### Germans Claim Complete Success Over Americans

AMSTERDAM, March 3.—Complete success in the attacks made upon the American troops along the French front is asserted in the German semi-official supplementary war report relating to the fighting from March 1 to 3. The report says: "Northeast of Seicheprey our storm troops gained a complete success against the Americans. After a brief, strong preparatory fire our troops have penetrated the enemy's position to a depth of 500 yards. They rapidly broke the American resistance, returning with twelve prisoners and two machine guns. The losses of the Americans were extraordinarily high in the brief preparatory bombardment."

By the Associated Press.  
AMSTERDAM, March 3.—There has been extensive artillery activity along the German sector on the Toul front since yesterday's attack was repulsed. The enemy, apparently angered by his failure to punish the American troops with a deluge of shells, but not a deluge has been done. Two thousand shells of all calibres were counted by the Americans yesterday until noon to-day, while ten inch shells battered towns behind the American line.

American infantry and engineers who had been cleaning up the scene of the fight on Friday found some bodies buried. Among them was a surgeon, whose body was found and a stretcher bearer, who was killed when a shell struck a first aid station.

Another German prisoner has been captured in the American zone. He was captured for many hours before the Americans discovered him and shot. The prisoner was taken to a patrol post and brought him in.

Some of the German prisoners taken during the fight has since died. Among the German dead who have been buried were the lieutenant captain leader of the attack. The latter was taken from the American wire entanglements, his body was found a complete plan of the American position.

Some of the prisoners had seen any German tanks, they said. All added that they saw no German tanks, especially the Americans, because they believed they would be well hidden. The prisoners' accounts showed that the German tanks were in the sector opposite the American position, which was commanded by Gen. Stalder.

The correspondent talked with a dozen American wounded in their hospitals. Every one who has been taken to a hospital has said that he was not killed by the Germans, but that he was wounded by the shells. He said that he was not killed by the shells, but that he was wounded by the shells.

I got into a machine gun position with another corporal and a private. We were in a trench. Things got so hot we decided to go to a steel shelter at the rear of the trench.

Porto Rico Becomes "Dry."  
Anti-Liquor Law Effective at Midnight Last Saturday.

San Juan, Porto Rico, March 3.—Porto Rico went dry at midnight last night. This followed an act of Congress which prohibits the importation, manufacture, sale or gift of intoxicating liquors or drugs. A local law permits the manufacture and sale of beer containing not exceeding 2-1/2 per cent of alcohol.

Many cases were closed earlier than usual last night, and the closing of the last of the distilleries liquor stocks.

## 5 AMERICANS KILLED, 9 WOUNDED, IN FRIDAY RAID IN TOUL SECTOR

Lieut. Eadie and Four Men Fall in German Attack—4 Die in Other Engagements; 2 Succumb to Injuries and 5 to Disease.

EDADIE A FOOTBALL STAR.  
Young Officer Killed at Toul Also on Dartmouth Ball Team.

Tilton, N. H., March 3.—Lieut. Harold F. Eadie, reported killed in action north of Toul on March 1, was formerly quarterback of the Dartmouth College and Phillips Exeter academy football teams and also a member of the Dartmouth baseball squad. He was the only junior at Dartmouth chosen to the Reserve Officers' training school at Plattsburg, all the other selections being from the senior class in accordance with a War Department ruling. A commission as second lieutenant was awarded him and he went to France with New England troops.

Lieut. Eadie was 24 years old. He was a student in Wesley College of Tilton, a student in Wesley College of Tilton.

Special Despatch to The Sun.  
WASHINGTON, March 3.—The War Department made public to-night the announcement that the ordnance bureau has developed bullets of three types for use of airplane fliers, which equal in quality anything which our allies or the Germans have produced.

Projectiles made necessary by the development of airplane construction. As the present war brought forth a new kind of ammunition for airplane use in the form of special cartridges containing incendiary and armor piercing bullets, the ordnance bureau has developed three types of projectiles for use of airplane fliers, which equal in quality anything which our allies or the Germans have produced.

