Utica, and made nomination of Fred. Douglass for Secretary of State, are precisely the same 'kidney' as those who were mobbed in Boston some twenty years ago.

The fact is they must all come to that. There is no hope for the old whigs but in the arms of the abolitionists.

THE NAVAL BOARD.—Complaints are made from various sources against the proceedings of the Naval Board.

Without intending to cast a slur on a class of men who have had no rivals in history, it may safely be said that the opinion of the founders of the republic respecting the drama is not that of the American people to-day.

Prospect of a Dramatic Copyright. If a slight exertion be made, it will be possible this winter, to establish the principle that a dramatic author has a right to the produce of his own brains.

The anomaly can be easily traced to its origin. When the people of this country, acting by their representatives, nearly three quarters of a century ago, secured to inventors and authors patent rights and copyrights in their works...

made to carry this matter through. A petition to which it is hoped that all members of the press, men of letters, managers, actors, and citizens taking an interest in theatrical matters will affix their names, will be laid before Congress at the opening, and some exertion made to achieve a reform which, it seems, ought to have no opponents.

THE SEWARD KNOW SOMETHING FUSION CONVENTION.—On the 31st of July and the 1st of August last there was a fusion convention at Rochester of the new anti-slavery order of Know Somethings, and of the Utica or Seward branch of the Know Nothings of this State.

Now, as the Black Republican Seward Convention, and the Whig Seward Convention, and the Bradford R. Wood Auxiliary Anti-Slavery Convention all meet in Syracuse on the 26th of September, this fusion gathering of nigger-worshipping Seward Know Somethings and Know Nothings at the same place on the 25th, will be a very appropriate overture to the grand programme of fusion of the black republicans, the Seward whigs and Maine law men, and the Bradford R. Wood party.

We presume that the Syracuse bogus Know Nothing Convention of the 25th will simply provide for their share of the nominations of the grand fusion gatherings of the succeeding day; and very likely, if the Utica Know Nothings and Rochester Know Somethings can't get of the Seward whigs, black republicans, and Bradford R. Wood coalitionists all that they ask, they will be content to take what they can get.
