

GUYTON SAYS G. O. P.

WILL NAME SLATE

Calder and Hugo Will Lead Fight Against Nominating State Candidates.

LEADERS AT SARATOGA

Odell Sees Lively Fight Brewing—Hughes Won't Talk About It.

By a Staff Correspondent of THE SUN AND NEW YORK HERALD.

SARATOGA, July 24.—Republican leaders, gathered here for the unofficial State convention which opens Tuesday, are battling over the question of whether to "recommend" a candidate for Governor for the primaries to act upon.

Odell Sees Lively Fight Brewing—Hughes Won't Talk About It.

Francis M. Hugo, Secretary of State, opposes it. Nathan L. Miller, former Associate Judge of the Court of Appeals, favors it. The former's cohorts say the cards are stacked for Miller.

The latter's supporters say that Miller would not enter the primaries unless recommended.

Hugo feels confident of capturing the primaries unless the convention throws its favor to some other man. Hence he prefers to avoid the hazards of "recommending" a candidate.

George A. Glynn, chairman of the State committee, and Representative Bertrand H. Snell, chairman of the executive committee, say there is no doubt that the convention will recommend a slate.

And, in the absence of any other vote to the contrary, it will bear the name of United States Senator James W. Wadsworth, Jr.

Some leaders think that to name Wadsworth would betray a doubt of his popularity. Others think it would be safe strategy.

Every convention has its dark horses, and for the governorship the names of Jesse S. Phillips of Steuben, Judge Frederick E. Crane of Kings, now on the Court of Appeals, and Representative Snell are mentioned most often. Then there are any number of candidates who would be in the "favorite son" class if the boundaries of this political field were not limited to New York.

As for the place of State Comptroller, Senator Charles C. Lockwood of Brooklyn is the choice of Senator William M. Calder, who opposes the plan to recommend "Jacob A. Chase" as comptroller.

Senator Alvan H. Burlingame, here again Lockwood's popularity in the primaries is feared, and Burlingame's chance to win is recommended.

Jacob Brenner, Kings county leader, perceives a fine chance for more dark horse material, though he names no one as yet. He says he does not deny, however, that he is taking soundings on a compromise candidate. Brooklyn is determined to have the Comptrollership if it can be won, however, for the office carries patronage second only to the Governorship.

John J. Lyons of New York and Thomas W. Whittle of the Bronx have even chances for being recommended for Secretary of State. Charles D. Newton, Attorney-General, and Frank M. Williams, State Engineer, will hold their own without much contest, according to preliminary indications.

BAR HARBOR EXPRESS

SLEEPERS DERAILED

Five Cars Leave Track; No One Seriously Hurt.

DANVILLE, Conn., July 24.—The Bar Harbor express, west bound, split on a switch as it passed through the yards of the New Haven road, 100 feet south of this station early today. The locomotive, baggage and buffet cars went over the switch without accident, but the first passenger car struck the switch points, stopped dead, and derailed, with the four sleepers behind it, while the coupling pin pulled out and the engine went on.

Miss L. H. Renshaw of Noroton, Conn., was thrown from an upper berth, but was hurt only to the extent of bruises from the fall. N. S. Johnson, a flagman, was knocked to the ground as one of the sleepers turned part way over, but he continued on duty. None of the sleepers were entirely over.

The engine stopped at once after the train parted and backed to the accident. The officials said the train carried but few passengers, most of the traffic at this season being toward, rather than away from, the Maine resort.

The division was blocked for several hours because of the train wreckage.

POLICEMAN RUNDOWN BY LAUNDRY WAGON

Edward Cody Badly Injured. Driver Tries to Escape.

Edward Cody, a mounted policeman, was tightening his saddle in front of 51 West 12th street, yesterday afternoon when a horse drawn wagon of the American Laundry Company rode him down. Cody was knocked to the street, cut by the wheel rim and the horse's hoofs, and was taken to New York Hospital with internal injuries.

Samuel Rosenblatt of 271 Stockton street, Brooklyn, was driving the wagon, he said he was trying to pass a truck and did not see the policeman standing beside his mount. When Rosenblatt saw that had happened he whipped up, according to police witnesses, and tried to escape.

Patrolman James Galvin, hearing cries of bystanders who saw Cody prostrate in the street, made a quick run and got aboard the wagon. He took Rosenblatt back to the scene of the accident, and after Cody had been sent to the hospital took the driver to the West Twentieth street police station. Cody is 33 years old and lives at Bayville, L. I. Rosenblatt was held on a charge of felonious assault.

Every convention has its dark horses, and for the governorship the names of Jesse S. Phillips of Steuben, Judge Frederick E. Crane of Kings, now on the Court of Appeals, and Representative Snell are mentioned most often. SUFFS NOW SEEING

HARDING AS FRIEND

Leaders Realize He Is Doing All Possible to Win the Final State.

PRAISED BY ALICE PAUL

Nominee's Action in Tennessee Brings About Changed Opinion.

Special to THE SUN AND NEW YORK HERALD.

WASHINGTON, July 24.—Militant suffragists today began to hedge on some of their recent sharp remarks about Senator Harding and the rest of the Republican party. Apparently the suffrage leaders have come to realize that Senator Harding is doing as much as any other man in the country for the suffrage cause despite his refusal to attempt to dictate to various Governors how they should run affairs in their States.

