

A Letter to the Captain of the Prize Steamship Bermuda—Is He a "British Subject"?

To Captain C. W. Wainwright, Steamship Bermuda, Philadelphia.

The Receipts of the Emille St. Pierre.

TO THE EDITOR OF THE HERALD.

FINANCIAL AND COMMERCIAL.

SUNDAY, JUNE 15, 1862.

The Custom House tables of the trade of the port for the month of May were closed yesterday, and we present our usual comparative statements:

Table with 4 columns: Month, Value, Quantity, etc.

Total imports, 1860-61, 1861-62, 1862-63.

Total exports, 1860-61, 1861-62, 1862-63.

It thus appears that, though our importations are heavier than they were at this time last year, our exports of produce, merchandise and specie exceed them, leaving the balance of trade in our favor.

The following tables will show the course of trade for eleven months of the fiscal year ending May 30, 1862:

Table with 4 columns: Month, Imports, Exports, Balance.

Reports of Specie.

Table with 4 columns: Month, Imports, Exports, Balance.

Reports of Stocks.

Table with 4 columns: Month, Imports, Exports, Balance.

The following are the trade tables for the week and since January 1—

Table with 4 columns: Month, Imports, Exports, Balance.

Exports of Produce and Merchandise.

Table with 4 columns: Month, Imports, Exports, Balance.

Total for the week, 1862-63.

Previously reported, 1862-63.

Total since Jan. 1, 1862-63.

The bank statement of last Monday showed a

loans average of \$142,318,381, being a decrease of \$53,033 from the previous week; a specie average of \$31,248,882, being a decrease of \$148,402, and a deposits average of \$125,665,961, being an increase of \$132,296. It is understood that the specie will probably show a small increase to-morrow, and that the loans and deposits may perhaps likewise reach a higher figure, though the general movement is so slight that it will not attract any attention.

The money market exhibits no new features. Money is offered to the established houses at 3 per cent per annum, and is loaned by them to the street operators and smaller houses at 4 1/2 per cent per annum. Commercial paper sells at 4 1/2 per cent, and is in demand at these rates. Certificates of indebtedness are wanted at 100%, and are mostly held at 100% 1/2. Green back demand notes advanced on Friday to 103% 1/2, but sold yesterday at 103%.

The letter of the Secretary of the Treasury to the Chairman of the Committee of Ways and Means, requesting Congress to authorize a fresh issue of \$150,000,000 of legal tender notes, has been the signal for a fresh burst of speculation in gold and exchange.

The following table shows the course of the stock market for the past week and month—

Table with 4 columns: Month, Imports, Exports, Balance.

There has been a marked advance in stocks within the past day or two based upon the prevalent belief that the new issues of government paper will cause a general inflation.

The following table shows the course of the stock market for the past week and month—

done by the purchase of American stocks in Europe and their resale here. The Europeans, misled by the bitter attacks of their journals upon this country, have been willing to dispose of their American securities at low rates, while our people at home, more justly appreciating the condition of the country, have been willing to purchase all the foreigners were anxious to sell.

Several of our banking houses have taken advantage of this state of things, and have done a large and profitable business. A very large aggregate amount of State, city and railway bonds has thus passed from foreign to American holders within a few months, and the operation is still proceeding actively. It is a matter of congratulation. It is impossible to exaggerate the mischief which has flowed from our habit of relying upon foreigners for a supply of capital. Henceforth it is to be hoped we shall hear no more of this foolish and injurious practice.

We have received the following communication on the subject of the Pittsburgh, Fort Wayne and Chicago Railroad Company—

TO THE EDITOR OF THE HERALD.

I am sorry you could not find room for my communication in your issue of the 11th inst. The road, as the facts it contained are of interest to a large section of people, not only in this country, but on the other side of the water. I trust you can find a use for it.

The receipts of the New York and Harlem Railroad Company for the first five months of 1862, as compared with last year, are as follows, viz:—

Table with 4 columns: Month, 1861, 1862.

Total five months' increase over last year, \$31,110.

The earnings of the Dayton and Michigan Railroad for the year ending April 1, 1862, were:

Table with 4 columns: Month, 1861, 1862.

Total five months' increase over last year, \$25,167.78.

The company has recently acquired convenient and commodious depot accommodations at Toledo, and erected grain elevators, which have had a favorable influence on the business of the road, and the receipts for the months of April and May show an increase of about \$6,000 over the corresponding months of last year.

CITY COMMERCIAL REPORT.

SAUNDERS, June 14—6 P. M.

ASHES—The market was steady, with sales of 15 tons.

BAKING POWDER—The continued firmness in freights tended to depress the market, which fell out a cent per barrel, with a moderate demand.

COFFEE—The market was steady, with sales of 12,000 lbs.

CORN—The market was steady, with sales of 4,000 bushels.

CORN MEAL—The market was steady, with sales of 1,000 barrels.

CORN MEAL—The market was steady, with sales of 1,000 barrels.

CORN MEAL—The market was steady, with sales of 1,000 barrels.
