

4TH NOT TO GO TO MEXICAN BORDER

Col. Jannicky's Regiment Has Not Checked Up Equipment.

STATE QUOTA COMPLETE

First Motor Battery Also to Remain at Home, Having No Army Complement.

The Forty-seventh New York Infantry, encamped at Peekskill, will not be ordered to the Mexican border. This, it was learned yesterday, has been definitely decided. There are two principal reasons for this decision. One is the delay caused in checking up the equipment of the regiment and comparing it with the amount originally received, and the other arises from the fact that New York State's quota of militia, with the exception of three small units, has already been sent on route to Texas.

The specific terms of the equipment problem of the Brooklyn regiment concern, it is said, the neglect to take adequate care to check up and account for the equipment. Col. Jannicky is not blamed personally for this state of affairs. Adjt. Gen. Stobersberg, however, will continue his investigation until the whole matter is cleared up.

Although headquarters of the Eastern Division at Governors Island last night had no direct knowledge of the affairs of the Forty-seventh, the Eastern division guardmen mustered into Federal service had in many instances not yet received their pay, with the statement that the pay would be forthcoming in due time so soon as the multitude of details could be disposed of.

Major Gen. Wood announced that 54,460 militiamen from the Eastern department were either at the Mexican border or en route. In the States concentration camps there are being held approximately 25,000 men who have been mustered into the Federal service. There are yet 35,000 more men to be entrained for the border before the first orders of the War Department are filed.

Col. Noyes, head of the militia bureau at Governors Island, said last night that the First Motor Battery of the New York guard, organized as a separate unit, could not be recognized by the War Department because the law does not permit it to enroll an organization which has not a complement in the regular army.

Regarding the report that Kentucky National Guardsmen were without clothing, due to a shortage in the supplies furnished by the Government, Col. Glenn, chief of Gen. Wood's staff, said he had heard nothing of the report.

DEMOCRACY CAMP KEYNOTE.

Society Folk and Working Boys Mingle at Fort Terry.

CAMP WASHINGTON, Fort Terry, N. Y., July 16.—Special bands were run from Greenport and New London today and 1,200 vacationers were headed quarters to allow the visitors to land. The weather was ideal.

A combined service was held on the parade grounds this morning for all the cadets, conducted by Father Frederick Hill of the Kent School. Music was furnished by an orchestra of officers and sergeants. The service was a religious national communion service was held.

The Fort Terry band gave two concerts in the afternoon for the benefit of the boys and their families, one of which the cadets were permitted by military regulation to enjoy a swim. The usual services were held in the evening at the Y. M. C. A. headquarters. The Rev. C. B. Ogilby of Baginco, Philippine Islands, has accepted the position of camp chaplain and will cooperate with the Y. M. C. A. as chairman of the religious work committee.

Democracy is the keynote of Camp Washington. Alongside of the society and the working boys, even if the boys from the endowed preparatory schools of the East are hundreds of boys from the city and country high schools and trade schools. Lieut. Samuel Frongiam of Lenox, Mass., in command of Company F, has paid the expenses at the camp of ten working boys of Lenox.

CASTRO HELD AGAIN AT ELLIS ISLAND

Excluded by Special Board After 30 Minutes—On Way to Porto Rico.

Gen. Cipriano Castro, ex-boss of Venezuela, who arrived here on the steamship Yauaban with his wife and was taken to Ellis Island yesterday with 136 immigrants who had come from South America in the steamer, was excluded by a special board of inquiry, which took fifty minutes to consider his case.

The little man took calmly the announcement of the special board. He is a Commissioner Howe for an indefinite time, and then dictated in Spanish to the reporters what he thought about the subject, saying he believed his case was definitely adjudged in the year 1913, when I was here before, and that inasmuch as the decision of a distinguished court was in his favor, he had relied on his right to come in this time without being held at Ellis Island.

Finally, the General said he was not coming here a third time, even if another court should set him free, as he did not wish to "annoy the authorities that had made up their minds to close the ports of America to me." He was observed after his release before that the American people seemed to regard him favorably. He would appeal from the decision of the special board to the Secretary of Labor Wilson, and if the Secretary ruled against him he would hire a lawyer, as he did before. Meanwhile he will occupy with his wife two good rooms, used normally by Commissioner Howe, until he is let in or let out.

The General is puzzled to know what has happened to his interests in Porto Rico, where most of his family is, if he is excluded from the United States and Porto Rico is counted among them. The reason he came to New York was merely to get to Porto Rico, being otherwise unable to reach the island from Trinidad.

HYDROPLANE APRE IN RACE.

Thrill Provided for Thousands at Atlantic City.

