

FINANCIAL AND COMMERCIAL.

Business is still dull in the various departments of the Stock Exchange. Little animation is looked for until after the reassembling of Congress, or until the middle of the month.

THE STOCK MARKET.

was cautious in high transactions, and after being rather active, recovered and became strongly bullish. Nothing further is known concerning the alleged new issue of Rock Island stock. The first effect of the revised reports was to put the price down to 101 1/2, from which there was a subsequent recovery to 102 1/2. Just as Rock Island led in the decline New York Central led in the reverse movement, its advance being predicated on the expectation that with the assembling of the Legislature there is a prospect of obtaining the power to increase the rate of fare from 2 to 2 1/2 cents per mile on that portion of the road between Albany and Buffalo, a change which would add millions annually to the revenue of the road. Again, the time for the semi-annual dividend is approaching, which is expected to be not less than four per cent on both the stock and scrip. Erie also was active, and rose to 2 1/2. The feature after the Vanderbilt stock was New Jersey Central, which sold at 94 1/2. St. Paul, Northwest and Lake Shore were steady and strong, although Northwest in the earlier part of the day had been heavy, and declined. Reading was heavy. In the miscellaneous list Western Union fell to 3 1/2 upon the announcement of the general strike among the telegraph operators. Pacific Mail in the forenoon declined to 40 1/2. In the rally the highest point of the day was reached about four o'clock, after which prices fell off in a very quiet and dull market.

THE RED RIVER REBELLION.

A Canadian View of the Situation—The Story of the Rising—The Indians All Struck by Canada—The Rebel Flag.

(St. Louis, Dec. 31) Correspondence Toronto (Special). St. Louis, Mo., Dec. 31, 1869. Governor McDougall and party left here this morning for St. Paul. The Governor is, I think, somewhat nervous in the country, but he is not at all alarmed. So far as I can learn they sent him no instructions whatever while he was in Pembina, but he was given a letter from the Governor of the Territory, which was a very plain one.

In an interview with the Governor just prior to his departure this morning he stated that no systematic plan of operations was being pursued by the British or Scotch residents of the Territory. They were all in favor of Mr. McDougall and the Canadian government, and were ready to arm had they been called upon to do so.

When, however, the list of rights was promulgated by the French the British considered it only right to send a deputation to the Governor of the Territory, which their press just then to believe would be a deputation to the Governor of the Territory, and of course, would not be taken from them by our government.

On being informed of the action taken, fully expected a visit from the representatives of the French. He waited day after day, but no deputation appeared, and he felt that he was being deceived. He then changed his mind, and had come to the conclusion that he was being deceived.

He also informed that the French had been empowered to put in force against the British and others who had taken part in the trouble, Mr. McDougall had also said that his presence was not needed in the Territory, but that he would be glad to see them if they came.