## STATE FACTIONS ROOSEVELT OUT TO DAY, LOSES LOYALTY FIGHT LEFT EAR'S USE

Republicans Need Harmony to Stifle La Follette in Primaries.

COULD ELECT SENATOR  
Chance Is Being Thrown Away in Favor of Democratic Victory.

By a Staff Correspondent of The Sun.  
MADISON, Wis., March 3.—There's a hurry up job out here in Wisconsin for young Mr. Will Harmonizer Hays of Indiana. With a United States Senatorship almost in their grasp, the Republicans are acting pumb foolish in a situation which will stand nothing except horse sense.

They are doing their best to quarrel away their great opportunity to cook La Follette's goose in their own primaries on March 19 and to wrangle themselves out of a victory over the Democrats and Socialists in the special election on April 2 for an interim Senator to succeed the late Paul O. Hastings.

Their quarrel is being set today, simply throwing open the doors for a Democrat, either Joseph E. Davies or Dr. Charles McCarthy, to walk into the United States Senate. The State is bound to have a loyalist Senator in Hastings' seat, it is determined to refuse a Republican candidate, and the only Republican who can stand up to the necessary harmony which the Republicans must have to guard against La Follette's treachery. It will certainly elect a loyalist Democrat.

Situation in a Sentence.  
It is burning with zeal to punish the kindred types of disloyalty represented by La Follette's insidious tactics. Thompson of La Crosse, and the equal pro-German and Socialist candidate, Victor Berger of Milwaukee. It simply will not stand for La Follette's treachery. The loyalist Republican will play safe with a loyalist Democrat. There's the situation in a sentence.

Within the hour there has been an explosion of factionalism within the ranks of loyalist Republicans and to-night partisans of Representative Irvine L. Lenroot and ex-Gov. Francis E. McDevore are calling each other out of their names and are playing the prettiest kind of small town politics. Lenroot and McDevore are both active candidates for the Republican nomination. Neither is willing to withdraw in the face of a display of harmony and co-operation.

Each side is charging the other with bad faith and trickery. If feeling is growing bitter, it is not surprising that tonight the Republican party has bronchitis, but next week it may have double pneumonia and by April 2, unless it mightily improves, it is found, unless it mightily improves, it is found, unless it mightily improves, it is found.

There's a misunderstanding about what the voters are to be asked to do. Nothing can be done. If the loyalist Republicans go to the primaries with both Lenroot and McDevore, and if the voters elect either of them, the State will be divided and the chance of electing La Follette's man, Thompson, will be lost, especially since it is the voters' own fault. They are going to oblige La Follette by voting for Thompson in the Republican primaries.

Clean Cut Issue Presented.  
If Thompson were here a Democrat would certainly be elected because the issue will be clean cut between pacifism and preparedness, and between patriotism and nationalism on the one hand, and simply do what she did in 1914—elect a Democrat.

Lenroot beats McDevore or McDevore beats Lenroot if feeling as matters stand now, is likely to endure till election day. Thompson is apt to run independently as a swing vote on La Follette's side, but he will vote for La Follette if the voters will take no heed of mistakes and will give the State job to a Republican.

Army Airplanes for Route.  
Service will begin with six aeroplanes. The machines will be furnished by the War Department in accordance with a cooperative agreement under terms of which the aero mail route will be used as training for military aviators. As the machines are of military type detailed description of them is not to be made public at this time.

The War Department volunteered to cooperate in the maintenance of regular mail service on the day that bids for six machines were opened by the Post Office Department. As a consequence a set of the three bids submitted was rejected under the proviso in the invitation for bids in which the War Department reserved the right to reject.

The Washington-New York route is to be operated by military authorities for one year. The army will furnish all necessary machines and will detail all necessary aviators, mechanics and repair men from the military training schools.

