

GERMANS ORGANIZE TO PROTECT KAISER League Is Being Formed to Protest Against His Delivery by Holland to Allies. HINDENBURG IS SPONSOR Organizers Disclaim Any Purpose of Trying to Restore Old Monarchy.

By the Associated Press. WEIMAR, Feb. 13 (delayed).—An urgent appeal to all Germans to unite to prevent former Emperor William from being delivered up for trial was published to-night in the Landeszeitung Deutschland, a new German organ being issued here. The appeal is headed "League of German Men and Women for the Protection of the Person, Freedom and Life of William." Appended is a statement by Prince Henry of Prussia, who was asked to assume sponsorship for the league, but declined in favor of Field Marshal von Hindenburg. The appeal reads: "The life of a German citizen is endangered by the shameless domination of our opponents that Emperor William II. shall be delivered up for execution. This would constitute a new and deeply humiliating insult to the honor of Germany. To completely deprive a deliverer there shall be created a gigantic league of German men and women who intend to save the German people from the execution of their Emperor. The appeal quotes the sentence "It is worthy of the nation which falls to do everything for its honor's sake," and continues: "The league to be created emphasizes specifically and protests from the start against the implication that it has other intentions that are remote from its thoughts, and declares it will make no effort to restore the former Government or conditions. On the contrary the purpose outlined above is its only goal. Former diplomats and other counselors of the Emperor are to be induced by the league to place their knowledge of the situation at its disposal for the writing of newspaper articles to be given out by the league. "Through the compilation of these articles into a White Book it will be easy to prove completely the innocence of Emperor William II. and to show the world clearly the truth that has been so distorted by the Entente. Even the German people and the Allies have had doubts themselves. But through the fact alone that millions of German men and women openly announce their protest by joining the league in its fight against the Emperor's delivery, the Dutch Government will be strengthened in its determination to uphold the correct viewpoint of international law. The consequence will be that the Entente will have to give little Holland credit that it does not leave him who put his trust in her—the hard pressed Emperor—in the lurch. "He who does not wish to be guilty of a crime which is preventable if we do not show indifference should come freely and openly into our league. "The appeal states that it has been numerous signed and gives addresses where would be members may join.

FRAU EBERT AVOIDS WHIRL OF SOCIETY Says She Will Observe Traditions of Workman's Family. By the Associated Press. BERLIN, Feb. 13 (delayed).—The mistress of the German Presidential residence is a comely "hausfrau" of medium height and slender figure. To the present time always has attended to her own household duties, done the family cooking and even has been her own dressmaker. Frau Luise Ebert, wife of the President of the German Republic, was born forty-five years ago in a workman's home in Bremen. She views her new social environment with resignation. "I know very well that the world will attack me from the right and the left," she said to-day in discussing the new position in which the Ebert family finds itself. "Those coming from the left probably will be the worst. They will charge us with attempting to extricate ourselves from the caste in which we have been reared, but that never will occur. Whatever may come we are going to remain true to our traditions as a plain workingman's family. "The eldest son of the family, Friedrich Ebert, Jr., has taken up newspaper work. The second son, aged 20, only recently was discharged from the army. The only daughter, Amalie, 19, until a short time ago was employed as a clerk by a downtown firm. She now accords herself on occasion the privilege of riding in the Presidential motor car. President Ebert lost a son in the fighting in Macedonia and another in the Chemnitz mine disaster of 1914. The family up to two weeks ago had been living in a suburb of Berlin but now is installed in official apartments of the Department of the Interior in the Wilhelmstrasse which formerly were occupied by high officials. The permanent official residence of the new President has not been determined upon, and President Ebert has expressed aversion to the Bellevue Palace as such residence on the ground that it is "too imposing." Just how the newly elected President and the "first lady" of the land will approach the solution of the various complex questions facing them in their new status has not yet been developed. The question of official receptions already is worrying certain circles in the capital who contemplated with some concern the shift from the splendor of the Hohenzollern levees to the threatened simplicity of the new regime. The new position to which Frau Ebert has attained has caused her to be beset with offers from Berlin modistes and tradespeople.

