WALL STREET.

THE TEMPER OF THE STOCK EXCHANGE is a variable Zola, and blows hot or cold on the wind provocation. For a week past we have had the wind from the eastward, chilling and depressing, and the tender plant of speculation was blighted by its touch—to-day it breathes upon the market "like the sweet South," and everything springs into life again.

The London advices report consols steady and United States bonds strong at an advance of 1/4 per cent for 1867's and ten-forties. The rate of discount in the open market for three months' bills is still lower, coming at 1 1/2 per cent, or 1/2 per cent below the bank rate.

Although the entire market participated in the improvement which was instigated by the stocks we have named, the bulk of transactions was confined to the above specialties. Pacific Mail took the lead, opening at 20, and almost without a drawback selling up to 21 1/2 at the close; Lake Shore and Western Union followed at a respectful distance, the extremes of the former being 60 and 65 1/2 and of the latter 60 and 65 1/2, though both fell off 1/4 per cent at the close.

In spite of the hostile attitude of the Panama road and the industriously circulated stories of attachments against the steamship property, demand began to doubt whether there was not more jobbing than justice in the re-advance, and that, possibly, there might be "some fire in the old dog yet," which the approaching election and the money advances made by Gold in the extremity of a few days since might fan into new vigor.

There was nothing new to affect the price of Western Union and Lake Shore and they simply benefited by the reflected beams of the shining light of Pacific Mail. The coal stocks participated in the improvement, Delaware and Lackawanna closing at 10 1/2 and Jersey Central at 9 1/2, though both could be purchased at a concession of one cent on a sixty day option, a proposition that shows a doubt of these "beach diamonds" being the pure gems which past dividends have claimed them to be and suggesting the suspicion that they may be pasted after all.

Michigan struggled up half a point or so, but transactions were limited, now that the Hub of the Universe has bespattered New York innocents reserved for slaughter on some future day. The St. Paul stock did not escape the good feeling which pervaded the general market, and under its influence regained a portion of yesterday's loss, though dealings were not marked by any notable animation.

There is not much reliance placed upon to-day's rise as being gilded with staying properties; still, a fair amount of strength was exhibited, particularly in face of the rumors which prevailed concerning the state of Commodore Vanderbilt's health, which is said to be far from satisfactory to his friends.
