

THE CITY'S ROADWAYS.

Dangerous and Dilapidated Condition of the Pavements of New York.

FACTS AND FIGURES ON THE SUBJECT.

Repairs at Present Under Way—The Seventh Avenue Nuisance.

Never was there a time when the people of New York complained so loudly and with such good cause of the condition of their pavements as at present. When, after much exhortation and denunciation from the Herald, the officials were induced to remove from the streets the accumulations of ashes and garbage which had disfigured them for months, the citizens fondly hoped their troubles in that direction were over. When the pavement underneath was exposed, however, it was found to be in such a state of decay that it was necessary to go back again to the work of the 300 miles of paved streets in this city there probably is not to be found one eighth of a mile of continuous good roadway. In the last report of the Department of Public Works it was stated that immediate and efficient steps should be taken to renew and repair the pavements of many of the streets and avenues in the populous and business portions of the city. Such a course was declared necessary "for the interests of commerce, the health of the inhabitants and the credit and prosperity of the metropolis." The report further admitted that, while large outlays had been made in the construction of boulevards and paving the upper portion of the city in a substantial manner, the lower portion had been sadly neglected. "My attention," said the Commissioner of Public Works, "is almost every day called by merchants and others to the unsafe condition of these and to the absolute necessity of making prompt repairs of the pavement, so that traffic shall no longer be impeded."

THE FALLER ROOF.

A SEARCHING INVESTIGATION TO BE MADE—THE GOVERNMENT TO PAY THE FUNERAL EXPENSES OF THE VICTIMS.

In pursuance to Secretary Sherman's telegram the Postmaster yesterday selected a number of gentlemen, practical builders and architects, and who are well known in the community, to act as a commission to investigate the disaster. All of the members thus invited, consisting of ex-Senator William Lumber, builder, Theodore Weston, architect of the Equitable Life Insurance Company; David Jardine, architect; George H. Post, architect of the Western Union Telegraph Company; James C. Lowden, builder; Walter W. Adams, Superintendent of the Department of Public Buildings; William A. Getney, builder, and A. J. Campbell, of the Architectural Iron Works, promptly responded to the call, and held a meeting yesterday afternoon at the Post Office, in the Postmaster's room. Ex-Senator Lumber was chosen president and Mr. Theodore Weston as secretary. Secretary Sherman's telegram was read and the commission proceeded in a body to the scene of the accident, where a minute inspection of the roof, girders, trusses and rafters of every part of the building affected by the accident was made.

A VICTIM OF THE CHURCH PANIC.

On the occasion of the St. Francis Xavier Church panic Mary O'Connor, a woman of thirty-five, was so frightened and justly so in the wild rush to the door that she has been ever since prostrated by the shock her nervous system received. In fact every one who was in the church at the time of the panic has been so affected that they are unable to get on their feet. Mrs. O'Connor's case is a striking example of the effects of the panic. She was in the church at the time of the panic and was so frightened that she fell to the ground. She has been ever since prostrated by the shock her nervous system received. In fact every one who was in the church at the time of the panic has been so affected that they are unable to get on their feet.

SHEPHERD AND FOLD.

THE TROUBLE OF THE COLLEGIATE CHURCH—DR. LUDLOW SUPPORTED BY NINE-TENTHS OF HIS CONGREGATION—RUMORS OF A NEW CHURCH.

The trouble that has been occasioned in the Collegiate Church, owing to the arbitrary action of the vestry in dismissing Dr. James M. Ludlow, pastor of the church congregation worshippers at Fifth Avenue and Forty-eighth streets, some time since, has assumed a phase which may prove decidedly unpleasant to both sides of the controversy, involving as it may the disruption of the congregation and its division into two separate bodies.

TAMMANY BACKING THE ALDERMEN.

The Tammany Hall General Committee held their regular monthly meeting last night, Henry L. Clinton in the chair. The rules were suspended to admit the passage of the following resolution, which was unanimously adopted:

REMEDIAL JUSTICE.

Resolved, That this General Committee heartily indorse the action of the Board of Aldermen, so far as it has refused to receive the resignation of the Mayor in the important offices under the city government.

CONFUSION AND ANNOYANCE CREATED BY LEGISLATIVE BUNGLING—A DEMAND FOR THE REPEAL OF THE NEW CODE BILL.