LAWYER FOR RADEK BARRED BY TROOPS Bolshevik Propagandist Held Incommunicado in Irons. By the Associated Press. BERLIN, Feb. 14 (delayed).—Selgfrid Weinberg, attorney for Karl Radek, the Bolshevik propagandist who was arrested several days ago, has been denied admission to the cell occupied by his client. Weinberg, who has been prominently identified with the Spartacist movement in Berlin, obtained the permission of the courts to communicate with Radek, but an interview was denied at the last moment by a Lieutenant of the Reichswehr regiment which arrested Radek. Radek, according to a statement made by Weinberg, is in the Mitau jail and also is heavily handcuffed. The Red Flag, the Spartacist organ, in discussing the arrest of Radek says: "We make no secret of our regrets

that one of the best of our international comrades and a leader in the Russian revolution who has set himself an enduring monument in Russian history, has fallen a victim to the spite of the 'Socialistic' German Government." The Spartacist organ says that two systems of justice prevail in Germany, and adds: "The first was applied in the instance of Liebknecht and Rosa Luxemburg. It was an assassination. The second is military, and evidence is accumulating in the present case that the military authorities are not relinquishing their prerogatives. It may be said, however, that if Radek is to become a similar sort of victim the Russian Government would need satisfy itself with more moral protests, just as the moral protest of the German proletariat against the murder of Liebknecht and Rosa Luxemburg is not the final word that the proletariat will have to say in this matter."

GERMANY TO SEIZE FORTUNES OF RICH Socialists Also Plan Heavy Levy on War Profits.

By the Associated Press. WEIMAR, Feb. 14 (delayed).—There will be a sharp seizure of the fortunes of the wealthy, according to a prediction made before the German National Assembly to-day by Dr. Heim, a Socialist, in discussing the Socialist program, especially concerning taxation. He did not believe, however, that the Government would be able to get the great sums needed by seizing fortunes, and he thought that the remainder must be taken from the war profits. Heim devoted himself to praise of German qualities, except Germany's foreign policy, which he called tactless and mistaken. He said that disapproval greeted him when he said: "It is a question whether it was wise to draw America into the war by unrestricted submarine warfare. "It is a deliberate lie to say that Germany wanted war," he added. "Neither the German Government nor the German people wanted it."

Philip Scheidemann, the Chancellor of the new German Government, showed himself able to handle the conflicting demonstrations in the new National Assembly with no sign of being intimidated by the widest opposition or moved by the most severe heckling. Since the meeting of the National Assembly was opened has been so outspoken toward his opponents. One of the incidents of his speech yesterday was his reference to Austria's desire to join Germany. He said: "We do not reject adherents, and by the same token nobody wishing to join us should be prevented." There was almost a threat in his warning: "The Entente is able to force any kind of peace on Germany, but if it is an unjust peace 70,000,000 people in their hearts will never forgive or forget." Adolf Groeber, Central, followed the Chancellor, as leader of the best strong party, and, like Herr Scheidemann, emphasized "work" as the watchword of the new republic. He protested against the use of force in arranging for peace, the severity of the armistice conditions, the French desire for annexations, the Polish demands and plans to put an Emperor on the throne of Austria, "all a part of a scheme to humiliate Germany." He asserted the League of Nations would "contain seeds of new wars unless constructed on principles of justice."

500,000 ARMY BILL FACES QUICK DEFEAT Point of Order to Compel Substitute Measure.

WASHINGTON, Feb. 15.—Defeat through parliamentary tactics of proposed legislation of the House Military Committee authorizing organization of a temporary army of half a million men for the year beginning next July was indicated to-night in the House. Representative Humphreys (Rep., Tenn.) gave notice that he would make a point of order against the army organization provision on the ground that it is legislation and has no place in an appropriation bill. Expecting the defeat through this move Representative McKenzie (Ill.), Republican member of the Military Committee, submitted a substitute proposal, which he said, had the approval of several members of the Military Committee. The fight on army reorganization will come before the House Monday or Tuesday, when work on the military bill is resumed after completion of the unanimous consent calendar. Mr. McKenzie's proposal would authorize organization of a regular army of 175,000 men through volunteer enlistment of three years as provided in the national defense act of 1916, and would give the President discretionary authority to include in it new units, the usefulness of which was demonstrated by the war. During consideration of the bill to-night the House adopted without objection an amendment proposed by the Military Committee appropriating \$4,487,000 for pay to National Guard members for attending drills. Other provisions relating to the guard, including that contemplating organization of a force of 100,000 guardsmen under the national defense act of 1916, and appropriations aggregating \$10,150,000 in addition to the amount added for drill pay, were approved without dissent.

NEW YORK TROOPS SAIL MARCH 2, 3, 4 Leviathan One of Six Transports to Bring National Guard Home. BAKER TO HOLD REVIEW Secretary Ready to Congratulate O'Ryan on Work of Twenty-seventh.

