From the report of the City Inspector we learn that there were 675 deaths in this city during the past week—an increase of 62 as compared with the mortality of the preceding week. There was more disposition manifested yesterday on the part of sellers to meet purchasers at current rates, and the sales amounted to about 1,100,000 bushels, without change in prices.

The Southern nigger drivers, or fire-eaters, are beginning to slacken their fire against the Kansas policy of Governor Walker and the administration; while the Northern nigger-worshippers, or dit-eaters, are swelling their electioneering howl and cry of border ruffianism, Walker's perfidy, and Buchanan's treachery towards "bleeding Kansas."

The Central Park and other city improvements.—It is by no means certain that the people of this city are not nursing for themselves a severe disappointment in relation to the Central Park.

We mean fear that the Central Park, in the earth and stone, will be a very different affair. It appears already that the most persevering candidates for desirable sites around it are the lager beer dealers, and the keepers of corner grogeries.

Against all these tricks of oppression and suppression, and all these dodges, shufflings and intrigues of the Seward oligarchy, it has become the paramount duty of the democracy to unite as one man until the work of a wholesome revolution is accomplished.

Progress of Law and Order in Kansas.—We are glad to see that the free State party of Kansas, in general convention assembled, have resolved to vote at the October Territorial election, and not to play the part of the dog in the manger any longer.

Fatal Explosion.—The engine No. 10, of the Erie Railroad, exploded on the Cheshire Railroad this morning, killing the engineer and seriously injuring the fireman.

Market.—Philadelphia Stock Board.—Cotton—Sales to-day 60 bales, including 40 bales of new, at 15 1/2c a bale for middling.

Two fire engines were on duty this morning, the first at 10 o'clock, and the second at 11 o'clock. The loss by both is about \$70,000, and the insurance about \$45,000.

ing the Kansas border ruffian policy of poor Pierce and Atchison, had treacherously adopted the popular sovereignty doctrine of the Nebraska bill, thus re-opening the door to the admission of Kansas into the Union as a free State, should the will of the people of the Territory so decide it through a fair administration of the laws.

Against this unpardonable offence of Walker and the administration we have suffered, for a month or two, the most terrible outbreaks of the wrath and vengeance of these Southern salamanders. They have denounced Mr. Buchanan as a "riper" and a "traitor," and poor Walker as a "bankrupt in character and politics," a "Southern renegade;" and a whole catalogue of epithets and maledictions have been heaped upon him, scarcely excelled in their ferocity and vulgarity, by the villainous abuse they showered upon Colonel Fremont during the last Presidential campaign.

But this defeat of the nigger-drivers of the South appears only to have excited the nigger-worshippers of the North to a redoubled agitation against the "border ruffian" proclivities of Walker and Buchanan. However, as the affairs of Kansas appear at last to be working out their own solution, the administration can well afford to treat with silent contempt all these Northern shriekings and howlings over the horrible treachery of Walker, and the outrageous appliances of the border ruffian pro-slavery bogus laws and bogus authorities.

It is to be expected that the masses of the solid, practical business thinking, Union-loving people, North and South, are satisfied with the Kansas policy of the administration, and confident of a just and satisfactory settlement, pro-slavery or no slavery, as the case may be.

But while this is the position of the solid body of the people North and South, there yet remains to be given to these boisterous Southern ultras another practical lesson or so touching their real weakness and folly. This can be done in no better way than in the election of Gov. Wise to the United States Senate from Virginia; and we are confident that he will be elected. And should this thing be done within a month or so from the meeting of Congress, as we presume it will be, the moral effect in the solution of the Kansas difficulty in both houses will be almost miraculous.

In this we may account for the treacherous course of Sikes, and the foolish "ifs and ands" of such narrow sighted party managers as Hart, Sanders and Rynders. In this way, too, we may readily solve all the late squabbles and double-headed organizations of Tammany Hall, including the Peter Cooper Puritan committee of democratic reformers. But we can tell them all that it is not Mayor Wood, nor his partisans, nor his purposes, that the democracy of this city and State have to fear, or will have to fight in November and December.