The failure of several of the newspapers of this city to appreciate the recent action of the Legislature in reference to the regulation of the practice and procedure of the courts of this State is possibly due to the fact that it is difficult for the lay mind to fully apprehend the far-reaching effects of such legislation. For the purposes of this article only it will be admitted that the new code is a wise measure, and that the best interests of the legal profession and the people generally will be subserved by its enactment into law. Now, what was the situation a few days since, when the Legislature allowed to go into effect a law that repealed a large portion of the Code of Procedure, and left the balance of it in force, so that to-day the practice of this State is conducted under the fragments of two codes—some old and some new?

A NOBLE GIFT.

At the recent annual meeting of the Egglewood Presbyterian Church, Rev. Henry M. Booth, the pastor, read a letter from one of his parishioners, Mrs. Emily A. Brickerhoff, bringing news such as seldom comes to any church, and which will long be remembered by the many people who inhabit that beautiful hillside. Entering heartily into the desire which has latterly been felt that better accommodations should be had for the Sabbath school, the pastor, having quite a number of devoted and true-hearted members of the church, was enabled to secure a plot of ground on the corner of the street and the avenue, directly in line with the main church building and adjoining it at its southerly end, and to construct thereon a new and commodious school house, the main room to be 50x30, with two handsome parlors and a third room between can be used separately for the Bible and Sabbath school, and also for the purpose of a reading room, and the whole to be under the same roof with the main church building.

IDENTIFIED DEAD.

The body of Patrick Cusb, who has been missing for several months, was identified yesterday at the Morgue by his wife, who lives at No. 645 East Sixteenth street. He was seen last one day in November, when he went to take leave of a friend who was going to Europe. His body was found at the foot of Eighteenth street and North River yesterday.

THE MAYOR'S SECOND MINE.

ANOTHER NOMINATION FOR POLICE COMMISSIONER—SOME FURTHER BACK BY THE ALDERMEN—A PARK COMMISSIONER LIKEWISE REJECTED—FILLING VACANCIES IN THE DEPARTMENTS.

A special meeting of the Board of Aldermen was held yesterday afternoon. In view of the general understanding that Mayor Elihu P. Tammam had no intention of making any further nominations for the Police Commissionerships a large number of the members blocked up the entrances to the chamber.

FINING OUT ANOTHER POLICE COMMISSIONER.

When the usual routine business was concluded Clerk Maloney read a communication from the Mayor nominating Alexander Shaler for Police Commissioner in place of Joel B. Erhard, whose term of office has expired.

Alderman Purroy, who had vacated the President's chair when the name of General Shaler was read off, said: "Since the gentleman is deserted by his own party, no one present suggesting his confirmation, I move that his name be rejected."

Alderman Cowing moved that his party intend to desert General Shaler. He hoped that they would support the nomination of the Mayor. The speaker was aware that nothing he could say would have any effect with the majority of the Board. It would require a supernatural power to change their votes when a partisan issue was before them. Had he the eloquence of Cicero or the wisdom of Lycurgus he could not hope to cause such a revolution. He understood that there was only one man in the city who could make such a result. In the opinion of Mr. Cowing it did not make any difference whether or not the nominee was a democrat or a republican. Neither did the people care as to the politics of the officials. If Mayor Ely sent in a nomination for Police Commissioner, he would support him. The gentleman then reiterated his argument that the Police Commission ought to be a non-partisan body.

Alderman Purroy remarked that he had presented his views on this issue when the name of Isaac H. Bailey was sent to the Board. This nomination was concluded the Aldermen, but had been wrung from the hands of Mayor Ely. He shall, however, rise in my place again and again, and do all in my power to reject such a nomination. He then moved that the name of General Shaler was then rejected for Police Commissioner by a party vote of 15 to 7.

THE MAYOR'S SECOND MINE. The Mayor next enlisted the Board by sending in the name of Thomas J. Brown, Superintendent of the Erie Railroad, to fill the vacant position of Police Commissioner in place of Joel B. Erhard. Alderman Joyce—"I don't know this man and I cannot vote for him for that reason. We have enough names already in the Park Department. I will not vote for the name of Mr. Brown to be rejected."

Alderman Cowing contended that it was unjust and unfair to reject the name of Mr. Brown without first investigating as to his qualifications for the office. The Mayor should be treated with more courtesy and moved that the nominal list be carried over until Tuesday next.

Alderman Purroy's sympathy for Mayor Ely is something heartrending and altogether unaccountable. He has been so long in the saddle of a republican sympathizer with a democratical bias, that he has become a democrat himself. After some further sparring of a similar description, Mr. Brown's name was also rejected by a vote of 15 to 7.

