent which had long been held under restraint at Piombino burst out violently, and soldiers and police were attacked with revolvers and hand grenades, and replied with machine gun fire. Many on each side were killed and wounded.

Socialists and Populists clashed at Tezzano. Police forces intervened, and in the fighting one policeman was killed. Barracks were attacked at Pisa, but the assailants were repulsed. The rioters built barricades in the streets and pillaged liquor and clothing stores until order was restored by reinforcements to the garrisons. Two of the rioters were killed.

GREEKS SPREAD OUT FROM SMYRNA BASE

Occupy Line 100 Miles Away; Others at Panderma.

SMYRNA, Asia Minor, June 28.—The Greek forces engaged in the offensive from the Smyrna district against the Nationalist troops of Mustafa Kemal Pasha are occupying a curving line on a radius of about 100 miles from Smyrna proper, according to to-day's official communique from Greek army headquarters, while behind this front strong parties are clearing the territory. The statement says:

"Our advance guards are occupying a line running north of Roma and Guelesin (ninety-five miles northwest of Smyrna), east of Akhisar and west of Mermerch and Adala, to the east of Philadelphia (100 miles east of Smyrna), Ideli, Gallan and Buladan (110 miles southeast of Smyrna)."

"Strong detachments are mopping up the occupied territory. The population of Turkey in the region recently occupied express joy and relief at being delivered from Mustafa Kemal's tyranny."

An official communication issued at Greek army headquarters to-day, says:

"The very heavy enemy losses at Alashehr (Ancient Philadelphia) on June 25 have been confirmed. More than 2,000 dead were counted in the Gedifical Valley of Hermos. A large number of the prisoners taken had sabre wounds. Our cavalry pursued the enemy into the Gedifical Valley."

"A large part of the inhabitants who fled into the interior, are returning to Akhisar and Philadelphia and asking the protection of the Greek army."

"In the interior Christians and Muslims, without distinction, have been robbed by bands of followers of Mustafa Kemal Pasha."

LONDON, June 28.—The Greeks have landed a force at Panderma, on the south coast of the Sea of Marmora, according to a despatch to the Evening News to-day from Constantinople. This force is intended to operate southward against the Nationalist forces of Mustafa Kemal Pasha northeast of Smyrna.

Panderma is fifty-five miles northwest of Bursa, the ancient Turkish capital. The Greek force, which landed there by pushing south or southeastward, will probably effect a junction with the strong Greek forces which are making their way northeast from Smyrna, as told in the despatch from Smyrna, thus throwing a line completely across this section of Asia Minor from the Smyrna region to the Sea of Marmora.

SINN FEINERS PLAN AGAINST RAIL TIEUP

Have Arranged to Seize Motor Cars if Food Shortage Becomes Acute.

REFUSE TO RUN TRAINS

Bantry Bay Ship Men Quit When Police Board Steamer—Dublin Fears Famine.

DUBLIN, June 28.—The Sinn Feiners are preparing for a possible stoppage of all railway traffic and arranging to commandeer motor cars, organize a food transport system and institute regular food control. The Government already has taken similar steps. Up to the present the trains are running regularly, except when police, soldiers or munitioners are known to be aboard.

At a meeting of the Corporation of Dublin to-day the labor action, who had the general approval of the other members, said the railway men would remain steadfast in refusing to operate trains carrying munitions or soldiers.

The Corporation passed a resolution creating committees in certain areas to meet the famine threatened by the stoppage of the railways. Alderman MacDonagh said Dublin was rapidly approaching a state of siege and that machinery must be created to meet the crisis.

Refusal of the trainmen to work trains carrying soldiers and police has been followed by similar action by the officers of the Bantry Bay steamer Lady Elsie. When the vessel was ready to start from Bantry wharf for Castletown Berehaven twelve armed police came aboard and refused to leave, whereupon the officers declined to man her. She is now at the pier with the police aboard.

FREMONT, County Cork, Ireland, June 28.—Damage amounting to hundreds of pounds was caused by rioters and window smashers here last night. The inhabitants attribute the demonstration to soldiers who left their barracks on hearing of the kidnapping of Brig-Gen. Lucas on Saturday night. Attempts to burn houses were frustrated.

