The Assassination of Prince Michael—His Cousin Also Killed—Arrest of Two of the Assassins—Intense Agitation in Belgrade.

LONDON, June 11, 1886. From Belgrade, under date of an early hour this morning, come the following particulars of the tragedy attending the assassination of the reigning Prince Michel, reported by special cable telegram to the HERALD from this city yesterday, the news of which must have consequently appeared in your columns in New York as early as it was made known to the people of England through the metropolitan press here.

The Belgrade telegrams of to-day report that the reigning Prince Michel, while walking leisurely through one of the public parks at about five o'clock last evening, was suddenly attacked by three assassins, who were armed with revolvers.

The Prince was accompanied in his ramble by his cousin and a daughter of the latter, together with his usual attendants.

The assassins directed their fire promiscuously at the royal party.

At the first shot the Prince fell and expired immediately.

The cousin of the Prince was also hit and died in a few minutes afterward.

The Prince's daughter received a severe flesh wound, but is not dangerously injured.

One or two of the royal valets were also slightly wounded.

The assassins were recognized by the affrighted populace as three brothers. One of them was promptly arrested, and is thought that the others will not be able to escape the vigorous measures taken by the authorities for their capture.

The assassination has produced the most profound excitement and sorrow throughout the country.

Second Report. LONDON, June 11, 1886. The latest despatches from Belgrade represent that the excitement prevailing in that city and throughout the Principality is intense and unabated.

No outbreak, however, has occurred in consequence.

Two of the assassins of Prince Michel have been arrested.

It has been ascertained that it was not three brothers who fired the fatal shots, but a father and his two sons.

One of the latter is still at large, but it is believed that he cannot escape.

FRANCE.

Napoleon and the Czar on Torpedoes. PARIS, June 11, 1886. The Monitor states that the Czar of Russia has made a proposal to the Emperor Napoleon that Russia and France unite in an effort to induce all civilized nations to abandon the use of torpedoes and explosive projectiles in time of war.

The Monitor adds that this humane proposition meets with the approval of the Emperor, who, however, thinks that it may still be necessary to employ torpedoes for defensive purposes.

Arrest and Prosecution of Delinquent Civil Officers—The Smuggling Stopped at La Paz—The Trouble in Queretaro and Guerrero—General Diaz Obtains a Furlough of Two Years.

HAVANA, June 11, 1886. We have later advices from Vera Cruz to the 6th instant.

Congress had chosen a permanent deputation for the interim of the adjournment.

The authorities of San Luis de Potosi have ordered Señor Gale, the Prefect of San Luis, to be prosecuted for illegal acts done in his official capacity.

Governor Galan, of Lower California, and General Dávalos had arrived at La Paz, where, after investigating the recent cases of smuggling, they reorganized the customs service and had the Prefect arrested for malfeasance.

A party of five hundred insurgents had entered the town of Tequilapan, in the State of Queretaro, but abandoned it again and withdrew to the town of Bernal, district of Toluca, in the same State.

General Ugaldé has officially disowned any connection or sympathy with the pronunciamento of General Rivera.

General Porfirio Diaz had received a furlough of two years.

General Escobedo had arrived at San Luis de Potosi, and was organizing his forces preparatory to making the pacification of the States of Queretaro and Guerrero.

POLITICAL NEWS.

The Chase Movement—Letter from an Ex-Rebel of Prominence—The South Will Support the Chief Justice.

CINCINNATI, June 11, 1886. A letter has been received by a well known democrat in the Northwest from a prominent member of the Jeff Davis government, and formerly a distinguished member of the United States government, which, after referring to the strong support given by the NEW YORK HERALD to Chief Justice Chase and the positions attributed to him by that paper, inquires whether Judge Chase's nomination, under any circumstances, would receive a cordial support in the Northwest. The letter then proceeds to indicate that upon the general principles that ours is a federal republic and not a consolidated nation, that the question of suffrage should be decided exclusively by the States, and that no endorsement of the war should be made, not excluding, however, a complimentary vote of thanks to the Union soldiers, any candidate, Chief Justice Chase included, nominated at New York, and acceptable to the Northwest, would also be cordially supported at the South.

ALABAMA.

A Newspaper States That United States Soldiers Granted for Grant at a Meeting—Singular Order from General Sherman on the Subject.

MONTGOMERY, June 11, 1886. On the 6th of June the Montgomery Advertiser contained the following paragraph:— "We are informed by the soldiers on duty at this place to state that at the negro, carpet bag and scallawag meeting held at the Capitol on Saturday night the soldiers gave three cheers for Grant, three cheers for McClellan and three cheers for Andrew Johnson. They were given by the soldiers with a hearty good will and rolled from the Capitol to the Artesian basin. We are also requested by these soldiers to state that any assertion contrary to this is a base falsehood. The soldiers say they are white men and have no love for carpet baggers and scallawags."

In consequence of the above the following order, which appeared yesterday, has been issued by General Sherman, commanding the sub-district of Alabama:—

GENERAL ORDERS—No. 22. HEADQUARTERS DISTRICT OF ALABAMA, MONTGOMERY, June 6, 1886. The issue of the Montgomery Advertiser of yesterday contains a statement which, if in the slightest degree true, is a gross insult to the brave and gallant soldiers in this sub-district.

