The News.

The politicians were alive with excitement last night at their respective headquarters. The young whigs met at the Broadway House, and as will be seen by our report, had a lively time of it. They voted down a series of resolutions looking towards a fusion with the republicans, and in every way refused to commit themselves to this new fangled party. The County Convention of the soft shelled gey at Tammany Hall, but adjourned in confusion, without being able to effect a nomination, so vociferous and dangerous was the lobby. The half shells held their first primary election last night, and notwithstanding a strong effort on the part of the Custom House people to control the organization, everything passed off quietly, and a convention was elected, understood to be in favor of adopting a county ticket with an equal number of softs and hard hats on it, provided both factions nominated distinct tickets. The liquor dealers also held their primary elections to select delegates to the anti-Maine law Convention that meets at Syracuse on the 10th instant. The German democratic delegates also met and held an inquest on the character of certain would-be Congress and Alms House Governors without coming to any definite conclusion. Full details of the doings of the politicians will be found elsewhere.

There was an immense Know Nothing demonstration at Philadelphia last evening, an account of which, together with an address of the Executive Committee of the American party, we give under the telegraphic head. The address is important, as it contains several admissions and avowals respecting the principles of the American party with regard to interference with the civil and religious rights, and the limits to privileges accorded to foreigners.

We publish this morning a full report of the sayings and doings of the State Temperance Convention held at Utica on Wednesday last, down to the adjournment of that body. The proceedings, it will be seen, were not entirely harmonious. The discussion in relation to the personal habits of the abolition-wild-cat candidate for Attorney General was exciting and spicy, and will repay perusal.

The matter of the people against the half dozen members of the Common Council indicted by the Grand Jury for bribery and corruption, came up yesterday in the Court of Oyer and Terminer, in the shape of applications on behalf of Alderman Drake and Alderman Moser to have their trials fixed for an early day, and of motions to quash in behalf of the other four. As to the first two, the Court declined to interfere in the matter, on the ground that it was altogether in the discretion of the District Attorney to regulate in what order he would have the defendants tried. The order was intimated by Mr. Hall to be—Herrick first, then Healy, Moser, Drake, Cooper and Wendell, in succession. The motion to quash the indictment against Councilman Cooper was granted. It was supported on the affidavit of the defendant, based on information and belief, first, that Mr. Luther C. Carter, former of the Grand Jury which found the indictment, was not at the time a resident of the city and county of New York, but was a resident of Queens county; and second, that in witness was examined by the Grand Jury in the case. This affidavit was supported in part by that of Mr. Peter Palm, the person with whom corruption is charged, to the effect that he was not examined before the Grand Jury; but that the charge was untrue. Judge Roosevelt called for the production of the minutes of the Grand Jury; but it was stated that they were not on file in the office of the District Attorney, and that the affidavit on which the indictment was found was in the hands of the Mayor. The matter was thereupon adjourned till Monday, to give time for the production of the minutes, &c.

An application was made before Judge Ingraham, in the Court of Common Pleas, yesterday, to issue an attachment against George W. Maitell, Chief of Police, for refusing to answer any questions put to him by Alderman Briggs before the Police Investigating Committee. Judge Ingraham stated that on Saturday (yesterday) he would give his opinion on the propriety of issuing the attachment. The Investigating Committee will sit to-day, at 3 o'clock P. M., and endeavor to get what evidence they can from the contentious witnesses.

We refer our readers to an elaborate and well digested opinion of Judge Bosworth on the motion to strike out irrelevant and frivolous matters contained in the answer of Mr. Fry to the complaint of Mr. James Gordon Bennett, for libel written over the defendant's signature in the Tribune. Judge Bosworth's exposition of the law will be of use, not only to the young members of the legal profession, but to older ones who are prone to enter redundant, futile and irrelevant answers to a matter of fact complaint.

