Appeal to the United States for Assistance, &c., &c., &c.

The steamship Manhattan, Captain Turner, arrived at this port yesterday from Vera Cruz on the 28th ult., touching at San on the 30th and Havana August 3. By this arrival we are in receipt of highly interesting information from the city of Mexico up to July 31 and from Vera Cruz to the 1st of August, which will be found in the letters of our correspondents.

The Manhattan brings among her passengers his Excellency A. Prun, Yrigoyen, Minister from Mexico to Italy; Mr. Bannard, Secretary of Legation, and Miss Bannard, Mr. de Haro, consul general to Palestine; Brigadier General Marina; Colonel of Artillery, — Bustamante; Commandant of Engineers, Corrales, and M. de Urepolo, Inspector General of Caravans in Cuba; Commandant of Engineers, Gomez; the Most Rev. Bernard Diaz, Vicar General of St. Domingo, and the Count Von Thurn, Captain in the Imperial Mexican army.

Our City of Mexico Correspondence. Every body feels easy just now in Mexico. And why not? Has not Napoleon declared that he will stand by Maximilian until the mission of the intervention is accomplished? Has not President Johnson set his face against the scheme of "Mexican emigration"? Has not Editor Rotundo made a speech in New York, which was published and praised in the papers here, in which he showed conclusively that the empire is the best thing in the world for Mexico, and better still for the United States? Is not General Almonte just now preparing (the papers say) to go on to Washington to receive from the American government the recognition of Maximilian, the first Emperor of Mexico? And, finally, has not the Maximilian gone off like hot cakes in Paris? Everybody, therefore, feels easy in Mexico.

On the anniversary of the meeting of the notables to offer the crown of Mexico to Maximilian, the Emperor gave a grand ball in the Imperial palace. Thirteen hundred guests were present, including the representatives of the various courts and distinguished strangers. The Emperor gave his arm to Madame the Marchioness, and the Marchioness gave her arm to the Emperor. The Emperor and the Marchioness were the center of attraction. The Emperor was in the height of his health and spirits, and the Marchioness was in the height of her beauty and grace. The ball was a great success, and the Emperor and the Marchioness were the center of attraction.

Our Vera Cruz Correspondence. The condition of this unfortunate country is becoming daily more and more desperate. The Imperial Government, far from ameliorating this state of affairs, only brings upon us fresh misfortunes which will require much time and trouble to repair. The Emperor's policy is to keep the country in a state of anarchy, and to keep the people in a state of poverty and misery. The Emperor's policy is to keep the country in a state of anarchy, and to keep the people in a state of poverty and misery.

The Press Dispatch. NEW ORLEANS, August 7, 1865. The Times of Mexico correspondent of the 15th ult. says that the French empire state that they will require one hundred thousand more men to destroy the leaders of the Republic. The report of the people daily takes larger dimensions. Reports of French successes are unfounded. General Alvarez has just inflicted a heavy blow on the imperialists at Tepic, completely routing them, taking three pieces of artillery. Great disappointment is felt at the failure of the combined French and imperial forces against Negrete in the pass of Pecos Vista. Cortina relaps into the pass of Matamoros to Monterey.

apparently willing to give him his naturalization papers while so supported by foreign bayonets. When he speaks of Mexico he calls it the country of his birth, and all sincerity I have no doubt, but the Mexicans, with at least apparently equal sincerity, wonder why French, Austrian, Belgian, Egyptian and Maritine soldiers are necessary to keep up the bands of African slaves in the north, but have scarcely a foothold. In Guerrero there is not a shadow of imperial authority, and in the south the Emperor's troops are not only despised and laughed at, but are the cause of the Mexican territory by a force so inconsiderable as the one here is an impossibility. The authority of each garrison is confined to the immediate neighborhood, and no farther. Beyond that Maximilian is regarded, like all other foreigners in the country, as a mere mercenary, and not as a ruler.

The Mexican Minister-American Enterprise. I have been trying to hunt up some statistics in reference to the different ways in which I reported in this country are impossible. Even the Treasury Department of the government would find it a difficult matter to give an intelligible statement of the probable amount of revenue for the coming year, so deficient are they in knowledge of the necessary details. In reference to the money question, whether the country is producing more or less than it was ten years ago. At that time their product was \$17,000,000, and now it is \$20,000,000. It is more now. The Emperor's government is taking the matter in hand, and trying to produce good results. A party is now getting ready under the direction of the Department of Fomento, to explore the country for the purpose of finding out the most fertile lands, and to settle them with immigrants, mostly French Americans from California, headed by Mr. Thomas, a practical farmer. They are now buying land in California, and settling them with immigrants, mostly French Americans from California, headed by Mr. Thomas, a practical farmer.

It is continually a matter of surprise with enterprises to redeem his country from the condition which it is in, and avail himself of the services of intelligent foreigners to carry out his plans. The treasury should fall to equally competent hands, and, in time, expect to produce good results. A party is now getting ready under the direction of the Department of Fomento, to explore the country for the purpose of finding out the most fertile lands, and to settle them with immigrants, mostly French Americans from California, headed by Mr. Thomas, a practical farmer.

the same. The French had laid waste every league of cultivated territory on the banks of the seven Coahuila and Jalisco; they have carried devastation and death into that district without any plausible pretext, and solely because the inhabitants would not consent to make war upon their countrymen, who, with their own hands, were resisting intervention and the empire.

THE SARATOGA RACES.

Another Splendid Day's Sports—Gathering of Distinguished Sporting Gentlemen from All Parts of the Union—Two Races—The Saratoga Cup Won by Kentucky—Arcola Again a Winner in the Second Race, &c., &c.