ATLANTIC CITY, N. J., July 16.—After a thrilling race between H. J. Horner of Philadelphia in his hydroplane Fifty-Fifty and Aviator E. K. Jacquith in a new flying boat at the Inlet today the speed boat caught fire and was slightly damaged when a spark ignited leaking gas from the carburetor. Both Horner and his mechanic put on the race and fought the flames with fire extinguishers.

Thousands of people at the Inlet and Atlantic City were watching the race and became excited when the fire ended the affair. Jacquith planned down to the sea and stood by ready to rescue the men in the boat.

city of an active campaign against the bandits "to prevent their reaching United States forces and border."

CARRANZA PLOT GROWS.

Revolutionary Generals Marching to the North: Villa Proclaimed Hero.

EL PASO, Tex., July 16.—Preparations are being rushed by Gen. Jacinto Trevino and allied military chieftains in northern Mexico to bring about the revolt which is to result in driving Gen. Carranza and Obregon out of Mexico and establishing a Government which shall be representative not only of Mexicans now in the republic, but of the thousands of ex-patriots, rich and poor, now in the United States and other foreign countries.

This was the word brought to the border to-day by arrivals from Chihuahua city, who gave details of the alleged plans of Gen. Trevino, Murguía, Nafarrete, Calles and others were rapidly becoming public property in northern Mexico. There was widespread dissatisfaction, the arrivals said, with the dictatorship of Carranza, which the common people hold responsible for the failure of the nation to recover from its revolutionary suffering and for the presence of American troops on Mexican soil and the general condition of destitution.

Men who see their families starving to death are ready to attempt any desperate enterprise to bring about a change.

TO CONTINUE REVOLT.

The northern Generals, according to these informants, have pledged their lives not only that the revolution will be successful but that it will be accomplished within a month of its inception and with little or no bloodshed. The fact that the northern leaders control four-fifths of the available fighting forces of the nation is accepted as a guarantee of the success of the project. By merely showing down their cards before Carranza and Obregon they believe they will be able to force the hands of the Government into exile without firing a shot.

Before launching the plan, however, they desire to perfectly organize their forces and to receive from the Científicos in the United States such financial support and such assurances as to their future behavior as will make certain the future steps, the arrivals said.

According to all the information received concerning the much discussed movement, it is not the intention of the former aristocracy to unhampered power, but to allow all classes to return to Mexico to rebuild their shattered estates on an equality with other citizens under the restraining influences of remodelled laws.

LOOKS FOR LARGE LOSS.

It is understood the Científicos are willing to make a large sacrifice in the proposed new Government if Francisco de la Barra be elected President. Senor de la Barra, while commonly called a Científico, has not incurred the odium which the middle and lower classes in Mexico have come to attach to that word. He has rather played the part of an intermediary, occupying a middle position between the Científicos and the common people.

It is not known whether Mr. de la Barra has been consulted regarding the

ROOKIES HAVE DAY OF SIGHTSEEING

Some Go to Montreal to See the Canadian Soldiers Train for War.

PLATTBURGH, July 16.—To-day was the first Sunday for the members of the Sixth and Seventh training regiments in the camp of military instruction, and the majority of the business and professional men made the most of it by visiting points of interest. Many spent the day at Ausable Chasm, while others went to Montreal, where they visited the concentration camps of the Canadian soldiers who are enlisted for overseas duty.

All of the churches of this city were well filled with the men wearing the olive drab uniform of the "rookie" soldier. The men of the camp were permitted this morning to sleep half an hour later than on week days, but they were out of their cots at 8:15 and at 7 sat down to a breakfast of oranges, oatmeal, pork sausage, browned potatoes, bread, butter, coffee and milk.

The midday meal consisted of soup, roast veal, gravy, creamed potatoes, string beans, chow chow, ice cream, cake, bread, coffee and lemonade. For supper the "rookies" got cold meats, salmon salad, bread, jam, butter, coffee and cold tea.

BANDITS NEAR BORDER.

Fanatic Strengthens Patrol—Villistas Cut Near Off.

SAN ANTONIO, Tex., July 16.—Accounts of increased numbers of bandits in northern Mexico, south of the Big Bend district, and repetitions of reports of Villa's growing strength were the outstanding features in official and unofficial information that reached Gen. Funston today. Under his direction the strengthening of the border patrol, especially in the Big Bend country, was continued.

Forty-two troops today had taken stations along the Rio Grande south of Marathon, and a squadron of Texas cavalry reached Marfa, from where it will be sent to the border.

Gen. Pershing reported that from Mexican sources he had been informed that among the recaptured Carranza prisoners there were seventeen whose right ears had been cut off by Villa's men. Reports from the Big Bend district were that at various places not far south of the border small groups of bandits were operating, although there was no evidence that any of them were planning an early raid into American territory.

TO NOTIFY WILSON AUGUST 5.

