Volume XX, No. 74. AMUSEMENTS THIS EVENING.

ACADEMY OF MUSIC, FORTIETH STREET—LUCKY STAR. BROADWAY THEATRE, BROADWAY—LOVE'S SECRETIVE.

NEW YORK, Friday, March 16, 1855.

The News.

By the arrival of the Africa at Halifax we have received four days later intelligence from Europe.

Lord John Russell had arrived at Berlin on his way to Vienna. All the other members of the conference were already assembled in the latter city.

There is no further confirmation of the report of the French Emperor's intention to visit the Crimea.

From the Crimea we have further details of the battle at Eupatoria on the 17th of February.

The news from China by this arrival is also important. The insurgents and the imperial forces had several severe engagements on the Canton river.

The news by the Africa yesterday, announcing the death of the Czar, took business men by surprise.

Our latest private advices from New Granada, inform us of various facts which may prove interesting to our readers.

General Mosquera is among the candidates for the next Presidency, and it is said that doubtless he will be chosen, not only from the glory acquired by him during his last campaign.

Indeed the only thing which seems clear in the whole affair is that, for the present, peace must result from this unforeseen accident.

But whether he died by the hand of man or the hand of God, it matters little. He is dead, and according to Russian precedent, his plans and his policy have died with him.

And thus the work will go on. Henceforth the new American party will proceed State by State, to work for itself, and its own tickets.

It is a singular instance of the inconsistency of these journals that they denounce the New York press for publishing the accounts of this affair—the graphic accounts of the scenes which transpired—the descriptions of the actors in the terrible tragedy—while they themselves give long accounts, day after day, of the same scenes, the same details, the same characters and the same incidents.

Will peace help the Western governments? We think not. It may free them from the dangers of foreign war, but it will not settle their domestic troubles.

The Board of Managers of the American Baptist Union resumed its sittings yesterday. A long and exciting discussion took place in reference to the missionary enterprise in Burnah, during which some curious disclosures were made in relation to the characters of certain well-known missionaries.

There is no further confirmation of the report of the French Emperor's intention to visit the Crimea. At the last accounts he was at the camp of Simons.

From the Crimea we have further details of the battle at Eupatoria on the 17th of February. The Russian force under General Osten Sacken amounted to 25,000 men, and the conflict lasted from a quarter past five until ten P. M.

The news from China by this arrival is also important. The insurgents and the imperial forces had several severe engagements on the Canton river, and the foreign shipping has suffered some slight damage.

The news by the Africa yesterday, announcing the death of the Czar, took business men by surprise. The report was sudden and unlooked for, and failed to gain general credence.

Our latest private advices from New Granada, inform us of various facts which may prove interesting to our readers. President Obando had been imprisoned in the Military College, at Bogota.

and prosperous peace, and that a new era of moral progress and true civilization has commenced in that country.

A full report of yesterday's amusements and festivities, viatorical, intellectual, gastronomic and bibulous, of the members of the Legislature, the Ten Governors and their invited guests, is given in today's paper, the most important feature of which, perhaps, is the speech of Mr. George Law, the "live oak" K. N. Presidential aspirant.

The Board of Aldermen last evening appointed a committee to ascertain of the Chief of Police why he has not responded to the call for information relative to the nationality of the members of the police force, &c.

Gov. Clark has published a letter reaffirming his previously expressed opinions favorable to the enactment of a coercive liquor law, containing the search, seizure and destructive clauses.

A numerous attended meeting of booksellers and publishers was held yesterday afternoon, for the expression of sympathy with the family and business partners of the late Mr. James Brown, of the eminent house of Lown, Little & Co., of Boston.

The steamer Canada will leave Boston for Liverpool at nine o'clock to-morrow morning. The Board of Managers of the American Baptist Union resumed its sittings yesterday.

Lord John Russell had arrived at Berlin on his way to Vienna. All the other members of the conference were already assembled in the latter city.

There is no further confirmation of the report of the French Emperor's intention to visit the Crimea. At the last accounts he was at the camp of Simons.

General Mosquera is among the candidates for the next Presidency, and it is said that doubtless he will be chosen, not only from the glory acquired by him during his last campaign, but also from the proofs given by him of his ability for this high office during his former administration.

Indeed the only thing which seems clear in the whole affair is that, for the present, peace must result from this unforeseen accident.

ander rejected Paul's; Nicholas would have nothing to do with Alexander's; and it is not likely, in the ordinary course of things, that Alexander Nicolavich will pursue those of Nicholas.

For England the death of Nicholas is a most fortunate event. It seems indeed quite providential for the British empire. On whatever terms the peace be concluded—whether Sebastopol is dismantled or retained, whether the Greek subjects of the Sultan become subjects of the Czar or not—it is quite clear that England is saved from a peril which to say the least of it, was very formidable.

Will peace help the Western governments? We think not. It may free them from the dangers of foreign war, but it will not settle their domestic troubles.

Will peace help the Western governments? We think not. It may free them from the dangers of foreign war, but it will not settle their domestic troubles.

THE RECENT TRAGEDY.—The country papers in every direction are filled with the particulars of the recent tragedy at Stanwix Hall. Almost every journal that we have seen published out of New York, expresses the deepest indignation at the affair, and the most frightful forebodings for the future, from the excited state of public feeling in the metropolis.
