The Supreme Court Says:

The Drawee (Bank) can be held bound only to know the signature of the Depositor, and not the handwriting of the check; and money paid in good faith and without negligence on an altered check, may be recovered by the Bank.

Do you use a check "protecting" or check writing machine? Does it protect—

- a. THE DATE? b. THE SERIAL NUMBER? c. THE PAYEE'S NAME?

The largest losses occur where the Payee's name is changed! Hasn't the salesman of some other device already shown you how your machine can be "beaten"? [Your bookkeeper probably knows.]

If you think you are protected—ask your bank.

If you use special or "safety" paper—it is all right—IF the maker will guarantee it!

If the machine and paper people don't guarantee their merchandise, why should you take chances?

We issue Check Alteration Bonds—the cheapest and ONLY sure protection!

WE PAY IF YOU LOSE—that's our guarantee

Our Bonds protect against any loss due to any feature of any alteration of any check or draft.

MAJ. BEAL, WAR HERO, WELL KNOWN HERE

Surgeon Killed in Action Had Military Record.

Major Howard W. Beal of Lewiston, Me., whose name appears in yesterday's casualty lists as having died of wounds, was well known in club, athletic and medical circles in New York.

When the Spanish-American war occurred Major Beal had just concluded his term as house surgeon of the Massachusetts General Hospital in Boston. He was commissioned a First Lieutenant of the Medical Corps and served as such on transports to Cuba and Porto Rico.

Later he was transferred to duty in the Philippines. In 1903 he resigned from the army and entered private practice at Worcester, Mass.

On the outbreak of the present war Dr. Beal immediately offered his services and sailed on the first Red Cross ship that left the United States on September 4, 1914. On arriving in England he became the head of the American Women's Hospital at Vauxhall, London, and England. He organized that hospital, which later became a model for similar institutions in France.

In 1915 Dr. Beal was compelled by reason of a physical breakdown to return to the United States. Thereafter he devoted his time to perfecting the efficiency of the Medical Department of the United States Army, and was a party to many conferences on that subject between the army authorities in Washington.

When America entered the war Major Beal again tendered his services and sailed for France on August 6, 1917. There he became consulting surgeon for Base Hospital No. 1 of the First Division. Later he became surgeon to the Sixth Field Artillery, and was acting as such when he was wounded on July 18 near Montdidier. Two days later he died at the American Red Cross Hospital in Paris.

Major Beal's widow, who was Miss Henrietta Hobbs of Boston, is well known in New York, where she now resides. She has been active in patriotic relief circles and has been a member of the military-naval fete for the benefit of the Women's Overseas Hospital, which she is also a member of the committee for the celebration of Bastille Day.

Major Beal was the recipient of many decorations and medals, including the Distinguished Service Cross, the Legion of Honor, the Croix de Guerre, and the Croix de Chevalier.

He was also a member of the American Legion, the American Red Cross, and the National Geographic Society.

VOLUNTEERS BARRED BY ARMY AND NAVY

Enlistments Suspended Pending Passage of Draft Legislation.

NEW REGULATIONS SOON

Baker Says Action Is Taken to Prevent Disruption of Industry.

Special Despatch to THE SUN.

WASHINGTON, Aug. 8.—Voluntary enlistments for both the army and navy were suspended to-day through orders from the War and Navy Departments, pending Congressional action on the proposed amendments to the existing selective draft law.

In the navy order the fact was mentioned that there might be a resumption of volunteering once the selective draft law had been amended. The order from the War Department stated that it would remain in force until "pending legislation with regard to draft law is disposed of."

Secretary Baker gave the following explanation of his order:

"This action is taken in order to prevent the disruption of the industry of the country and the impairment of the efficiency of the various governmental agencies which would follow the indiscriminate enlistment of men up to the age of 45."

It is the Department's intention to present to the President for promulgation regulations in connection with the operation of the selective system which will make it truly selective and leave it to the Government to determine whether men can be spared from their present occupations for military service.

Secretary Daniels said:

"The large increase in enlistments in the navy and Marine Corps has made it possible to support the government until pending legislation affecting the draft for the army is disposed of. When it is resumed it will be in full cooperation with the War Department under arrangements which will secure all the men needed for both services."

News Gathering Indispensable.

News gathering is an essential occupation, but not all reporters can be classified as essential. That is the gist of the comment made to-day by Secretary Baker on the ruling of a draft board that a reporter must give up his newspaper job and "go to work" under the work or fight proclamation.

"I do not hesitate to say that the gathering of news for the public information is an indispensable industry, but whether a certain person is indispensable to that industry I think must be determined upon facts," the Secretary said. "I think the question of his indispensability would depend upon the possibility of replacing him."

CROWDER CALLS 130,807.

New York Must Furnish 6,400 of These by August 30.

WASHINGTON, Aug. 8.—Calls for 130,807 draft registrants qualified for general military service to join the colors before the end of August were issued to-night by the Provost Marshal General.

One hundred thousand white registrants from forty-three States are ordered to appear for military service by August 30. Twenty-one States and the District of Columbia are directed to furnish 30,207 negro registrants to enter the army by August 30.

These orders bring the number of men called out in August to about 3,600,000.

New York State must furnish 6,400 white registrants, who will go to Camp Gordon, New Jersey 2,000 for Camp Meade and Connecticut 3,500 for Camp Greentree, Georgia. The New Jersey quota of negro registrants is 232. They are to go to Camp Dix.

King Ferdinand in Naumheim.

London, Aug. 8.—King Ferdinand of Bulgaria, with the Crown Prince and the princesses, who arrived in Naumheim, Germany, according to an Exchange Telegraph despatch from Copenhagen.

King Ferdinand apparently intends to remain a long time at Naumheim, where he is thought to be "Count von Muryan's" guest. It is reported that King Ferdinand left Bulgaria because of internal conditions. German newspapers merely say that the reason for his sudden visit is known officially.

GERMAN HERESIES BLOCKING PEACE

Balfour Discusses Dream of World Dominion.

LONDON, Aug. 8.—Replying to the arguments of pacifist Arthur Balfour, British Foreign Secretary, said in the House of Commons this afternoon that the true obstacle to peace was that educated Germans were still imbued with the grossly immoral heresy that a policy of universal domination was the true policy of any nation wishing to be great. This heresy, now in the grip of Germany, which insisted on dictating what kind of government Finland should have and had stripped her of copper and other materials, had established garrisons and had attempted to use her against Russia and the Allies.

Mr. Balfour said that the carrying out of German theories was even more strikingly exemplified by her eastern policy. He said that the Government was more than ever endeavoring in every way to bring the peoples there under her economic and military domination. Balfour went to Finland as a "liberator."

Next to being enslaved by Germany, there was no worse fate than being liberated. Mr. Balfour said that the Government was more than ever endeavoring in every way to bring the peoples there under her economic and military domination. Balfour went to Finland as a "liberator."