Democratic Leaders Plan Big Ceremony at Long Branch.

WASHINGTON, July 16.—Democratic party chieftains are planning on a huge scale for the notification ceremonies which will take place at Shadow Lawn, the President's summer home at Long Branch, N. J. Intimations were given today that the notification ceremonies this year will be much more than the usual formal ceremony of the past. The date was tentatively for August 5, one week after the Hughes notification. The President's speech will be the feature, but there will be a resounding of heavy party artillery generally. Formal announcement will be made to-morrow by Chairman McCormick.

WAR ON UNWEIGHED ICE.

Haritan Files 208 Complaints, With Criminals Just Begun.

A crusade conducted by Joseph Haritan, Commissioner of Weights and Measures, against ice dealers who do not sell ice by weight or who use crooked scales has resulted in the filing of 208 complaints for civil and criminal violations of the law.

"Ice is a commodity which should be bought by weight," Commissioner Haritan said yesterday, "and the sooner people change their habit of buying carelessly, the benefit will be theirs. The larger dealers have ordered their drivers to use scales in all transactions. The crusade is being directed to the ice cellar retailers as well as to ice wagons. In the summer of 1915 225 penalties of \$50 each were paid by ice dealers for disobeying the law."

DRYS BOOMING SULZER.

Prohibition Convention's Chairman Says He Will Be Nominated.

ST. PAUL, Minn., July 16.—With the arrival here to-day of Eugene W. Chaffin of Tucson, Ariz., the boom for the nomination of William Sulzer of New York for President by the national Prohibition convention, which opens Wednesday, took definite form and indications of a brisk fight for control of the organization came to the surface.

A coalition of the Prohibition party with the remnant of the Progressive organization, which has been summoned to a national convention in Chicago August 5, being urged.

Chaffin, who is declared tonight that Sulzer would be nominated on the first ballot. The view is not shared by others of the party leaders who are here to-night.

U. S. URGED TO TAKE OVER RAILROADS

Troop Trains Tie Up Traffic and Funston Is Asked to Act.

HEADQUARTERS NEW YORK DIVISION, McALLEN, Tex., July 16.—The movement of troop trains over the Gulf coast lines from San Antonio to the border has so congested freight traffic that a recommendation has been made to Gen. Funston for the Government to take over and operate the St. Louis, B & M. road.

Troops entrained for Brownsville and up the San Foye branch for Mercedes, Donna, McAllen and Mission have fairly demoralized the traffic, and the question of supplies, while not as yet serious, since the army quartermaster depot have been able to supplement staples with fresh meat by express, threatens to become so quickly.

The Second New York Field Artillery, under Col. George A. Wingate, arrived in McAllen in the course of the night and detrained today. The First Minnesota Infantry, the First Minnesota Field Artillery and the Fifth Nebraska reached Mercedes to-day, where the equivalent of a division from various States is being concentrated.

The forces dependent on this railroad line will reach 40,000 under Brig. Gen. James Parker, U. S. A. along exclusive of the New York division and if they are maintained here for any length of time it is held to be probable that considerable numbers of the Gulf coast lines may have to be double tracked.

Major Gen. O'Ryan with Majors Edward Ometstead and Cornelius Vanderbilt motored to Brownsville to-day to return the call paid by Gen. Harker on the day after Gen. O'Ryan's arrival at McAllen. They were entertained at luncheon by Gen. Parker at the Brownsville Country Club.

Prof. Hine, who, in addition to his duties with the State Board of Education of Connecticut, is an instructor at Yale, is favorably impressed with the training methods of training with the view of the young men recruits at the camp, which has been on duty at Tobyhanna, Pa., arrived at the camp for duty this morning and will be followed in the week by two additional companies from the same branch of the service. The arrival of the 18th Company brings the total number of coast artillerymen at the camp to more than 1,000. Capt. Behr and Lieut. Small are in command of the company.

WAGS BUT THEY ARE ROUGH COUNTRY

Animals and can be depended upon to forage for water when on the march. With their arrival every other dog, including the Colonel's veteran bull terrier, Hardack, is to be evicted from camp, and the Alredades are to be locked up in the daytime in a special corral.

George Perkins, Jr., Arrives.

George Perkins, Jr., of New York arrived at McAllen today to take charge of the Y. M. C. A. work in the camps of the division at Mission, McAllen and Pharr.

The mail of Col. Pike is reaching big proportions. A letter has just reached him which was addressed to "Col. Willard C. Pike, with the Seventh Regiment, Somewhere on the Border Line." It was in dainty feminine handwriting and came from Rockville Centre, L. I. It said:

My Dear Col. Pike—I am enclosing some pictures taken of the Seventh's boys on the morning of their departure. There is a cross over one of them, and if it is possible will you please deliver the accompanying letter to him? If he is not recognizable just return the letter, please. That's all.