We see from the latest developments from Albany that this Seward junta, upon discovering that certain measures of the last Legislature in behalf of negro suffrage, and for the punishment of bribery at the elections, &c., were going a little too far for the good of the party, and we have seen that with this discovery these measures have been coolly subordinated and suppressed by the executive authorities, whose duty it was to fulfil the technical forms of publication, &c., required to carry them into effect.

Against all these tricks of oppression and suppression, and all these dodges, shufflings and intrigues of the Seward oligarchy, it has become the paramount duty of the democracy to unite as one man until the work of a wholesome revolution is accomplished.

having a muss, or a drink at the corner grocery opposite the great gate. He will run round with his new horse in the carriage way. He will look any better dressed man down who remonstrates with him. He will talk and sing, and fill his share of the bench, and flirt with the nursery girls in his own carriage way. Now, we ask what chance have William B. Astor and Edward Everett against this fellow-citizen of theirs? Can they and he enjoy the same place? Is it not obvious that he will turn them out, and that the great Central Park, which has cost so much money and is to cost so much more, will be nothing but a huge barren garden for the lowest denizens of the city—which we shall yet pray liberties to be delivered?

There have been many blunders in our city improvements. Our streets have been opened at right angles, at the sacrifice of the natural beauties of the ground; swamps have been filled in instead of being drained off, whence it comes that one-half the houses in Madison square and very many in Fifth avenue and the vicinity are subject to fever and ague—though the people say so little about it. Some of the houses near Fifth avenue, built on made ground, have already fallen, and more will fall hereafter. But the greatest of all the blunders of our city improvements will, we apprehend, be found to be our Central Park.

Black Republican Tactics.—Their Acts of Oppression and Suppression.—Our Albany correspondent, in a late letter, says, "It appears as though we were never to touch bottom in fathoming the rascalities of our black republican Legislature of 1857." Their main object last winter was, through a series of high handed measures usurping the municipal government of this city, to break down the democracy here, and thus, in reducing the great citadel of their strength, to secure the undisputed possession of the city and the State.

To this end the Seward-Weed clique adroitly contrived, in the concoction and passage of these aforesaid bills of usurpation, to shirk the issue of a direct conflict with the democratic party, upon the pretence that all these acts for the special benefit of this metropolis were all directed to the great object of relieving the city of Mayor Wood and his partisans. Thus the free soil seceders from the democratic camp were quieted in a measure, and thus a good many other foolish democrats, whose personal relations with Mayor Wood were not of the most harmonious character, were induced to aid or connive at these infamous acts of the Albany oligarchy for the subjugation of this city. In this way, the old feuds and grudges between this man and that man, and this man's clique and that man's clique, have been kept alive by the scheming Seward Albany managers.

In this we may account for the treacherous course of Sikes, and the foolish "ifs and ands" of such narrow sighted party managers as Hart, Sanders and Rynders. In this way, too, we may readily solve all the late squabbles and double-headed organizations of Tammany Hall, including the Peter Cooper Puritan committee of democratic reformers. But we can tell them all that it is not Mayor Wood, nor his partisans, nor his purposes, that the democracy of this city and State have to fear, or will have to fight in November and December.

The others are reserved for future negotiation.

Siner, a merchant doing business here, and the engineer and a fireman of the express train were killed and thirteen wounded, some of them seriously.

The cause of the accident is said to be the anxiety of the employes on the freight train to reach the city in time to participate in an excursion, and to do this they violated the time tables. One of the employes has fled to the woods.

Three prizes were awarded, viz: two thousand, one thousand, and five hundred dollars. The following was the result:—Flora Temple, first; Lanet, second, and Red Bird, third. Three straight heats were trotted. Miller's Daniel was withdrawn after the second heat. The time made was 2:56 1/2, 2:57 and 2:55.