Miss Alice Paul, chairman of the National Woman's party, returned to Washington from Ohio to-day after having spent both Senator Harding and Gov. Cox, his Democratic Presidential opponent. Miss Paul had complimentary things to say about Senator Harding, which showed a sharp contrast to her utterances when she left here. The reason for Miss Paul's changed attitude is simply shown in the following statement:

"One-fourth of the Tennessee House is Republican. We have asked the Republican party for a solid vote. This is very easy for them, and they have an opportunity to come out with flying colors without having to get Vermont or Connecticut to ratify."

Miss Paul also commended to say that "Senator Harding is progressing in the suffrage cause." It was shown plainly that without the votes of the Republican members in the Tennessee Legislature the suffragists have but faint chance of their amendment being ratified in that State, which they hope will be the thirty-sixth to ratify. With the Republican vote they have an excellent chance. In this situation the women here are wondering how, after all, the Democratic party is going to claim the credit for securing the thirty-sixth ratification. Senator Harding has already asked the Tennessee Republicans to vote for ratification, and Jesse Little, Republican candidate for Governor of Tennessee, is supporting the amendment.

Without the Republican vote in Tennessee the suffragists will have to turn to another Democratic State, North Carolina, where the Legislature meets early in August. Apparently they have not much hope of securing ratification there.

Miss Paul also announced to-day that immediately after Tennessee ratifies a resolution of the National Woman's party will be called, at which the future course of the organization will be decided. The party may either disband or decide to continue with new aims and objectives. The latter course being the one generally favored.

If the party is continued it will take up a programme of legislation for the benefit of women and children and the betterment of schools.

The United States Army Air Service will participate in the national rifle meet at Camp Perry, Ohio, in August. This participation will provide the world's first competitive aerial shooting match and promises to be the most spectacular and unique event of its kind ever held.

The entry of the Army Air Service into this national event will demonstrate the value of the air service in national defense and also will prove instructive to those who are privileged to view the ground and air exhibits.

The ground exhibit will be extensive and will comprise aerial photography, including a photographic map of the reservation, of which souvenir copies will be distributed; aircraft guns, aerial bombs, anti-aircraft guns and all different types of airplanes "on the line." These airplanes will be fully equipped with regulation equipment and will be marked with placards indicating the type of plane, its mission, its armament, its speed performance and so forth.

One plane will be equipped with eight machine guns, and its kind, so equipped in the world, and is a veritable flying arsenal. Future wars will be decided in the air or by the perfection and superiority of aerial equipment. The synchronizing of machine guns to be fired out through the revolving propeller of an airplane in flight and also the sights that are used in connection with these guns and those that are used in accurately dropping huge bombs from the air. Bombs weighing as much as 1,100 pounds, or over half a ton, filled with TNT, can be dropped from great heights and deadly precision by the use of sights now being perfected.

Among the great exhibits will be the automatic cannon. This will be mounted on the top of a well known airplane, where its objects, will be demonstrated. This cannon is one of the most remarkable achievements of aircraft armament and is capable of firing 120 one pound shells per minute.

The aerial exhibit will be the most thrilling to most of those in attendance at the national rifle match, and it will include aerial acrobatics, competitive flying, closed course air races, wireless control of airplane, ground gunnery both from the ground and from the air. A specially equipped German Fokker D-7 airplane will be used in some of the spectacular demonstrations. This plane was captured by the Army Air Service during the world war.

The aerial shooting contest is the biggest feature of course. In this event firing at targets from rocking air-crafts on the ground will be of extreme interest, for it permits close inspection by the spectators. The actual firing from planes in the air will be directed against moving targets, which will be in the air. A strict count and judging of these events will be arranged. There will be no deduction practice against towed targets. As a result, the contest will be a veritable moving target. A strict count and judging of these events will be arranged. There will be no deduction practice against towed targets. As a result, the contest will be a veritable moving target.

This event and the Army Air Service participation will be a history-making period in the case of both organizations and the success that is assured points to the value of "stretching a point" to attend.

Reserve Officers to Get Ships. Twelve hundred officers of the naval reserve by temporary appointment are to be admitted to the rank of naval line officers, according to the provisions of the Congressional act of June 4. The promotions will be made by examination, the terms of which will be announced shortly. Ship officers will be selected to make way for the newcomers. The selections, according to the statement by the navy recruiting bureau, will be difficult, and will be followed only after the most careful consideration of the qualifications of the candidates.

"Tom" Watson Out for Senate. ATLANTA, July 24.—Thomas E. Watson to-day entered his name as a candidate for the United States Senate in the Democratic primary. Mr. Watson is seeking the place now held by Senator Hoke Smith, who has not formally announced his candidacy.

Special to THE SUN AND NEW YORK HERALD.

OMAHA, July 24.—How can William J. Bryan pretend to be a Democrat if he is considering abandoning the cardinal Democratic doctrine of majority rule? asks the Omaha World-Herald in an editorial commenting on Bryan's statement that he had not decided for whom he would vote this year.

"Mr. Bryan," the paper says, "is a Democrat. His good faith is challenged by his own acts. He sat in the convention and cast his vote from beginning to end for a candidate, Sen. Nelson, who had no chance of nomination. Why should not Mr. Bryan show the courage of his convictions and make some personal sacrifice to support it? Why continue to claim membership in the Democratic party while exerting his influence to defeat its candidate?"

If Mr. Bryan wishes to serve his country as a member of the Democratic party he had better decide to be a member of the Democratic party and to act like one.

"Tom" Watson Out for Senate.