Our Washington despatches this morning contain some interesting intelligence. The project of a canal across or through the Isthmus of Darien has been again brought to the attention of the Cabinet by an agent of the Inter-oceanic Ship Canal Company of this city. It is said that the company have tested by actual exploration the practicability of the work, and now ask the government to order a survey of the route recommended. The engineers' estimate of the cost of the proposed canal is \$147,000,000. Messrs. Davis and Dobbin are in favor of the survey, but Mr. Marcy regards it as a very enticing bit of moonshine. Judging by the light of the report of Lieut. Strain, we should say the venerable Secretary of State is not far from correct. Josiah Pierce, of Maine, has been appointed Secretary of Legation to St. Petersburg.

President Roberts, of Liberia, in a letter addressed to a gentleman in this city, dated August 3d, advises that no more emigrants should be forwarded to the colony than what can be comfortably provided for on their arrival. He thinks that population cannot be healthfully increased by huddling of numbers to a destination where they are destitute of all the necessities of social requirements. Intelligent and thrifty people may go if reasonably well provided for, as such have hitherto been very free from disease. Persons of clearly habits only should be chosen by the society, and even these should be furnished with the means of keeping themselves clean. The President thinks that the climate of Liberia is unjustly held to blame for fatal results which ensued hitherto only from want of due caution on the part both of the emigrants and their friends. The country was tranquil, heavy rains had been experienced, and trade was dull.

The steamship George Law, for Aspinwall, and the Star of the West, for San Juan, via Kingston, J. A. left this port yesterday afternoon, crowded with passengers bound to the El Dorado of the Pacific. This is the commencement of the season of emigration to California, and the rates of passage have advanced, since the sailing of the last steamers, full twenty-five dollars for steerage, and fifty dollars

for cabin passengers. At these appreciated rates the demand for tickets exceeds the accommodations of the steamers.

A very important court martial is now in session in this city, for the trial of charges against First Lieut. Haldeman, of the 8th Infantry, stationed at Fort Columbus. The charges are of a rather serious nature, and the testimony voluminous. We give a sketch of the proceedings thus far in another column.

The American Bible Union terminated its anniversary exercises last night, after having had two sessions during the day and one in the evening. We have a full report of the proceedings in type, which is unavoidably crowded out.

The Board of Councilmen last night adopted a resolution increasing the salary of the Chief Engineer of the Fire Department from two to three thousand dollars. An effort was made to defeat the proposition by referring it back to the Committee of the Whole, but it did not succeed.

The sales of cotton yesterday embraced about 1,000 to 1,500 bales, chiefly for export, with small lots to spinners. The market closed steady. All brands of good, common and medium grades of lard, advanced about 12 cents per barrel, and sales were again freely made both to arrive and for export. Wheat was quite firm for parcels of sound in shipping order, which were scarce. Among the sales were 10,000 bushels red Tennessee for future delivery, at 190c. Corn was firm at 86c. a 88c. Pork was steady, with moderate sales. Sugars were dull and sales quite limited. Coffee was also inactive, especially Rio, the stock of which was large. Freight continued firm for breadstuffs to Liverpool and London, and higher rates were asked at the close. A vessel was chartered for Havre to load with flour at \$1, and grain at 25 cents. A vessel was also taken up for Constantinople at \$1 75 per bale for flour; afterwards \$2 was asked, and \$2 25 for provisions.

The League of the Abolitionists at Home and Abroad to Overthrow the Constitution.

It has not escaped the notice of careful observers that great changes are taking place in the conditions of mankind and of governments. Two of the leading powers of Europe have undertaken to control and govern the world. They have sent their armies to crush the Russian Empire in the East, and they have organized a secret union with the abolitionists of this country to break in pieces the colossal republic of the West. In the sacrifice of human life, in the expenditure of treasure, in the means of attracting public attention and diverting the public mind, the contest with Russia far surpasses the silent efforts made to destroy our institutions; but in permanent effects upon the well-being of the human family, in momentous consequences to the race, the success of the Allies here would far transcend their most complete triumphs over the Czar and his forces.

