MORAL OF STATE INTERFERENCE IN MUNICIPAL AFFAIRS.—In 1850, with a population of 515,547 souls, we contrived to get along pretty well with an expenditure of \$3,230,180. In 1857, with a population of 770,000, we cannot keep within a budget of \$8,000,000. In 1860 the citizens of the city of New York managed their own affairs. In 1857 they were managed by the State. Which King, O. Benzonian? "Back up the Mayor."

THE LATEST NEWS.

Interesting from Washington. THE CABINET AND THE KANSAS QUESTION.—A NEW COMMANDER AGAINST THE MOHOMS.—THE COST OF THE ARMY FOR US.—PREPARATIONS FOR THE OPENING OF CONGRESS, &c.

Washington, Nov. 27, 1857. Governor Walker had no interview with the President to-day, but has been engaged in receiving company. The second interview is fixed for to-morrow morning. The Cabinet was in session until a late hour. The Kansas difficulty was, of course, the theme of discussion. The President submitted all the facts, and expressed his views firmly. His position had been taken, and a high sense of public duty admonished him to adhere strictly to it. In this view the Cabinet were unanimous, and after a protracted discussion of the probable results, the meeting adjourned without arriving at any conclusion.

There is still a hope among the real friends of both parties that the difference of sentiment will be reconciled probably by the means suggested in my dispatch last evening. Others here who are pretended friends will, it is apprehended, widen the breach by their officious intermeddling.

General Smith is still here, consulting with the government relative to Utah affairs. It is not improbable that General Joseph Lane will be commissioned to proceed to California and conduct the war against the Mormons. Near two millions of dollars will have been expended on the expedition. They have two thousand men, fifteen hundred wagons and thirteen thousand animals, and more quartermasters than the English had in their Crimean expedition. Look to the army estimates.

The Secretary's reports are all complete, and copies are being made. They will not be very lengthy.

The President's message is studied except that part relating to Kansas. The President will recommend a commensurate increase in the army. Senators and members are coming in slowly. Senators Bigler and Pugh arrived to-day. J. Glancy Jones, James B. Clay and Israel T. Hatch arrived to-day, and are stopping at Willard's.

In the case of Lieutenant Matthew L. Murry, before Naval Court No. 1 to-day, Commodore Aulick and Smith were examined on the applicant's behalf, and Mr. J. P. Smith, of the Pension Bureau, on behalf of the government. The testimony was highly complimentary to the applicant. Before Court No. 2, in the case of Lieutenant Boyle, Commodore Voorhes and Commanders Whittle and Nicholas were examined in his behalf. The case was then postponed, and the Hon. Mr. Conrad read an able defence in the case of Commander Ringgold. Before Court No. 3, Lieutenant Maffei, and Dr. William P. Jones, of Washington City, were examined in the case of Captain Levy, on his behalf.

THE GENERAL NEWSPAPER DISPATCH.

As far as can be ascertained by Cabinet are united in sustaining the action of the Kansas Constitutional Convention. Whatever preference there may have been for submitting the entire constitution to the people, it is understood that all are agreed that the mode proposed for the inhabitants to settle the question of slavery, as one of their domestic institutions, for themselves, is in accordance both with the letter and spirit of the Kansas Nebraska act.

No arrangements have yet been made in regard to the transmission of the President's message in advance of its delivery. It is probable, however, that the newspaper press will be supplied with copies by the means heretofore adopted.

All the reports of the Heads of Departments are in a sufficient state of forwardness for copying.

South Carolina United States Senatorship.

COLUMBIA, S. C., Nov. 27, 1857. On the first ballot to-day for United States Senator, in the State Legislature, John R. Preston received 15 votes; James S. Clements, 23; Mr. Pickens, 29; and Mr. Hammond 61. An adjournment took place without an election being made.

Formation of a New Canadian Administration.

TORONTO, Canada, Nov. 27, 1857. A new administration was formed to-day. It is composed of Upper Canada; William Cayley, Inspector General; Robert Spence, Postmaster General; G. E. Carlier, Attorney General of Lower Canada; J. C. Morrison, Receiver General; P. M. Van Koughnet, President Executive Council; T. J. J. Loranger, Provincial Secretary; N. F. Belleau, President Legislative Council; Charles A. Lely, Commissioner Public Works; and L. V. Scotte, Commissioner Crown Lands.

TRIAL OF THE CAPTAIN AND OWNERS OF THE STEAM-BOAT SENECA IN CONNECTION WITH THE CHARGE OF MANSLAUGHTER.—FIRE.

In the Municipal Court, to-day, the captain and owners of the steamer Seneca were put on trial on a charge of manslaughter, by reason of negligence in not endeavoring to save the life of Mr. Andrew Taylor, of Orlando, Me., who fell overboard from their steamer on the night of the 10th of September, 1856, and was drowned. The trial will probably occupy several days.

The Methodist church on Harvard street, Cambridge, Rev. Mr. Smith, pastor, was destroyed by fire last night. Loss \$6,000.

CITY INTELLIGENCE.

FIRE IN DUTCH STREET.—FIVE FAMILIES NEARLY SUFFOCATED.—NARROW ESCAPE OF THE INHABITANTS.—SERVANTS INJURED AND SLIGHTLY BURNED.

