# La-may Face Powder Is Harmless to the Most Delicate Skin

Now you can use a pure face powder that is guaranteed not to injure the most delicate baby skin. It will not cause enlarged pores, blackheads and irritations. And it really stays on better than any other face powder. It does not contain white lead or starchy rice powder (Poudre de Riz) to make it stick. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. The specialist who makes this improved powder uses a medicinal ingredient that doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and pimples. It is also astringent, discouraging flabbiness, crows' feet and wrinkles. Because it is pure and because it stays on so well this La-may powder (French Poudre L'Amé) is now used by over a million American women. The large size is only fifty cents and the trial size is twenty-five cents. Remember, La-may is guaranteed absolutely pure. [One thousand dollars reward is offered to anybody who can buy a better face powder anywhere at any price.] Refuse substitutes. Your common sense will tell you that when you are offered a substitute it is sure to be a demonstrator trying to sell an inferior powder that pays a big commission. When you use this absolutely pure La-may and see how splendidly it beautifies your complexion, you will understand why it so quickly became the most popular beauty powder sold in New York. Save this notice. La-may Rouge is also pure.

# Blyn Shoe

## White Footwear Season

"For outdoor and indoor wear white footwear has the call"—say all style authorities.

Blyn White Footwear has that full-measure value in service and appearance—in low price and high quality—that has been inseparably associated with the name "Blyn" for many seasons.

## If Health, Cleanliness, Economy Mean Anything—Buy a BOHN SYPHON REFRIGERATOR

- The Bohn Siphon keeps the moist, dry, pure air circulating rapidly, preventing mingling of odors and the settling of impurities upon the food. The drain is in front. Instantly removable without disturbing the food, so it can be cleaned thoroughly every day. This means HEALTH.
- Lowest temperature of any refrigerator ever built due to the Siphon system of rapid air circulation and to the scientific construction, with "Frazilin" insulation in walls and doors. All dining cars (a severe test) use Bohn Siphons. This means EFFICIENCY.
- Lining of genuine porcelain fused into steel (a single piece in all but the very largest models). Look out for painted tin, called "porcelain enamel," etc. The corners of the Bohn lining are round—no place for food particles to lodge. This means CLEANLINESS.
- The scientific construction of the Bohn Siphon, famous throughout the world, makes it a great ice-saver. Think what this will mean this summer, with price of ice probably the highest ever known; then multiply your saving by the years you will use your Bohn Refrigerator. This means ECONOMY.

Call if you can—if not, write or phone for catalog.