The Destruction of the Russian Navy in the Black Sea because it might be used at some future day to strengthen the empire and ultimately to threaten the supremacy of France and England in the west of Europe, and the overthrow of this government, would complete the triumphs of the two Powers and leave them the easy masters of the world. A year and a half ago it was not deemed probable that the British aristocracy and the French Emperor—for they are the aggressive parties, the true Holy Alliance—would find an actual enemy in Russia. When Lord Clarendon pompously avowed a cordial union between the Cabinets of London and Paris, and signified to this country the intention of the alliance to regulate the political concerns of America, though it was not then counted that Nicholas would be an accomplice, it was not expected that he would be an enemy. What was known to be the weakness of Russia—her insufficient navy in the Black Sea—was relied upon by the Western Powers as a sufficient guarantee that Nicholas would keep the peace. That was the salient point in the Russian outworks, and when the Emperor became intractable, the whole means of the Allies were concentrated upon it, and they have succeeded in destroying it. In the destruction of the Russian Navy, as the English had previously destroyed that of Spain and Holland, with a view of crushing a growing maritime and commercial rival, the Cabinet of London has accomplished all that it desires. Nothing more can be done against Russia that will not positively injure the cause of British industry. What else is really required to satisfy the ambitious cravings of the Emperor of the French, and to fortify the Napoleonic dynasty, time will show. Meanwhile, no matter what may be the termination of the war—no matter how degrading the submission of Russia, nothing has been effected so long as this republic is permitted to exert its corroding influence upon the thrones and sceptres of European monarchy.

The late Foreign Minister, M. Drouyn de L'Huys, said to our Secretary of Legation:—"We (France and England) are in more danger from peace with the United States than from war with Russia." He saw the political and moral influence of this government and people upon the states of Western Europe; he knew that it was possible to destroy the aggressive power of Russia in the Black Sea by a single campaign, and he thus presented the key that will unlock and expose the secret machinations now in force in the combination of the abolitionists of the two continents to overthrow the federal Union. He was right. His system of government rests upon the will of a single man—ours upon the will of the people. His has been for more than seventy years the scene of order, unrivalled thrift, peaceful and successful industry, general education, religious and political tolerance, and the asylum of the oppressed of every country. We have extended our population from three to twenty-five millions—we have tripled our territorial area, for every acre of which we have paid a fair equivalent. Our organic forms are those adopted by the fathers of the republic, not a line or a precept of which has been set aside.

Our system and those of France and England are essential antipodes. They make ceaseless war upon each other by the testimony they respectively bear to mankind of the value of the two principles as found in practical results. We seek the regeneration of France, just as the human mind, becoming enlightened, removes from itself the shackles of ignorance, and of social and political errors. Ours is the Christian word, to be delivered to the unbelieving Jews of monarchial Europe. We secure its promulgation by works in the peaceful vineyards of popular freedom.

Mr. Bennett and His Malicious—The Way Their Feathers Are Clipped When Brought to the Specifications and the Proof.

We publish elsewhere in these columns, at length, the decision of Judge Bosworth, of the Superior Court, on the matters at present in issue between James Gordon Bennett, plaintiff, and Edward P. Fry, defendant. Followed in his suit against Mr. Bennett, Fry, through the columns of the New York Tribune, took the law into his own hands, and freely delivered himself of his feelings concerning the public and private character of the editor and proprietor of this journal. Unhappily, in his philippic the wrath of Fry overleaped the limits not only of Christian philanthropy, modesty and decorum, but even of Fourierite philosophy. A libel suit against him was the consequence; and being required to answer it, he collects a mass of vague and useless rubbish in justification of his bold and unscrupulous charges. The plaintiff's counsel moved to purge the record of this extraneous matter as totally irrelevant, and Judge Bosworth strikes the whole of it out, unless the answer be amended so as to make it, with respect to such matter, more definite and certain. The Court further suggests that the defendant, in answering such a complaint as this of the plaintiff in this case, "must be advised by great professional skill and experience, to be morally certain that his answer sets up a defence to every distinct libellous imputation which the plaintiff, at the trial, may successfully insist is charged by the article complained of."

The meaning of all this is that the voluminous mass of extracts scraped together from newspaper files, running through the editorial career of Mr. Bennett, are good for nothing in support of the malicious allegations uttered by Fry against him; that these extracts are not proofs; that the defendant must therefore go to work again, and rummage through the newspaper files a second time to see if something a little more to the point and the purpose cannot be had there, and be picked up.

and France expect that the year 1856 will bring about the overthrow of the American government. They regard the mine to effect this as already set in the cordial union of the abolition societies of the two continents, by which they hope to secure the triumph of an anti-slavery President in the North, and thus effect the disruption of the federal compact. Vast sums of money have already been forwarded to confidential agents here to influence the American press and people, to assure the election of an abolitionist to the Presidency, which they know is revolution and an utter breakdown to the existing government.