CONFIRMING THE COMMISSIONERS. The following gentlemen were confirmed and voted for by the Mayor: Police Commissioner—George H. Andrews, Commissioner of Charities and Correction—Thomas S. Brennan, Health Commissioner—Charles F. Chandler, Dock Commissioner—Jacob Vanderpool, Messrs. Andrews, Tappan, Brennan and Chandler were then sworn in by the Mayor. Mr. Brennan was sworn in by the Mayor, and Mr. Vanderpool was sworn in by the Mayor.

THE MAYOR'S SECOND MINE. Mr. Joseph Southworth, chief of the Statistical Bureau, was next called in and sworn in. He was sworn in by the Mayor, and Mr. Southworth was sworn in by the Mayor.

THE MAYOR'S SECOND MINE. The collector, surveyor and fiscal officer were directed by the Mayor to examine with care and advise them which department and sub-division, of their own knowledge, information and belief, they considered to be the most in need of reorganization, and to report thereon to the Board of Aldermen, so far as it has refused to receive the resignation of the Mayor in the important offices under the city government.

REMEDIAL JUSTICE. Resolved, That this General Committee heartily indorse the action of the Board of Aldermen, so far as it has refused to receive the resignation of the Mayor in the important offices under the city government.

CONFUSION AND ANNOYANCE CREATED BY LEGISLATIVE BUNGLING—A DEMAND FOR THE REPEAL OF THE NEW CODE BILL. The failure of several of the newspapers of this city to appreciate the recent action of the Legislature in reference to the regulation of the practice and procedure of the courts of this State is possibly due to the fact that it is difficult for the lay mind to fully apprehend the far-reaching effects of such legislation.

CUSTOM HOUSE INVESTIGATION.

MYSTERIES CONCERNING THE WEIGHTS DEPARTMENT LAID BARE—SEVEN WEIGHTS AND ONE HUNDRED MEN MIGHT BE DISPENSED WITH.

The commission assembled yesterday on time, all the members being present. Mr. John Jay presiding. Assistant Auditor Jacobs was recalled and examined. His testimony tended to give the practical working of the division, and related also to the present building office. On this score he said that the present building had been rented from the Post Office for \$200,000 per annum. It proved to be unprofitable to obtain a better building for the price. The building has been ten years for three years from the last that there were four gentlemen employed in his division over whom he had no control. These gentlemen prepare statistics for the Treasury Department at Washington and for various newspapers. Their appointment came direct from the Treasury Department, and these men had also been exempted from the general reduction of ten per cent made on all salaries prior to last July by special orders from Washington. Mr. Southworth is the head of this bureau. A roll of the clerks of this division was exhibited by Mr. Jacobs to the commission; Mr. Jacobs likewise had a copy of complaint made by the Collector for inefficiency of the part of a clerk in this division was promptly followed by the removal of the man. There was no stenographer in that department.

MYSTERIES OF THE WEIGHTS DEPARTMENT. Mr. Frank G. Wentworth was next sworn, and his statement was to the effect that he was permanent of the Weights' Department, and it was impossible for his bureau to make any mispayments. He paid the employes in person, except where one was sick, then money was handed to the wife or child. And again, where cases arise that gangs of men are working in remote parts, say in Williamsburg, and it would be detrimental to the service to take the whole gang from their labor one-half of the force is paid on coming to the office and the balance is sent to the men who do not come. Mr. Wentworth knew of any gang being paid on the payroll who do not work the witness testified, and finally said, "I presume the next question will be 'where are they?'"

Mr. Wentworth—"I want to know about the system of paying the men who do not come to the office. I want to know the question raised differently. Mr. Jay—Do you think the services of a portion of the force could be dispensed with without injuring the service? Witness—Do you mean that the force could be reduced to 100 men? Mr. Jay—We don't understand your testimony, Mr. Wentworth. Have you heard of any men being paid who do not work? Witness—There are some who do not work, and some who do useless work, such as walking around the district.

THE MAYOR'S SECOND MINE. The collector, surveyor and fiscal officer were directed by the Mayor to examine with care and advise them which department and sub-division, of their own knowledge, information and belief, they considered to be the most in need of reorganization, and to report thereon to the Board of Aldermen, so far as it has refused to receive the resignation of the Mayor in the important offices under the city government.