The officers of the Seventy-first celebrated the fifty-eighth birthday of Col. W. G. Bates to-day. They foraged all over the countryside to get up a suitable dinner, and were able to place before the Colonel and themselves a split pea soup, roast chicken, cabbage au cochon, roast potatoes, green corn, apple sauce, devilled eggs, cantaloupe, ice cream, soda water, cigars and cigarettes.

CATHOLIC LEGION MEETING ON.

The sixth biennial State convention of the Catholic Benevolent Legion will be held to-morrow in St. Mary's Hall, 151st street and Melrose avenue, The Bronx, with representatives present from 150 councils, having a membership of 16,000. The sessions will continue through Wednesday. The formal opening of the convention will be marked by a solemn high mass in the Church of the Immaculate Conception, the Right Rev. Mar. Money as celebrant.

CAMPAIN FOR BLIND FUND.

The Societies for the Relief of the Deaf-Blind will open a two weeks campaign to-day to raise sufficient funds to open its new home, at 133rd street and Grand Concourse, free from debt. The site and building when completed will cost approximately \$400,000, and contributions should be sent to Lewis Spencer Morris, treasurer, at 32 Liberty street.

ATLANTA, Ga., July 16.—Serious floods

in North Carolina, South Carolina and Virginia to-day caused five known deaths, made hundreds homeless, damaged property and crops to the extent of \$10,000,000, according to first estimates, and demoralized railway, telegraph and telephone communication. The rainfall has been unprecedentedly heavy.

The French Broad River has broken from its course near Asheville, flooding factories and homes in the lower part of the city. At Biltmore three persons, Capt. J. C. Lips, Miss Nellie Lips and Mrs. Leo Mulholland, drowned when the lake house was flooded.

Miss Mabel Foster, 24, and Miss Charlotte Walker, 28, nurses at the Biltmore Hospital, who first were reported rescued in this section. Late home early to-day, are missing, it was said late to-night. They had spent the night at the lake house.

The village of Biltmore property loss, including woodworking plants and lumber yards, was placed at \$300,000. Whether the large Vanderbilt estate had been damaged could not be learned because of its being cut off from here by floods, but persons familiar with that section thought the Biltmore nurseries must have suffered heavily.

Hendersonville reports placed the property loss in Henderson county at approximately \$1,000,000. The Southern Railway was the heaviest sufferer of any corporation in this section.

Property loss in cotton mills, wood-working plants and lumber yards along the French Broad and Swannanoa rivers was estimated at about \$1,500,000 to \$2,000,000.

Eighteen men, fourteen construction officials and employees of the Southern Railway, and four members of the Western Union Telegraph Company are missing and are believed to be either drowned or marooned in trees on the Catawba River about twelve miles from Charlotte.

FIVE KNOWN DEAD IN SOUTHERN FLOODS

Property Damage of \$10,000,000 Reported in the Carolinas and Virginia.

Atlanta, Ga., July 16.—Practically all railway traffic in southwest Virginia and east Tennessee was tied up to-day by washouts and slides resulting from the heavy rains of the last week. Many bridges have been carried away by swollen creeks and rivers, and heavy crop damage has been reported.

RAIL TIEUP IN VIRGINIA.

Many Bridges Carried Away by Swollen Streams.

ROANOKE, Va., July 16.—Practically all railway traffic in southwest Virginia and east Tennessee was tied up to-day by washouts and slides resulting from the heavy rains of the last week. Many bridges have been carried away by swollen creeks and rivers, and heavy crop damage has been reported.

On the Norfolk and Western near Radford, Va., the junction point for the New River division, about five miles off trackage is reported washed away. The Memphis special, Washington to Memphis, which arrived here at 11:05 this morning, was stuck in Roanoke late to-night, but officials announced they hoped to get it away before morning.

ASTORS SEE AERO TESTS.

They Visit the Aviation School at Bay Shore.

Bar Storer, L. I., July 16.—Mr. and Mrs. Vincent Astor in their yacht Myrtle II, visited the Federal Government aviation school here to-day. They watched tests for several hours. Lieut. Harris and Ensign Pierce tried out Mr. Astor's hydroaeroplane, making a flight and alighting on the water about a mile out. Mr. Astor then took his yacht out and towed the hydroaeroplane to shore.

Saks & Company

34th Street and Broadway Phone Greeley 2626

Special Offerings for Men To-day

Beginning today and continuing all week

A Sale of Men's Oxfords at Greatly Reduced Prices

Every pair of Oxfords in our regular stock included, at the following sharp reductions:

Oxfords... formerly sold at \$9... reduced to **\$6.85**
 Oxfords... formerly sold at \$7... reduced to **\$4.85**