At the end of this year of military operation the Post Office Department will take over the service. Various types of planes are to be used by the army, and the Department is to benefit of the experience gained and will have opportunity to train their own men.

At a result they will be in position to specify the particular type of machine considered most suitable when it again asks for bids. In the recent invitation the specifications merely called for a machine capable of carrying 300 pounds of mail matter and with a maximum speed of 100 miles an hour with full load.

## PEACE SIGNED BY RUSSIA; TREATY IS NOT DISCUSSED; JAPAN NOW READY TO ACT

CRISIS CLEARS WAY FOR JAPAN

Russian Peace Pact Expected to Incline Entente to Nipponese Plan.

DELAY NOW DANGEROUS  
Army Available and Ready to Strike at Once Toward Siberian Road.

Special Despatch to The Sun.  
WASHINGTON, March 3.—Prompt decision by the United States and the Entente Allies in endorsing the proposed Japanese expedition into Siberia may result from the German-Russian peace pact which Berlin announces has been signed.

The Japanese Government has made it known that in case peace terms were agreed upon by Germany and the Bolsheviks Japan would be prepared to take immediate action. It is admitted here that the signed peace makes further delay dangerous.

The German announcement that the Teuton armies had been halted in their advance into Russia as a result of the signing of a peace treaty is not regarded here as in any sense regarding the active efforts of German and Bolshevik agents to create a sphere of German influence in Russia. A great number of German and Austrian war prisoners are reported to have been armed and enrolled in the Bolshevik ranks.

TAKE SIBERIAN TOWNS.  
Bolsheviks Offer New Reason for Japan to Act.

Special Cable Despatch to The Sun.  
LONDON, March 3.—No news was received in London today regarding developments in Siberia except a report from Tokyo that Bolshevik troops had seized the four important cities of Biakovo, Khabarovsk, Khabarovsk, and Omsk.

Of these cities Khabarovsk is the most important as it is the gateway to the Chinese Empire and European Russia. The capture of these four Siberian cities by the Bolsheviks, in connection with the signing of the peace treaty with Germany, is being regarded here as a serious development.

Dispar "sun" Editorial.  
London papers gave much prominence to a despatch from New York quoting an editorial article in the Evening Sun which urged the United States to recognize the Provisional Government in Japan's proposal regarding Siberia.

The argument advanced that the extension of Siberia, which practically is continuous with Alaska, must not fall into the hands of Germany or any other power than Russia, strengthens the belief here that the interests of the United States demand that she must have a part in any military operations that would affect the naval control of the northern Pacific.

WAR POLICIES WIN IN BRAZIL.  
President and Vice-President Elected Almost Unanimously.

RO JAXIRO, March 3.—Although the election returns have not been received from all the States, it has been determined that Rodrigues Alves and Deodoro have been elected President and Vice-President almost unanimously. All political parties have their support to them on their pledge for a continuance of the present Administration's war policies.

Batoum, Karaband and Kars in Transcaucasia Are Surrendered by Last Demands.

PETROGRAD, March 3.—A German airman bombed various parts of the city. Three persons were killed and five wounded. The material damage was unimportant.

REASON, via London, March 3.—"By reason of the signing of the peace treaty with Russia," says the official communication from headquarters to-night, "military movements in Great Russia have ceased."

The Germans in the Caucasus through Russia have captured 1,000 officers and 2,000 men, 2,400 guns, 2,500 machine guns, thousands of motor vehicles, 800 locomotives and thousands of railroad trucks. The communication says:

Operations initiated after the lapse of the armistice treaty have led to great success. Troops under Colonel Count Kirchbach have captured in the Caucasus the towns of Batoum and Karaband, and also the town of Kars. The communication says:

The capture of Khabarovsk and Biakovo continued in their uninterrupted advance on the part of the German and Austrian troops. The capture of Khabarovsk and Biakovo continued in their uninterrupted advance on the part of the German and Austrian troops.