The gathering at the race course yesterday was much larger than that of Monday, the contest for the Saratoga cup having greatly reinforced those who, having been present and pleased with the sport of Monday, as a matter of course came again. Among the large number of distinguished persons present from other States there were especially noticed John Minor Botts, of Virginia; Thomas Purdum, of South Carolina, and Zeb Ward and Keene Richards, of Kentucky. All of these gentlemen have been celebrated as breeders and racing men in years gone by, and they all retain their ardent love for the sports of the turf.

THE SARATOGA CUP RACE.

The company at Saratoga had been excited to an unusual degree in regard to the race for the cup. Eighteen of the best horses in America had been entered for the race, and a choice was made by the judges of Kentucky, thought it scarcely possible that he could be beaten in the condition, and his trainer, Mr. Major, declared that he would win. On the other hand, the well-earned reputation of Rhinoline was very great, and was at stake. Except that he had a suspicious leg, his appearance and style of going on his horse's paces were only calculated to attract the regard and win the confidence of those who saw him. Rhinoline was another of whom great things were predicted, and who is probably a very fast horse. Tunder had been a great race horse no long time ago, and Captain Moore had some faithful friends who believed in him, in spite of the general opinion that he would be in the first three; but the favorite of the day was the Canadian pair, and the latter of the two horses started to start the race.

THE NAVY.

ARRIVAL OF THE UNITED STATES SUPPLY STEAMER FORT MORGAN, Acting Volunteer Lieutenant William B. Eaton, commanding, sailed from New York on the 11th of July, with the mails and fresh supplies for the East and West Gulf squadrons. Stopping at Key West, she supplied the vessels in port, and proceeded from thence to Pensacola, where she found the flagship Estrella at anchor, with Rear Admiral R. S. Thayer, commanding East and West Gulf squadrons, on board. Also the guardship Potomac, Kuhn, Pompey, Tritonia, Pink and other small vessels. There were also a number of our blockading fleet from the coast of Texas and Mobile, on their way North.

THE RACE.

The horses were started from the three-quarter pole, Kentucky on the inside, Rhinoline in the middle, and Captain Moore on the outside. Kentucky jumped away with the lead, closely followed by Rhinoline, with Captain Moore a length behind. They came up the homestretch at a pretty fast rate and passed the judges stand, Kentucky leading half a length, Rhinoline being second, four lengths ahead of Captain Moore. There was no change of position around the turn; but at the quarter pole Kentucky was a little further ahead, but not clear of Rhinoline. Captain Moore being four lengths in the rear. Going down the backstretch there was not the slightest change of position, and Kentucky passed the half mile pole three-quarters of a length in front of Rhinoline, with Captain Moore four lengths behind. On the lower turn Captain Moore began closing, and before the leader reached the quarter pole was within two lengths of Rhinoline, who had also closed a trifle and lay by Kentucky's quarters. As they dashed up the homestretch Captain Moore gained rapidly and permanently on those before him, passing Rhinoline at the distance stand and getting to within a length of Kentucky as he passed under the string and entered on the last mile. Thus far, 2:15, the first quarter being run in twenty-six seconds and the mile in 1:40. Going around the upper turn Rhinoline was four lengths behind, he having begun to quit before he reached the judge's stand. Kentucky led to the quarter pole a length ahead of Captain Moore, and stayed in that position to within a few feet of the Captain. On the backstretch Captain Moore made every attempt to get clear, but the favorite shook him off as fast as he approached, and passed the half mile pole one length ahead. Captain Moore was now again length or more in front of Rhinoline, who was laboring under a heavy load. As they came to a stage of Kentucky increased his pace and showed daylight between himself and the Captain; but this opening was soon closed again, and the latter was again within a few feet of the Captain. On the lower turn Captain Moore gained rapidly and permanently on those before him, passing Rhinoline at the distance stand and getting to within a length of Kentucky as he passed under the string and entered on the last mile. Thus far, 2:15, the first quarter being run in twenty-six seconds and the mile in 1:40. Going around the upper turn Rhinoline was four lengths behind, he having begun to quit before he reached the judge's stand. Kentucky led to the quarter pole a length ahead of Captain Moore, and stayed in that position to within a few feet of the Captain. On the backstretch Captain Moore made every attempt to get clear, but the favorite shook him off as fast as he approached, and passed the half mile pole one length ahead. Captain Moore was now again length or more in front of Rhinoline, who was laboring under a heavy load. Going around the upper turn Rhinoline was four lengths behind, he having begun to quit before he reached the judge's stand. Kentucky led to the quarter pole a length ahead of Captain Moore, and stayed in that position to within a few feet of the Captain. On the backstretch Captain Moore made every attempt to get clear, but the favorite shook him off as fast as he approached, and passed the half mile pole one length ahead. Captain Moore was now again length or more in front of Rhinoline, who was laboring under a heavy load. As they came to a stage of Kentucky increased his pace and showed daylight between himself and the Captain; but this opening was soon closed again, and the latter was again within a few feet of the Captain. On the lower turn Captain Moore gained rapidly and permanently on those before him, passing Rhinoline at the distance stand and getting to within a length of Kentucky as he passed under the string and entered on the last mile. Thus far, 2:15, the first quarter being run in twenty-six seconds and the mile in 1:40. Going around the upper turn Rhinoline was four lengths behind, he having begun to quit before he reached the judge's stand. Kentucky led to the quarter pole a length ahead of Captain Moore, and stayed in that position to within a few feet of the Captain. On the backstretch Captain Moore made every attempt to get clear, but the favorite shook him off as fast as he approached, and passed the half mile pole one length ahead.
