Read What Others Say About The American Standard Bible

It is the crystallization of the best elements of ripe scholarship and sound learning, and is a fitting climax to the tremendous advances made in Biblical learning during the last half of the nineteenth century.—*Ira M. Price, Ph. D., LL.D., Secretary of the International Lesson Committee.*

Editor of the "Sunday-School Times" says: "In view of the clear revealing of its meaning in the text, the more thoughtful Bible student of today does not feel really safe in studying a Bible passage unless he works with the American Standard in hand. It has been the accepted standard for the columns of the 'Sunday-School Times' since its first appearance in 1901.—*Charles Gullaudet Trumbull.*

Having in our possession a superior English Bible and being perfectly aware of its superiority why persist in teaching the children an inferior version for no better reason than because it is familiar to us.—*The Continent.*

Most stimulating and helpful.—*John R. Mott, Student Volunteer Movement.*

Every Christian worker should have The American Standard Bible.—*W. R. Moody, Moody Bible School.*

We believe it is the best English version of the Bible published.—*Prof. W. W. White, President, Bible Training School.*

It avoids many false renderings.—*Rev. J. W. McGarvey, D. D., College of the Bible.*

It is pre-eminently the version of the Scriptures for the common people.—*Rev. J. T. McFarland, D. D., Editor Methodist S. S. Periodicals.*

I am free to say that I regard the American Standard Bible as the most accurate and vivid rendering of the Hebrew and Greek originals of any version yet issued in any language.—*Rev. Benjamin Breckenridge Warfield, D. D., LL.D., Princeton Theol. Seminary.*

The beauty of Nelson's new Century Library in this edition of the greatest novels in our language is due to exquisite taste and great experience in bookmaking.—*Buffalo Commercial.*

THE AMERICAN STANDARD BIBLE

THE BIBLE IN THE LANGUAGE OF TO-DAY
Authorized and Edited by The American Revision Committee.

The Same Old Bible

The American Standard is the same old Bible that we have always used, but it gives the exact meaning of the inspired writers, in the LANGUAGE OF TO-DAY instead of in the language used three hundred years ago.

The Authorized Standard Version

The American Standard is used by all the Colleges, Theological Seminaries and Bible Training Schools in the United States, and has become with them as with the editors of all Sunday School periodicals the authorized standard version of the Bible.

It is Used Exclusively By The Great Religious Denominations because they realize that it brings the plain reader more closely into contact with the exact thought of the Sacred writers than any version now current in Christendom.

The American Revision Committee devoted thirty years to the work and at the end of that period produced what is now recognized as the best version of the Scriptures ever published in the English language.

Every American Now a World Citizen

"The remarkable events that are being enacted in our day have brought every man, woman, and child of the United States into close touch with all other peoples and countries. What is going on in Great Britain, France, Russia, Italy, Canada, Germany, South America can never be a matter of indifference to us again. The Great War has made us Citizens of the World. For this reason I am glad to have association with NELSON'S Great Enterprise which is helping people to world citizenship."—*Dr. John H. Finley, N. Y. Commissioner of Education.*

The War is over.—The Reconstruction Period is On

Nelson's Perpetual Loose-Leaf Encyclopaedia is the only Encyclopaedia keeping pace with the activities of the modern world; all old fashioned reference-works have been simply marking time during the greatest years in history.

Nelson's Loose-Leaf has recorded the events of the war as they have occurred. With the same care and accuracy it will follow the tremendous changes that must inevitably come with the conclusion of peace. The war is now history. Nations are being remade. You must keep in step with the world to-day.

NELSON'S Perpetual Loose-Leaf ENCYCLOPAEDIA

& Research Bureau for Special Information

An American Idea—The American Encyclopaedia—Born in America—Made in America—By Americans—For Americans—And It Is the Standard Authority for the Whole World.

The fact that Nelson's Perpetual Loose-Leaf Encyclopaedia is the standard authority in every quarter of the globe is in itself the highest recommendation. No book which is not thoroughly good could stand the inquisition of hundreds of thousands of readers and continue to sell as Nelson's is selling now.

The Editorial Staffs are among the unquestioned leaders of the educational world. The Editor-in-Chief is John H. Finley, Ph.D., LL.D., Commissioner of Education and President of the University of the State of New York; the Associate Editors are Sir William Peterson, LL.D., K. C. M. G., Principal of McGill University, Montreal, Canada, and Sir Edward Parrott, M. A., LL.D., F. E. I. S., Edinburgh, Scotland. More than 1,000 Educators and Specialists are engaged in making this great work, and in keeping it always fresh and new. So unquestionably high are the names and reputations of these men that the scholarship, the accuracy, and the thoroughness of NELSON'S are assured for all time.

Bound in Twelve Handsome Volumes

The Patented Loose-Leaf Binder makes a volume so practical that by simply turning a nut the pages are loosened, the obsolete pages easily removed, and the new pages substituted. The Publishers issue to subscribers not less than 200 revised pages each six months—in March and October—thereby keeping Nelson's Encyclopaedia always new and abreast of the times.

Nelson's Research Service Bureau

Nelson's Permanent Research Bureau for Scientific Reports, Special Information, and Special Correspondence. It is prepared to answer fully and freely any question, and to supply free any information that Nelson's subscribers may ask on any subject, large or small, old or new. Nelson's Research Service Bureau will furnish the latest information on that subject.

Nelson's Perpetual Loose-Leaf Encyclopaedia Is a Complete College Education in the Home

Nelson's Reading and Study Courses in United States History, Business Economics, Nature Study, Agriculture, and Home Economics, are declared by educational authorities to be equal to a college course and training in each of these departments.

Thus, with the Reading and Study Course on Agriculture used in connection with Nelson's Perpetual Loose-Leaf Encyclopaedia, a boy can remain on the farm and yet receive all the advantages of a college course in Scientific Farming; with the course in Home Economics a girl may have the services of the leading authorities on household economics without leaving her home; while the Business Economics Course will furnish the professional and business man with a business training superior to that which can be obtained from any of the widely advertised business institutes.

"When All Others Fail, Look It Up in Nelson's"
