

Mexican Items. [From the American Star of April 20.] The Monitor of yesterday, 823 preparations are making at the seat of government for the reception of the American commissioners. It supposes that the treaty is to be concluded in the latter part of the month of May, and that it will be possible to have it ratified here and forwarded to Washington by the 24th of June. The treaty is to be signed by the commissioners on the 24th of June, and it is to be ratified by Congress in its session to act upon what they have to submit to it. We do not hear of any increase of the members in attendance.

FROM THE INTERIOR. We received by the last mail, a number of papers from the most important points in the interior. We find but little in them relative to the treaty. Indeed, the editors seem unwilling to touch upon the subject. El Progreso, at Queretaro, the organ of the revolutionary government, is violently opposed to the treaty. We find nothing, however, either in that paper or in Los Debates, the ministerial organ, in confirmation of the rumor that a proclamation had been issued by the President, authorizing the signing of the treaty.

El Progreso says Ocampo, Governor of Miltocha, has resigned his place because opposed recognizing the treaty of peace. The Americans hold military occupation of the country. Adams, the late Governor of San Luis, has been released from prison, and sent with a competent escort to Mexico. He made his escape from the Government, arguing the state of his health and condition of his family as a reason. The Progreso concludes that the English will not be secured to them by the treaty, and that they will be obliged to fight with the enemy in the complete. Señor Adams, for a friend to the war, is confined by order of the government of this country. Señor Tristram, a member of the same party, is at the disposal of the government. What will the world say of this?

El Porvenir, at Toluca, has an article on the subject of the assembling of Congress. It says the 15th day of April is that upon which the Congress of the United States closed its ordinary session, according to the 7th article of the constitution. If the government has succeeded within the few next days in getting the members together, they could, by a motion made to that effect, or by a petition to the President under the 27th article of the constitution, be called together. The quorum should not be in attendance, the editor says Congress cannot be constitutionally convened. The Porvenir then remarks upon the culpable resignation of the members of the United States of their country, and attending to the discharge of their duties. He exclaims: "Heaven have compassion upon us!"

CINCUENARIA. The Official Register of Durango has an official communication from Munoz, the commanding General, dated the 27th of March, in which he informs that after a siege of eight days, the Villa de Rosales was taken by assault, and Governor Trias taken prisoner. He says that he has succeeded in getting the members together, they could, by a motion made to that effect, or by a petition to the President under the 27th article of the constitution, be called together. The quorum should not be in attendance, the editor says Congress cannot be constitutionally convened. The American Star of April 19th, says—Col. Withers, Maj. Lilly, Capt. Bodfish, and Sprague, of the 9th, arrived in the city on Sunday, from Pachuca, where they had been engaged in the service of the troops at that post. We have a letter from an officer at Pachuca, giving an account of a recent pleasure excursion in the vicinity, for which we hope to find room.

QUAKE. We have heard from several gentlemen that there was quite an earthquake on Sunday evening, at about 10 o'clock. It is said to have been a vibration among the chandeliers of the city, though it did not extend to the perpendicular rather than to the horizontal class of these subterranean visitors. We felt nothing of it ourselves, and conclude it was "no great shakes" after all.

PARADES. The American Star of April 16th, says—Parades at our last San Luis. He says that the Governor of San Luis is sincere in disclaiming all idea of co-operation with Paredes. There is but a few friends and partisans in the city, but beyond it we find many more. The Governor has always been of opinion that the decision of the sovereign Congress, in regard to the question of secession, should be most scrupulously respected, as well as public order, and tranquillity observed. He assumes a position which gives no room for supposing that his appointment is a mere pretext for a display of force.

ORATORICAL POPULARITY. The American flag has been unfurled to the breeze on the highest pinnacle of the North American continent, and the glory of our stripes and stars waved in triumphant folds over the eternal snows of the high mountain. Six of the party which was reported a few days since having failed to ascend Popocatepetl, returned in camp two or three days ago, and a successful effort, to await a more favorable day for the enterprise; they were soon gratified, and again made the ascent. The party which was reported to have arrived at the highest peak, overlooking the great crater, without accident. Here the flag of the United States was raised at an elevation of more than three thousand feet above the level of the sea. The party enjoyed a prospect unsurpassed in magnificence and sublimity. The six persons composing the party were: General, Ordinance; Lieut. Brainerd; Lieut. Kirkham; 6th Infantry; Lieut. Anderson; Dragoon; Lieut. Bond, 8th Infantry; and Mr. Bagley, an English gentleman of this city. This has the honor of being the first time that the flag of the United States has been hoisted on the highest point of the land of the Aztecs.

FROM THE INTERIOR. We have heard confidently rumored that the North American flag has been hoisted on the highest point of the land of the Aztecs. The party enjoyed a prospect unsurpassed in magnificence and sublimity. The six persons composing the party were: General, Ordinance; Lieut. Brainerd; Lieut. Kirkham; 6th Infantry; Lieut.
