

SAINT MARY'S COLLEGE AND ACADEMY

Monroe Michigan

For Young Women and Girls

The aim of the school is to train the Christian young woman, not only in those branches of education common to all High Schools and Colleges but to discipline the heart as well as the mind, to give her a practical knowledge of the social activities that tend towards making the happiness of the home. The development of the individual is never lost sight of, personal attention is considered to be of absolute necessity, as only under its fostering care the soul can grow, and when there is no growth of soul there can be no education.
