

DECISION ON DANZIG PAINS PADREWSKI

Polish Premier Says It Appears to Be a Success for Germans.

REACHES PARIS TO PLEAD

Asserts That Seaport Must Be Awarded to One Country or the Other.

Special Wireless Dispatch to The Sun. Copyright, 1919, all rights reserved. PARIS, April 6.—Upon his arrival in Paris this morning Ignace Jan Paderewski, Premier of Poland, showed every sign of intense disappointment over the decision announced by Marshal Foch after his conference at Spa with Matthias Erzberger, representing Germany, that Gen. Haller's Polish army, now in France, necessarily would not be transported to Poland through Danzig, but might go by railway or other routes.

HAL MISS ZELTER AS BRIDE TO BE

200 East Side Notables Sit at Feast When Engagement Is Announced.

There was no necessity for the East Side Wireless News Association to disturb the other waves last night in announcing the friends of the Zelters—Louis, father of the clan, being president, general manager, division superintendent and traffic supervisor of the only medium of communication not yet brought under the blighting attention of Mr. Burleson.

Can Be No Union.

Premier Paderewski asserted that there could be no union between Germany and Poland. The question of the final disposition of Danzig, he added, must be solved, not by force, but by one country or the other, and it would be an act of justice to give it back to Poland, to which Danzig had belonged in years gone by.

Troops to Move Quickly.

The German agreement to carry the Polish troops on German railways has insured the immediate transfer of a large number within a fortnight, while the lack of ships would have prevented the Entente from moving all the Polish legions from France to Danzig within two months, probably more.

RUSSIA CAUSED WAR, HELFERICH ARGUES

Former German Vice-Chancellor Reiterates Excuse. By The Associated Press. BERLIN, April 5 (delayed).—Russo-German negotiations in July, 1914, are described from the German viewpoint by Dr. Karl Helfferich, former German Vice-Chancellor, in his book "Free War History," which will be published shortly. Herr Helfferich refers to a visit made to Berlin on July 26, 1914, by L. P. Davydoff, a prominent Russian banker, who wanted Helfferich's view on the possibility of persuading Austria to modify her ultimatum to Serbia. After the interview, Alfred Zimmermann, then Under Secretary for Foreign Affairs, and Helfferich suggested that a free hand should be given Austria in Serbia, with the assurance that any action she took should not disturb the balance of power in the Balkans.

Special Wireless Dispatch to The Sun. Copyright, 1919, all rights reserved. PARIS, April 6.—The American relief administration has taken measures to halt the growing Bolshevism in Bulgaria, a country which Rumania has been expressing fear to the Peace Conference. Advice received from Sofia says that the delivery of a consignment of American food supplies has had an excellent effect in discrediting Bolshevik agitators. The main reason for the headway they were making was that the Bulgarians were beginning to believe their statements that the Allies and associated Powers, especially America, had deserted them and were going to let them starve.

MOROCCAN CASE WAS UP

Spencer Argued President Could Use Any Method or Means He Pleas.

WASHINGTON, April 6.—In a statement tonight declaring that a careful observer "cannot fail to note that opposition to the League of Nations is rapidly crumbling," Homer S. Cummings, chairman of the Democratic National Committee, reproduced extracts from a speech delivered by Senator Lodge (Mass.) in 1906 to show the attitude of the Republican leader at that time toward the negotiation of treaties by the President without advance consultation with the Senate.

RUSSIAN STRIKE CONTINUES.

Anti-Bolshevik Factions Active in Many Places.

Special Cable Dispatch to The Sun from the London Times Service. Copyright, 1919, all rights reserved. MOSCOW, April 6.—The workers' agitation, which has been spreading since the strike of three days from March 15 to 18 only half of the shops of the Futoloff munition factory were working. The Social Revolutionaries of the Left, who are hostile to the Bolshevists, dispersed the strikers in a series of meetings, and the workers to overthrow the commissaries, and widespread pacifist propaganda has led to numerous arrests. On March 29 a company of commissaries were sent to break up a meeting, but the strikers refused to fire. At the Troitsk factory the Bolshevist commissary Pavelovsky was arrested, whereupon the Red Guard, but damaged the heating apparatus, filling the place with steam, which caused injuries to more than 100 persons.

