

J. S. SEND WARNING TO RUSSIAN SOVIETS

Threats of Reprisals for "Arrest" of Martens Brings Reply From Washington.

Special Dispatch to The Sun.
WASHINGTON, July 1.—Warning was sent today to the Russian Soviet Government by Acting Secretary of State Phillips that the recent threats of reprisals in Russia against citizens of the United States there would arouse strong sentiment here against the Soviets. The letter, which was sent through the American Legation at Stockholm, the channel through which had come

a letter from the Bolshevik Foreign Secretary, M. Tchitcherin, protesting against the alleged arrest in New York of Martens, the Bolshevik representative, follows:
"Please inform proper Swedish authorities at once as follows: The statement purporting to emanate from Moscow is wholly untrue. Mr. Martens has not been arrested nor does this Government contemplate any action against law abiding Russian citizens in this country. It is understood that Mr. Martens claims official status as the representative of a regime at Moscow, which the United States has not recognized as a Government."
"At the same time he is a German citizen, having voluntarily so declared himself when he entered this country in 1916."
"This Government has not forgotten the unwarranted arrest and detention for months of Consul Teadwell, and the illegal and unjustifiable imprisonment under severe hardships of Vice-Consul Duuri and Leonard, contrary to the fundamental practice of civilized nations."

Nor has it forgotten that an American citizen, Kalamitano, has been held in prison at Moscow for months under sentence of death, without proper trial and without opportunity for his Government to assist him.
"The Government of the United States now views with grave concern the reported threat of the authorities at Moscow to take further illegal measures in the form of reprisals against American citizens in Russia. Such a course, if adopted, would be certain to arouse in the United States an overwhelming public sentiment of indignation against the authorities at Moscow responsible for such acts."

HAMBURG OCCUPIED BY NOSKE'S TROOPS

Government Forces Enter Port Without Fighting.
LONDON, July 1.—Hamburg, which has been in the power of Spartans and

Communists for a week, was occupied at 5 o'clock this morning by the Government troops under Gen. von Lätow-Vorbeck. The Exchange Telegraph despatch from Copenhagen reporting the occupation says there was no fighting.
Another Exchange Telegraph despatch from Copenhagen says that American foodships on the way to Hamburg received wireless orders to change their course, with the result that no ships have arrived at Hamburg in the last five days.

Officials here of the United Shipping Board, which is handling the vessels engaged in food relief and of the Food Administration, said yesterday they had received no word indicating movement of food ships to Hamburg had been interfered with.
"On the other hand," a Shipping Board official said, "the reports we have received from that port relative to the food relief steamships have been most encouraging. One of the last ships we heard from reported that her cargo had been fully discharged there and 6,000

tons of ballast taken aboard, all within six hours, an exceptional record under even the best conditions."
