"I know no better school in which to learn the world and at the same time serve city and nation and give education and earning power to the people associated with one to enable them to live useful lives."

"When people get down to the fact that principles are essential for safe foundations they will not justify practices that consider only the ways that yield the quickest and largest returns in dollars and cents."

HOTEL HEADS SEEK REAL FOOD SAVING

Definite Plan to Be Discussed With Hoover Representative To-day.

Representatives of the hotel, restaurant and dining car service interests have advised Herbert C. Hoover, National Food Commissioner, how they can aid in the food conservation campaign. The best of their suggestions will be embodied in a plan of economies applicable to all.

Thomas D. Green, proprietor of the Hotel Woodward and president of the Hotel Men's Association, who was among the delegation of New York hotel men and restaurateurs which conferred with Mr. Hoover, brought back from Washington yesterday news of this programme. Mr. Green and John McE. Bowman of the Biltmore, chairman of the food committee, will meet to-day in this city with Mr. Hoover, Mr. Hoover's representative.

"Mr. Hoover doesn't want to save food, but absolutely necessary food-stuffs," Mr. Green said. "He doesn't believe in false economy. The hotels are trying to do something and it is an honest effort on our part. Mr. Hoover evinced a great desire to work with us and we want to help in conserving those things that are necessary for the success of the campaign."

Dr. Charles L. Slattery, rector of Grace Church, Broadway and Tenth street, has responded to the appeal made by the Department of Food Administration to churches and Christian leaders by sending a letter to his parishioners in which he suggests:

"That all alcoholic beverages be banished from your tables until the war is over, and that you refrain from their use."

"That the number of courses for family luncheons and dinners be limited to three; for entertainment to four."

"That every one by his own hands increase the food supply of the country by such gardening as is possible."

The "Save the Surplus" special of the New Jersey Agricultural College and the Lehigh Valley Railroad will be at Irvington, N. J., to-day; West Elizabeth, N. J., to-morrow; the Weequahic Park station, Newark, Saturday, and the Lehigh Valley Grand street freight station in Jersey City Monday.

Demonstrations will be given in practical canning, preserving and drying work at 2:30 P. M. and 7:30 P. M. by members of the home economics department of the college. The special will make stops at important towns in New Jersey and Pennsylvania daily during July and August.