AYERS FIGHTS CLARK FOR FLOOR LEADER

Asserts That He Has Failed to Champion Party.

WASHINGTON, April 6.—Lured by a promised place on the phantom Democratic "steering committee" in the next session, Charles H. Ayers (Kan.), the only one of his political complexion, was able to squeeze his way back into Congress last November when the State convention of the Republican party in Missouri elected him to the position of Champ Clark, senior speaker of the House, the Democratic floor leader. Mr. Ayers' "out" to the effect that Mr. Clark did not descend from the Speaker's rostrum and defend the Democratic party and the Administration from the attacks of the House, which he repeatedly for blundering, extravagance and inefficiency. Friends of Mr. Clark pointed out in answer to this that Ayers had been closed all day and that he had been in the House and had only learned of the wrecking complaint against the fact that the House Democrats failed to caucus enough to suit him during the last session. "I am informed that never before in the history of the American Congress has a party failed to hold a caucus during the entire session," he said, "and the history of the Democratic leadership in the Sixty-fifth Congress."

PROVIDENCE POLICE BATTER BOLSHIEVIKI

They Tried to Break Up Mme. Breshkovskaya's Meeting.

PROVIDENCE, R. I., April 6.—Bolshevik sympathizers created a near riot in the Opera House here tonight during the address by Mme. Catherine Breshkovskaya. Police reserves were called out, and following a liberal application of nightsticks to the disturbers were ejected from the theatre. No arrests were made. The third gallery of the theatre evidently contained a large sprinkling of those who opposed the sentiments that have been expressed by the "Grandmother of the Russian Revolution," for at the minute of her appearance on the stage hisses and jeers broke forth from that quarter. While the audience on the main floor tried to sing "The Star Spangled Banner," the "reds" in the gallery were shouting their loudest or singing "The Revolutionary March."

TANKS TO REMAIN IN U. S. PEACE ARMY

Minimum of 1,050 Will Be Kept in Service.

WASHINGTON, April 6.—Recognition of the importance of armored tanks "ordinarily" in the future of the world is indicated by the peace time organization of this arm, just approved by the War Department. The United States will maintain in commission and ready for service under these plans a minimum of 1,050 tanks, 330 being of the heavy and 720 of the light type. The tanks known as the "signal tank" is provided for each company and battalion commander, forty-five in all being comprised in the complete tank organization. A total of 1,050 tanks of one battalion of heavy tanks and two of light tanks will be attached to each army corps. The typical heavy battalion includes 100 tanks, 20 of which are in reserve, and the light battalion, 45 fighting machines with 27 in reserve. The American light tank, adopted late in the war, is a compact machine operated by two men and armed with machine gun or rapid firing rifle. It is capable of better than fifteen miles an hour, and is more maneuverable than any other tank in the world.

SERVICE MEN RAID CLUB AND WRECK IT

Rooms of Soldiers, Sailors and Marines Association Here Are Attacked.

BOLSHEVISM IS CAUSE

Copies of Debs's Last Speech Found on Floor—Radical Propaganda Discovered.

The club rooms of the Soldiers, Sailors and Marines Protective Association at 123 East Twenty-third street were wrecked at the hands of fifteen and twenty men in the uniform of soldiers, sailors and marines between 8:55 and 9:05 o'clock last evening. According to passersby who told the police what happened, the men entered the room on the second floor, using a key to open the street door and a larger and more powerful object to break the glass above. They turned on the lights and proceeded to wreck the inside of the place, throwing stray chair legs and telephone arms through the large plate glass window to the street and barely missing with a typewriter some of the large crowd that quickly gathered. Some one telephoned to the East Twenty-second street police station, but by the time Sergeant McCarthy, Police-men Wetzel and Steger and the reserves arrived the show was over. The men in uniform finished the fun by tearing out the chandeliers in the clubrooms, breaking the glass in all the doors on the way to the street and disappearing quietly in many directions by means of the stairs and subway. They took with them one of their number who had been injured in the melee. The one clue to the cause of their activity which they left for the crowd to repeat to the police was the word "Bolshevism."