LIMERICK, Ireland, June 28.—The railway hotel here was attacked early this morning by unknown persons. Two bombs were thrown, but there were no casualties.

BRITAIN CAN'T YIELD, SAYS LLOYD GEORGE

Expects Sinn Fein to Realize America Won't Aid.

LONDON, June 28.—With a view to forcing the Government to disclose its complete financial proposals for Ireland, the opposition leaders in the House of Commons to-day moved amendments seeking postponement of the clause in the home rule bill repealing the 1914 act. The amendments, however, were rejected.

Premier Lloyd George, taking part in the debate, was again conciliatory toward Ireland, but insisted that nobody

now would be satisfied with the 1914 act and that it was impossible to grant the demands of the Irish extremists.

He was convinced that things would improve in Ireland when the genius and common sense of her people realized that the British people would never consent to the extreme demands of the Sinn Feiners and that America would not support the demand for an independent Ireland.

ALFONSO 'LINK' FOR LABOR AND CAPITAL

So Calls Himself in Appeal to Employers.

By the Associated Press.

BARCELONA, June 28.—King Alfonso made two speeches here to-day, addressing first the workers and then the employers. Speaking to the workmen the King said: "We are passing through a crisis of world wide changes of value which must occur as inevitably as the law of gravitation. United, you workmen and I, your King, we must all work for the good of our country."

Addressing the employers the King said: "I am acting as a link in the union between labor and capital. An ideal is difficult to attain by other means, but I ask myself why should not Spain be the first nation to reach that ideal?"

P. P. C. Printing Facts

The old-fashioned type-case consisted of two shallow boxes, subdivided into many divisions, each of which contained a different character. One case was set above the other. The upper case held the ROMAN letters, or CAPS, as well as the SMALL CAPS; the lower case housed the small letters. From the arrangement of his case the printer called the small letters "lower case."

Like the Hungry Squirrels in Winter

coming out of their hiding places to obtain relief, so are some of the over-loaded manufacturers of the east coming to the front just now with lovely articles of various kinds that they are unable to hold on to any longer.

Evidently they were priced too high at the beginning and remained unsold because too highly priced.

They are now appearing as though enormously reduced.

In women's dresses, coats and waists we have renewed almost all our assortments three or four times in the last two months.

It is such a pleasure to do business in our old-fashioned regular way with nothing over-priced at the beginning and no re-markings on the tickets.

Do not buy anything this week that you can do without.

Attractive striped satins

Rubberized messalines

Silk mohairs, developed in smart colors

There are midnight blue coats, striped with matching satin, with the rubberized lining in gray invisibly striped or plaided—blue and tan stripes—blue and dark purple—and tan and brown. Many of these have plaided linings, contrasting smartly. Fastened with an excellent quality of smoked pearl buttons.

There are changeable rubberized silk coats in combinations such as blue and purple and blue and green, and many others. Also in solid colors in midnight blue and tan and brown. A few finely cross-barred with invisible plaids in self color.

All of these coats feature the newest in belts and pockets and adjustable collars. The workmanship is painstaking and fine. They are the sorts of coats that one may take to the country, to the mountains or seashore, or carry with one when traveling or on motor trips.

Two of the coats are illustrated.

Another special group of 70 Raincoats \$18.50—less 20 per cent.—pay \$14.80

One is illustrated—at the right of the picture. These are well tailored raincoats in Canton cloth and other cotton and wool mixtures, rubberized. In gray and tan and brown; and in the wool mixture, dark red and green and brown.

475 Men's Suits

Cancelled! And the price goes Down to \$55

Less 20 per cent.—Pay \$44

You can take up the newspaper almost any day now and, turning to the trade news, find a complaint from manufacturers about cancelled orders.

Freight embargoes, uncertain market conditions and the incessant demand for lower prices are largely responsible; and one of the results is right here before you—a sale of men's high grade suits, the same in grade that we have had in regular stock at \$65, \$75 and more.

We know this manufacturer well; he makes clothing for our Burlington Arcade Store season after season; and whenever he says: "I've some good suits to close out," we know what it means. Most of the suits are worsteds; sturdy hard-finished worsteds; and the patterns are business men's patterns—plain grays; blue pencil stripes; rich browns; small checks; a good assortment of fashion.
