Senators Will Trace All Groups of Possible Beneficiaries.

ACREAGE PRICE DOUBLED Lenoot in House Speaks of Looting of Treasury in Discussing Disclosures.

Special Dispatch to THE SUN. WASHINGTON, Feb. 11.—The Senate Committee on Commerce has determined to make the most searching investigation of the Hog Island shipbuilding situation. Disclosures made before the committee by witnesses of the highest creditability have convinced the members that only by the exercise of every possible power of authority at their command can the public be satisfied with the conditions existing in the Delaware River project, where seemingly the United States Government is about to find that it must spend at least \$50,000,000 more for Government and civilian experts previously estimated an expenditure of only \$10,000,000 would have sufficed.

GERMAN TELLS PLANS FOR DRIVE IN WEST

"Our Back Is Free; God Help Albin," Says Major Oiberg. Open prophecy that Hindenburg would undertake a great general offensive in the west springing in an endeavor to break the British and American lines in Berlin last month in a public lecture by Major von Oiberg of the German General Staff before the German Colonial Society. According to an account of his address printed in German newspapers which have reached here, Major Oiberg said that he was sure that the British and American lines would be broken in the "year of decision." Germans were to turn their eyes and hearts to the west front from Flanders to Venetia, and to the German negotiations in the east, the outcome of which was "militarily without importance."

CONGRESS INQUIRY ASKEE

Representative Parker Demands Reason for Failure to Put Names on Tags. WASHINGTON, Feb. 11.—As the War Department slowly refines the errors in the cable transmission of the names from London of the Americans who were on the Tuscania when the transport was torpedoed on the northern coast of Ireland last Tuesday, it is becoming possible to clear the lists of missing and survivors and to determine those actually lost and those saved.

The list of American soldiers who were on board the Tuscania and have not been reported rescued now stands at 346, although it is certain that about 500 of these and probably more are still alive.

Germans Working feverishly for Great Spring Offensive on British Front.

TENSION IS TIGHTENING

Ominous Quiet as Grip of Snow and Mud Varies Under Sun's Sway. BY THE ASSOCIATED PRESS. WITH THE BRITISH ARMY IN FRANCE, Feb. 11.—The tension along the British-German front is tightening. As the extraordinarily bright, mild weather has continued to dry out the sodden fields, the two great armies have become more alert.

The inertia of the days when the western theatre was held in the grip of snow and impassable mud has disappeared, and the contending forces are poised, watching each other like duellists for the first move, which will mean that the most sanguinary period of the war has begun.

FOOD HOARDERS IN BRITAIN DISGORGE

Large Stocks of Comestibles Being Received by War Hospitals. LONDON, Feb. 11.—The week of grace granted to food hoarders by the Food Ministry has been a success. Foodstuffs are permitted to notify their local food committees, which will take an inventory, remove the excess stocks and distribute them to the war hospitals. The Ministry's act was for the purpose of equipping the distribution of essential and to give a chance to all to share alike. The first day's results were negative, no hoarding to any great extent being revealed, although a great number of letters were received from food committees asking advice relative to stocks held. The difficulty the Ministry has in deterring hoarding was expressed by a certain high official as follows:

"With the present shortage of essential, when the people are living from day to day, a declaration by the Ministry of a period of grace would cause a rush for stocks which would cause part of the population to be left without the necessities of life. The question of hoarding has been left to individual discretion or to the judgment of local food boards. In consequence there has been a great number of letters from the public, who for years have been in the habit of keeping large stockpiles of foodstuffs, asking for advice on the subject. The Ministry has been unable to do more than to advise the public to share alike.
