GARY SCHOOL WINS COLONEL'S PRAISE

Work Enables Development of Child's Utmost Capacity. Says Roosevelt.

LAUDS MANUAL LABOR

Vehemently Asserts Attack on System Is Chicanery and Pretence.

Col. Roosevelt visited the much discussed Gary school in The Bronx yesterday and gave it his full indorsement as a school in which children get a broad training, enabling them to rise to the highest point in American life.

It took the Colonel just one hour from the time he got out of his car to see everything there was in the school—taking in the various points of the curriculum with a glance and then hurrying on to something else which he likewise absorbed in a moment—finding time on the way to make a few remarks with a few remarks on American life in general and the "selfish pretence" of the Hearst newspapers in particular in claiming that the Gary school degrades boys and girls of fitness for the higher life.

Announced at Brance

One of the first things which he saw when he entered the office of Principal Mari. Before he began his tour of the building, he was met by a group of men. Mari called his attention to it. Col. Roosevelt for once seemed speechless.

Views Modelling Room

The modelling room, where youngsters were moulding clay that later was to be baked and painted, next attracted his attention. He was interested in the photograph taken. He was interested in a youngster in front of him that he hadly straightened up in time to get to the assembly room where the United States children sang "America" and made his comments on it.

Also Values Book Learning

Col. Roosevelt showed that he did not undervalue the advantage of what used to be called "book learning." An English carpenter was introduced to him in the carpentry room where the boys were working. He pointed out that they got home the conveniences at home they have in the school for domestic science work and when informed that the training is adapted to suit their home life.

Urges Organized Play

"In a perfectly simple company, community you don't have to organize anything more than you have to have a paid fire department and sewerage system, but the government of a city like New York which doesn't organize play for its children on the general lines of these schools is back in the unlighting stone age of civilization and is acting just as if it refused to have a sewerage system and a paid fire department."

FOUR GIRLS SLASHED BY WALL'S RIPPER

Man Arrested by Police After Struggle—Says "Mystic" Influenced Him.

WAS IMPELLED TO KILL

Victims Not Seriously Injured, but May Be Disfigured for Life.

The sex lunatic, that type of degenerate who thrives on rare occasions into a mad and maniacal or Jack the Ripper, was arrested yesterday in the Wall Street district during the lunch hour yesterday and slashed four women in the course of an hour with a small kitchen knife purchased a few weeks ago under a "compelling mystic influence" that urged him to kill.

The lunatic—Antone Karasneki, 34 years old and for the past six weeks a lodger at 137 East Fifteenth Street—was questioned for four hours at Police Headquarters, following his arrest at Broadway and Wall Street after the fourth woman had been slashed and told a fantastic tale of mystic influences urging him to murder which had driven him for fourteen years. His story was told to Police Inspector Joseph J. McGuire, and several detectives.

Slasher Identified

Karasneki was first taken to the station and identified by Miss Riley, who was taken from there to Centre street headquarters for his four hour session with Inspector McGuire. Karasneki, who was born in Lukow, Poland, married Barbara Karasneki in 1905, and left Trieste for this country aboard the steamer "Carnegie" in 1907, and has since then lived in New York.

ARMY ORDERS

WASHINGTON, Nov. 2.—Three new orders were issued today by the War Department. One is a detailed order of the general staff corps and an assistant to chief of staff.

Political Meetings Tonight