It may be said that the alliance of our abolitionists with the governing classes of Europe is impossible in its nature and impossible in fact. Those who thus argue have a very limited idea of the schemes and expenditures which the rulers in Europe have adopted and made to perpetuate their power. They forget that he present war with Russia, which has cost them a thousand lives a day, and hundreds of millions of treasure, was undertaken, not to settle a long standing quarrel, nor to vindicate individual rights, nor to avenge a national insult, but to cripple a State whose rapid growth threatened at some future time to make it their rival upon the sea as well as on the land. Upon both these elements the government of the United States, if not the superior, is the equal of either of the assailants of Russia. Our republican system, our great commerce, our manufactures, our unrivalled agriculture, our boundless resources, our facilities for concentrating our population, our geographical defences, the very breadth of our front, and the depth of our inland—all these things make of us a fearful enemy, and one more effective in peace than in war.

There is but a single weak point in our position, and that is in the possible overthrow of the federal constitution by intrigue. If the monarchists of Europe and the madness of our abolitionists do not do it, it will be done. If money can buy, treason betray, or fanaticism surrender the citadel of the public liberties, it will be surrendered.

The Dames Ship Canal Project—REVISED—THE APPOINTMENT OF JUDGE HOPKINS—KNOW NOTHING COMING INTO FAVOR, ETC., ETC.

A Cabinet meeting was held yesterday to consider the feasibility of a ship canal across the Isthmus of Darien, as proposed by F. M. Kelly, Esq., who represents the Inter-oceanic Ship Canal Company of New York. The proposition of the company is that the government should purchase the land, and should employ a corps of officers to re-examine the route surveyed by Mr. Kelly's engineers which is from the Gulf of Darien, by the Atarato and Tronco rivers, to Humboldt bay on the Pacific. The route would require a tunnel three miles in length through the Covilleiras, and is estimated to cost, when completed from ocean to ocean, one hundred and forty-seven millions of dollars. Mr. Kelly anticipates a forty-seven million dollar Cabinet today or tomorrow. Secretaries Davis and Roblin are anxious for the government survey, while Mr. Marcy ridicules the whole idea as long since exploded.

The appointment of Judge Hopkins, a Virginian in place of Judge Cranch, deceased, has created much interest and excitement. Hopkins is a really intelligent, as well as Mr. Blair's friends, Senator Hunter recommended Mr. Hopkins, but was not sufficient until the arrival of Mr. Wise. General Pierce dare not run counter to his wish.

The administration yesterday appointed to office a rabid Know Nothing, named Jones—one who has been connected with the Know Nothing movement since its commencement in this city. What's up now, is Gathrie a Know Nothing?

The President has appointed James M. Live of Judge of the District Court of the Eastern District of New York, to be Chief Justice of the same, in place of the late Chief Justice, Mr. Woodworth.

Imposing Know Nothing Demonstration at Philadelphia—ADDRESS OF THE EXECUTIVE COMMITTEE OF THE AMERICAN PARTY, ETC.

The Know Nothing meeting to-night was the largest political gathering ever held in this State. Thomas J. Perkins presided. The greatest enthusiasm and unanimity prevailed. The transparencies exhibited expressed devotion to the Union, embracing such mottoes as—"For the Union, the whole Union, and nothing but the Union." The Union shall be preserved. "Civil and Religious Liberty," &c. Indeed, Union sentiments pervaded throughout. Each ward was fully represented. Three stands were erected, and an immense crowd surrounded each. The following address was read from the platform:

Know Nothingism—The American party asks the support in the election that is approaching of all conservative and patriotic citizens. It asks the support of all who are true to the principles of our Constitution, and who are true to the principles of our Republic. It asks the support of all who are true to the principles of our Union, and who are true to the principles of our Country. It asks the support of all who are true to the principles of our Liberty, and who are true to the principles of our Justice.