Special Despatch to THE SUN. WASHINGTON, Feb. 15.—Secretary Baker announced to-day that the Twenty-seventh Division, composed of New York National Guardsmen under Major Gen. O'Ryan, would leave Brest for New York as a unit on March 2, 3 and 4. The War Department is making plans and cooperating with Gov. Smith of New York to provide a parade and fitting tribute to the men shortly after they reach Camp Upton. This is to be the most spectacular war celebration held in the country. The New York Guardsmen are scheduled to sail on the Leviathan, Mauretania, Harriburg, Louisville, Agamemnon and Pannonia, but Mr. Baker said this list was subject to change. The trip is expected to take from nine to ten days. The parade of the Twenty-seventh will be one of the few cases where a whole American division can parade as such. One reason for this, Mr. Baker explained, is that the division is made up of troops from approximately the same locality which need no railroad transportation to take them from camp to a city large enough to receive them. There have been comparatively few replacements in the Twenty-seventh. Secretary Baker expects to confer with Major Gen. O'Ryan and congratulate him if the secretary is not in Europe when the Twenty-seventh reaches New York.

ARMY DISCHARGES 1,174,545 TROOPS New York Leads States in Soldier Quotas.

WASHINGTON, Feb. 15.—Army discharges in mobilization in the United States has reached yesterday a total of 1,174,545 officers and men, and the total number assigned for demobilization was 1,661,000. Of those discharged, 71,235 were officers. The figures were announced to-day by Gen. March. Up to February 11, 305,000 soldiers abroad had embarked for home, 59 per cent. of them being brought in American ships. In the first ten days of February alone 60,000 had embarked. The total landed was given as 277,000, the remainder being still at sea. Gen. March announced fifty-six cargo vessels now have been ordered converted into troopships, giving an additional capacity of 140,000 men a month and forecasting greater speed in the return of troops. The War Department has released former war tonnage to the Shipping Board amounting to ninety-three steamships of 433,000 tons, and expects to return about 300,000 tons a month of cargo craft from now on. Since the armistice a number of ships assigned to the army have been diverted to the use of transporting food supplies to Europe. Thirty-nine ships of 234,000 tons have been thus diverted, Gen. March said, and their work is now practically complete. They have landed 170,000 tons of foodstuffs at Rotterdam and 38,000 tons at Trieste and Dalmatian ports. Reserve Commissions Granted. Reserve commissions have now been given to 16,418 officers released from the army, and applications for appointment in the Regular Army have been received from 9,024. The first commission is due at New York about February 24, the War Department announced to-day, with casual companies as follows: Texas, 2; North Carolina, 1; Virginia, 1; Tennessee, 1; West Virginia, 1; Alabama, 1; New York, 1; South Carolina, 1; and Marine, 1. Also on board is the headquarters

BATTLE DEATH RATE

The battle death rate for the entire American Army in this war was 20 per thousand a year. In the Expeditionary Forces it was 57 per thousand a year. The disease death rate was 17 per thousand a year in the Expeditionary Forces and 14 in the army at home. Among the American forces, the table showed the battle death rate was only half that of the British Expeditionary Forces, which was given as 119 per thousand a year. Gen. March said that the lower death rate from disease undoubtedly was due largely to the inoculation requirement of the army, and, secondly, to the efficient work of the Medical Corps. But for the influenza epidemic, he said, the disease rate would have been cut in half. The table of comparative battle and disease death rates per thousand a year for wars in which the United States has engaged since the war of 1812 follows: Battle Disease Death Rate. Mexican War... 119 119 Civil War (North)... 119 119 Spanish War... 119 119 Present War (A.E.F.)... 20 17

of the 16th Field Artillery Brigade, and the headquarters company, supply company and Batteries A, B, C, D, E and F of the 124th Field Artillery. Other troopships en route home are the West Point, due at Boston February 27; the Florence Luckenbach, due at New York, March 4, and the Artemis, due at New York, February 24 with a few camels each. The following organizations were announced to-day as assigned to early duty: Evacuation Hospital No. 1, Base Hospital No. 23 and 47, Eighth Aero Squadron, photographic sections Air Service Nos. 10 and 23. Minister Garrett at The Hague notified the State Department to-day that the Netherlands Government had consented to aid in the return home of American troops by permitting transshipment to transports at Rotterdam of soldiers brought down the Rhine. Assurances also were given that war material sequestered in Holland would be restored soon. The Dutch Foreign Minister specified that the transports should fly the complete flag, that only officers and only officers be permitted to bear arms, and that notification be given to the Netherlands Government of such transport. The only military equipment on the Rhine will be placed in separate boats. Each convoy will also be accompanied by a Netherlands officer to maintain order in case of any communications with the authorities of the country. The figures are compiled up to November 11, and the grand total includes the overseas garrisons in Porto Rico, Hawaii and the Philippines and in Alaska, as well as the American Expeditionary Forces and the army at home. The States furnished the following number of soldiers: New York... 27,864 Massachusetts... 27,800 Pennsylvania... 27,800 Ohio... 27,800 Illinois... 27,800 Indiana... 27,800 Michigan... 27,800
