

FOCH'S PLAN TO CUT OFF ENTIRE SALIENT

Had Gathered Forces for This Opportunity, Says U. S. War Department.

HIS PREDICTION EXACT

Supreme Commander Looked for Encircling Movement at Rheims.

WASHINGTON, July 19.—The counter offensive launched against the Germans by Foch is developing into an encircling movement which has for its object the cutting off of the entire salient made by the Germans in their Artois drive in May and reaching down to the Marne.

Washington is elated. With American troops engaged to this extent, officials in Washington feel their breath to-day, while the great battle went on and reports continued to come in showing the offensive of the Allies still making gains.

It was disclosed to-day in allied diplomatic circles that the Foch counterstroke had not been suddenly determined upon, but had been quietly in preparation for a week or more.

Further progress by the Allies on either side will involve huge German forces in the gravest peril. With their communications cut, the German salient would be a matter of great difficulty.

Gen. Pershing is conducting operations of the Americans in person, according to reports here. This explains the fact that only a few messages have come from him since the battle started.

As indicating the increase in the manpower at the disposal of the allies for driving the Germans out of the salient, it can be stated that the Americans now have 1,200,000 men either in France or on the way and 324,000 combatants at the front.

GERMAN DIPLOMACY SCORED BY GERMANS

"Frankfurter Zeitung" Calls for Internal Reform.

AMSTERDAM, July 19.—The German diplomatic system was subjected to the severest criticism in yesterday's issue of the Frankfurter Zeitung.

"When foreign countries see several persons with great influence upon the State pursuing in this country policies quite at variance with what they see that the intention of one side is openly opposed by another; when every declaration of those governing is immediately half recalled by a subsequent statement and a jangling dispute rages in the newspapers regarding the interpretations of the German official statements, it is not surprising that the German political system is false," says the newspaper in concluding its article.

The Frankfurter paper opened its article with the statement that the foreign policy pursued by Germany was carried out "in a noisy squabble, with opponents fighting and intriguing against one another."

"We have by no means pursued a single line and ten or fifteen policies, right and wrong, mixed," the newspaper added.

Referring to Chancellor von Hertling's recent statement in the Reichstag, the paper merely to carry out the policy of the Chancellor, the article says the Foreign Minister's prestige was thereby lowered, and also asked the German government to object to carrying on negotiations with a subordinate who had no plenary powers.

Pilot Killed in Rhode Island.

PROVIDENCE, R. I., July 19.—Lieut. F. Soutter, a naval aviator, was killed near East Greenwich to-day, when his airplane fell 100 feet into the water.

White is admitted that the larger plan of encirclement may not be accomplished, it is pointed out that already the Allies counter offensive of the German side of the salient would completely appear, has already been completely frustrated by the strategy of Gen. Foch, and that the driving power of American troops has contributed to this accomplishment.

A large cargo of relief supplies, principally foodstuffs, clothing and medicines, is to be despatched to Russia by the American Red Cross "at the earliest possible moment."

A special ship will be used and the cargo will be accompanied and distributed by a group of Red Cross representatives, who will work under the direction of the American Red Cross commission in Russia.