The statement alluded to applauds, incites and stimulates the soldiers to make a display of their military prowess by the publication that some have uttered groans against the General of our army, to whom the country has awarded such a commission for his eminent services in suppressing a rebellion aimed at the destruction of our republic and our freedom as a people.

Soldiers in this sub-district are therefore assured that it is their plain duty to rebuke in a becoming manner every effort made by the publishers of newspapers, or by other persons, tending to incite disgraceful acts and insubordination; and also to abstain from any expression of political opinion in newspapers, or by other persons, tending to insinuate that they are meritorious and incapable of being led astray by evil minded persons, and least of all by those who have caused the pain of death to over a million of our countrymen.

BERGEN.

CAUTION TO THE CHARITABLE.—Two respectable dressed females, who had been going through Hudson county, as one of them stated, collecting for the Children's Home, were overhauled by a police officer on Wednesday and required to produce the necessary certificates. They referred the officer to the late Mayor of Bergen and Jersey City, who upon inquiry denied giving such authority, while the superintendent of the Children's Home, and the late Mayor of Bergen, stated that they had never given such authority to the women. One of them, who gave her name as Mrs. King, was discharged for want of sufficient testimony against her, but the other, whose name was not recalled, was held for trial at New York.

SERIOUS STREET ACCIDENT.—Yesterday afternoon, while a lady named Harding, residing in Upper Washington street, was stepping on board one of the horse cars in Broadway, she accidentally slipped and fell heavily on the pavement, causing dislocation of her right shoulder, besides several painful bruises. Some citizens placed her in a carriage and had her removed home.

Nelson, an employe of the company, in the act of carrying three of these boxes from the shops and arrested him. He was committed for trial without bail.

AMUSEMENTS.

THEATRE FRANCAIS.—The opera bouffe, "Orpheus aux Enfers," rather an extravaganza (and a remote one at that) than a burlesque or comic opera, still continues, maugre adverse criticism, to attract full houses—a success principally attributable to excellent acting on the part of several of the company; for, in point of fact, the thread of the opera and the general ensemble of the tableaux and costumes are too remote mythological to be interpreted as effectively as could be desired.

The cast has previously been adverted to, as having the general soundings, and need not be enumerated here, but it remains to remark that Mile. Lambele as Eurycle has been exceeded in acting by no representative of the comic opera in America as yet. Eurycle, the goddess almost to a fault, and endowed with certain nerve and spirit, which are rare qualities; it cannot be denied that her voice, though lacking power, is very sweet and flexible as well as clear and cultivated. Nor can it be denied that in the part of Eurycle little power is needed, a clear, flexible mezzo soprano answering every requirement of the part.

Mr. Pagan as Jupiter is admirably drawn and effective in the scene in which he personates the fly, while Mile. Lambele is equally droll and effective in the same scene, which is really the gem of the whole performance. For the rest, Goussier as Pluto, is an excellent actor, while M. Decro, as Orpheus, exhibits to advantage a very sweet tenor voice, and a fine quality of one of our best artists, and not of remarkable compass and power; exhibiting also a very fair mastery of the capabilities of the hollow reed.

The French public—and present Eurycle's admirer—elegantly mounted, a perfect, which is furnished by the back of the kneeling Jupiter. On the whole, the company is a good and has several excellent actors, but their reason for being assigned why Lambele should be written down as the inferior of Tostee in comic impersonation, though the latter is a Parisian public—and present Eurycle's admirer—elegantly mounted, a perfect, which is furnished by the back of the kneeling Jupiter.

BROADWAY THEATRE.—On Wednesday evening last "A Flash of Lightning," another sensation drama in five acts and ten tableaux, by Mr. Augustin Daly, was produced for the first time in this city, at the above popular establishment. The play possesses a lively, sparkling dialogue, some good situations, a very slight plot, and is withal pure in style and smoother in construction than any of the previous productions that have emanated from the prolific pen of this author. The story of the piece could perhaps have been better and more intelligently told if there had been less reliance placed in the scenes of the stage carpenter; but taken as a whole the play is evidence of a decided success, both in evidence of merit and as an entertainment.

At least in a literary point of view—the master production of its author. The second, third and fourth acts will bear considerable pruning, and these might be cut down to the proportions of one or at least two acts without at all interfering with the plot or maring the beauties of the piece. As a playwright Mr. Daly is apparently afflicted with a penchant for "light" and "lightning." His hero in "Leah" receives his quietus from a streak of "lightning"; his characters in "The Light of the Evening" are "lighted" and "lighted" in a rather peculiar manner, and he caps the climax by calling a long, wearisome five act drama by the misnomer of "A Flash of Lightning." It is not probable that he will be able to satisfy any ordinary man; but there is no telling where genius will stop.

The City of Aven weaker than is usually in sensational plays, and appears the veriest shadow when strung out through five long acts. The prominent figure in the cast is Harry Falton, a young man of great popularity. He certainly must be in Greenwich street. Of his two daughters, Rose and Bessie, the former is the favorite and the latter is the favorite. The latter is the favorite of her father, and she is the favorite of her father.