Between 4 and 5 o'clock yesterday morning a fire was discovered on the stairs of the dwelling house No. 10 Dwyer street. The alarm was promptly given and the firemen soon at the premises, but the flames spread with much ferocity, and before they were subdued the upper part and roof of the building, together with part of the roof of No. 8 Dwyer street, was destroyed. There were three families occupying the attic, and two on the second floor, in all consisting of nineteen persons, part of whom were rescued by the firemen, while the remainder escaped by the escape by the means of ropes. An old woman, named Munson, was taken out. Her hand and face were burned. She was passing to the second floor, when she fell from the window, and was severely injured. Her husband, John Dwyer, and child, who were on the second story window, lost her hold of the rope and fell to the ground, injuring her head and arms. The child, who was only two years of age, was also injured. The fire was extinguished by the firemen, and the damage done to the building was estimated at \$200, and insured. The families occupying No. 8 had a portion of their furniture destroyed by the fire. The fire was caused by a gas stove, which was the work of an incendiary. It is under investigation by the Fire Marshal.

THE WORK ON CENTRAL PARK.—About nine hundred men have been set to work on Central Park up to the present time, and two hundred and fifty more selected, who are to be set to work on Monday morning next. In addition to the above number, the Commissioners have requested the Chief Engineer to refer to them at once what number of men should be increased to fifteen hundred or two thousand, so as to be of advantage to the public; accordingly the Chief Engineer and Executive Committee of the Commissioners have agreed to increase the number of men to two thousand, and the work on the park is to be resumed to-day.

EXTRANE ROUBLES.—A new development of roguery has lately come to light. It is the practice certain thieves have got into of examining the orders left on the states of the Express companies, and then going to the places mentioned with wagons in all respects similar to express wagons and taking the goods away. The deception is not always detected until it is too late to recover. From all accounts deceptions of this character have been quite frequent of late, and it would be well for the public to be on their guard against such a mode of robbery. From all accounts deceptions of this character have been quite frequent of late, and it would be well for the public to be on their guard against such a mode of robbery. Look out for the bogus express bills.

MONKEY MARKET.

FRIDAY, Nov. 27—P. M. The stock market opened this morning, after a day of rest, weak and depressed, instead of strong and buoyant. Speculators for a rise took hold with some spirit, and for a short time sustained prices, but it was not of long duration. The pressure outside was too much, and nearly every stock on the list gave way. New York Central 6 1/2 declined 1/2 per cent; Cumberland, 1 1/2; New York Central Railroad, 5 1/2; Erie, 1/2; Reading, 1/2; Michigan Southern, old, 2 1/2; do, preferred, 3; Panama, 1 1/2; Illinois Central Railroad, 3/4; Galena and Chicago, 1/4; Cleveland and Toledo, 1/4; Chicago and Rock Island, 1/4; La Crosse and Milwaukee, 1/4; Illinois Central bonds advanced 1 per cent; Delaware and Hudson, 1. In the two most substantial Western railroad stocks the decline to-day was very great, and small lots from outside holders appear to be coming upon the market. At the second board the market generally was lower, but there was not much activity. Erie declined 1/2 per cent; Reading, 1/4; La Crosse and Milwaukee, 1/4; Michigan Southern, preferred, 1. New York Central opened at 74, and was well sustained up to the close. There was an active demand for the stock, which was scarce, and 74 per cent was bid after the board. There will probably be a reaction in the market for to-day's prices. The position of the principal operators has not changed in the least, and the great decline to-day is calculated to bring in new buyers. The money market remains without material alteration. It is the easiest thing in the world to hypothecate fine stocks with favorable margins. There is, therefore, no check to speculation where the disposition exists.

The Assistant Treasurer reports to-day as follows:—

The 21st of November, inclusive, during the years 1856, 1856 and 1857.—

Table with 3 columns: Year, Wheat, Flour. Includes prices for various grades of wheat and flour.

The quantity of flour, wheat, corn and barley left at tidewater during the third week in November, in the years 1856 and 1857, was as follows:—

Table with 3 columns: Year, Flour, Wheat, Corn, Barley. Includes quantities for various years.

By reducing the wheat to flour, the quantity of the latter left at tidewater this year, compared with the corresponding period of last year, shows a falling off of 1,544,205 bushels of flour.

The New Haven Herald calls attention to some irregularities relative to the circulating notes of the Bank of Hartford county. It was originally organized under the free banking law, one of the provisions of which required all notes issued to be registered and countersigned by officers of the State, and the bank was obliged to deposit certain stock as security for their redemption. Subsequently it gave a charter, and gave bonds to the State for the redemption of its registered circulation.

It originally received \$413,250, of which \$402,250 had been returned and destroyed, but among the notes so returned were \$75 in five and \$2,800 in ten more than the bank is charged with in notes of these denominations. It further appears that while \$11,000 of this registered circulation ought to be about, since the bank has passed into the hands of receivers no less than sixteen thousand dollars of registered bills have been presented for payment, being five thousand more than the State accounts and the bank books show to have been issued.

The Supreme Court of Connecticut has postponed until December 29 the consideration of the question of granting a perpetual injunction against the Bank of Hartford county.

The coupons on the \$75,000 city of Milwaukee bonds, issued June 1, 1854, to aid in the construction of the Milwaukee and Watertown Railroad, due December 1, will be paid on that day at the Ocean Bank.

The stock of the American Coal Company has been placed upon the books of the Stock Exchange, and will be daily called at the Board. There was a bid to-day of 18 per cent.
